3. Modern Analyses of Growth and Structural Change	60
I: Growth and structural change	61
II: Technology	72

III: Organization and management	78
IV: Markets and products	82
V: Modern growth theories	87
VI: Modern theories of fluctuations	95
4. Britain in the Industrial Revolution	101
I: Growth	101
II: Technology	104
III: Organizational change	122
IV: Finance	129
V: Products and demand	131
VI: Government policy	135
5. European Industrialization, Late 18th to Early 20th Centuries	138
I: Growth	138
II: Technology	150
III: Organization	165
IV: Management	169
V: Finance	173
VI: Marketing and demand	178
VII: Industrial policies	180
6. Industrialization in the USA, 1870-1930	185
I: Industrial growth and change	185
II: Technology: Americans as borrowers	191
III: Organization and management: Americans as initiators	203
IV: Finance	212
V: Products	213
VI: Government policy	215
7. Industrialization in the West, 1930s to the 1970s	219
I: Growth 1930-1970	219
II: Technology	223
III: Organization	232
IV: Finance	239
V: Products	241
VI: Government policy	245
8. Western Industrialization, 1970s to the 1990s	249
I: Growth	249

II: Technology	256
III: Organization	261
IV: Finance	272
V: Products	276
VI: Government policies	281
9. Industrialization in the USSR	286
I: Growth	287
II: Technology	291
III: Organization	300
IV: Management	304
V: Finance	308
VI: Disintegration of the Soviet technology system	310
10. Industrialization in Japan	315
I: Growth of the Japanese economy	315
II: Technology	319
III: Organization	328
IV: Finance	339
V: Products and demand	343
VI: Government industrial policies	347
11. The Newly Industrializing Countries	354
I: Growth of the NICs	355
II: Technologies and processes	360
III: Organization	371
IV: Finance	376
V: Products	378
VI: Government policies	382
12. Conclusions	389
I: Summary of empirical findings: countries	390
II: Summary of empirical findings: firms	398
III: Summary of theoretical findings	420
