	Page
<b>Preface</b>	<b>vii</b>
<b>I. Overview</b>	<b>I</b>
<i>George Kopits</i>	
The Case for Tax Harmonization	3
Principles of International Taxation	5
Efficiency Considerations	6
Equity Considerations	8
Administrative Aspects	9
Proposals for Tax Harmonization	10
Commodity Taxation	10
Capital Income Taxation	11
Related Measures	12
Economic Effects	13
Allocative Effects	13
Distributional Effects	15
Macroeconomic Effects	16
Effects on Non-EC Countries	18
Systemic Implications	19
<b>II. Taxes on Commodities: A Survey</b>	<b>22</b>
<i>A. Lans Bovenberg and Jocelyn P. Horne</i>	
Theoretical Background	22
Origin Principle Versus Destination Principle	22
Application of the Destination Principle	23
Harmonization of the Value-Added Tax	25
Proposals for Administration	25
Proposals for Rate Approximation	29
Harmonization of Excise Duties	31
Proposals for Administration	32
Proposals for Rate Approximation	33
Lessons from Federal Systems	39
Effects of the Commission's Proposals	41
Allocative Effects	41
Distributional Effects	44
Revenue Effects	45
Macroeconomic Effects	46
Effects on Non-EC Countries	51

<b>III. Taxes on Capital Income: A Survey</b>	<b>52</b>
<i>Edward H. Gardner</i>	
Theoretical Background	52
Residence Principle Versus Source Principle	52
Allocative Distortions	52
Tax Neutrality	53
Intercountry Equity	55
Present Tax Treatment	56
Corporate Income Taxation	56
Taxation of Financial Investment Income	56
Other Taxes	58
Proposals for Tax Harmonization	58
General Objectives	61
Corporate Income Taxation	61
Taxation of Interest Income	62
Effects of Corporate Income Tax Proposals	63
Allocative Effects	64
Revenue and Distributional Effects	65
Effects on Non-EC Countries	66
Effects of Interest Income Tax Proposals	66
Allocative Effects	66
Budgetary Effects	69
Distributional Effects	70
Appendix: Net Budgetary Effects of a Withholding Tax on Interest from Government Bonds	71
<b>IV. Corporate Tax Harmonization and Capital Allocation</b>	<b>72</b>
<i>Angel de la Fuente and Edward H. Gardner</i>	
Taxation of Capital in an Open Economy	72
Corporate and Personal Tax Wedges	72
Implications for the EC	73
Corporate Tax Wedges	75
Methodology	75
Measurement	76
Results	77
Simulation of Allocative Effects	79
The Model	79
Results	83
Conclusions	86
Appendix: Cost of Capital and the Corporate Tax Wedge	87
Firm Optimization	87
Demand for Capital	88
Capital Market Equilibrium and the Arbitrage Condition	89
Cost of Capital for a Firm with Mixed Financial Structure	89
<b>V. An Analysis of the EC Structural Funds</b>	<b>92</b>
<i>James Gordon</i>	
Arguments for Intra-Community Transfers	93
Equity	93
Efficiency	94
Stabilization	95
Welfare Effects of the Single Market	95
Revenue Effects of Tax Harmonization	96
Constraints on Fiscal or Regulatory Instruments	96
Operations of the Structural Funds	96

European Social Fund	96
European Regional Development Fund	98
Guidance Component of the European Agricultural Guidance and Guarantee Fund	100
An Assessment	100
Additionality	100
Adequacy as a Social Safety Net	102
Conclusions	102

4. ERDF Commitments Under Alternative Entitlement Criteria, 1988	103

The following symbols have been used throughout this paper:

- ... to indicate that data are not available;
- to indicate that the figure is zero or less than half the final digit shown, or that the item does not exist;
- between years or months (e.g., 1991-92 or January-June) to indicate the years or months covered, including the beginning and ending years or months;
- / between years (e.g., 1991/92) to indicate a crop or fiscal (financial) year.

“Billion” means a thousand million..

Minor discrepancies between constituent figures and totals are due to rounding.

The term “country,” as used in this paper, does not in all cases refer to a territorial entity that is a state as understood by international law and practice; the term also covers some territorial entities that are not states, but for which statistical data are maintained and provided internationally on a separate and independent basis.
