List of Figures and Tables	<i>xi</i>
Preface	<i>xiii</i>
List of Acronyms and Abbreviations	<i>xvii</i>
 <b>PART I. EVOLUTION OF THE FINANCIAL SYSTEM</b>	
Chapter 1. Historical Developments and Resultant Conflicts in the Financial System	3
I. High Growth and the Artificially Low Interest Rate Policy	3
I.1. <i>Exports, Investment, and Economic Strategy</i>	3
I.2. <i>Dual Structure of Interest Rates</i>	4
II. Loss of Basis for the Low Rate Policy	9
II.1. <i>End of Export and Investment-Led High Growth</i>	9
II.2. <i>New Historical Conditions</i>	11
III. Emerging Conflicts in the Financial System	17
III.1. <i>The Danger of Financial Socialism</i>	17
III.2. <i>Profit Pressure on Private Institutions</i>	19
III.3. <i>A New Mix of Direct and Indirect Finance</i>	25
Chapter 2. Structural Changes in the Financial System	28
I. Changes in Speed of Asset Accumulation	29
I.1. <i>The Recent Acceleration in the Accumulation of Financial Assets</i>	29

II.2. <i>Progressive Economizing of Monetary Assets</i>	32
II. Financial Asset Selection and Changes in the Flow of Funds	37
II.1. <i>Changes in the Asset Composition of Investment Accounts</i>	37
II.2. <i>Changes in the Channels of the Flow of Funds through the Financial System</i>	40
III. Causes of Changes in the Financial System	40
III.1. <i>Variations in Market Shares within the Indirect Financing Sector</i>	42
III.2. <i>Variations in Market Shares between Direct and Indirect Financing</i>	44
IV. Toward the New Financial System	47
Chapter 3. Financial Innovation and Monetary Policy	49
I. Factors behind Financial Innovation	49
I.1. <i>Interest Rate Regulations and Institutional Features of the Financial System</i>	51
I.2. <i>Developments in Deregulation</i>	52
I.3. <i>The Impact of Technological Progress</i>	54
II. Major Changes in the Banking System and Financial Markets	55
II.1. <i>Changes in Assets and Liabilities of Banks</i>	55
II.2. <i>Changes in Financial Services</i>	58
III. Implications for Monetary Policy	62
III.1. <i>Definitions of Money and Measurement of Money Demand</i>	62
III.2. <i>Levels and Flexibility of Interest Rates</i>	67
III.3. <i>The Transmission Mechanism</i>	71
III.4. <i>Monetary Control and Policy Options</i>	73
III.5. <i>Financial Stability and Regulation</i>	74
Chapter 4. Interest Rate Decontrol and the Effectiveness of Monetary Policy	76
I. Financial Structure and Transmission Channels of Policy	76
I.1. <i>Types of Financial Assets</i>	76
I.2. <i>The World of Direct Finance: The IS-LM Model</i>	79
I.3. <i>The World of Indirect Finance: High-Growth Japan</i>	81

I.4. <i>A Mixed Direct and Indirect Finance         World: The Contemporary Japanese System</i>	85
II. Prices or Controls?	88
II.1. <i>Control-Based Monetary Policy</i>	88
II.2. <i>Monetary Policy and the Interest Rate         Mechanism</i>	91
III. Financial Innovation and Monetary Policy Effectiveness	93
III.1. <i>Progress of Financial Innovation</i>	93
III.2. <i>The Financial System of the Future</i>	97
III.3. <i>Financial Innovation and Monetary Policy</i>	100
 <b>PART II. MONEY AND MACROECONOMIC PERFORMANCE</b>	
Chapter 5. Japan in the Worldwide Inflation	105
I. Causes of Inflation	106
I.1. <i>Creeping Inflation before 1973</i>	106
I.2. <i>Inflation and Unemployment after 1973</i>	107
II. The Inflation Debate in Japan: A Historical Survey	109
II.1. <i>Overview of Postwar Japanese Inflation</i>	109
II.2. <i>Inflation Theory in the High-Growth             Period</i>	111
II.3. <i>The New Phase of Inflation Theory</i>	117
III. Changes in Macroeconomic Performance since the Middle of the 1970s	128
III.1. <i>Differences between the First and Second             Oil Crises</i>	128
III.2. <i>Preventing Homemade Inflation</i>	130
III.3. <i>Success in Monetary Control</i>	132
 Chapter 6. Money, Prices, and Output	135
I. Is Money Stock a Cause or an Effect of Expenditure?	135
I.1. <i>Neglect of Money in the High-Growth             Period</i>	135
I.2. <i>Cause and Effect between Money and             Expenditure</i>	139
II. The Keynesian-Monetarist Controversy and Aggregate Expenditure	145
II.1. <i>Income Multiplier or Money Multiplier?</i>	145

II.2.	<i>Crowding-Out and the Expenditure Function</i>	146
III.	Inflation and Output	149
III.1.	<i>Investigations of the Natural Rate Hypothesis</i>	149
III.2.	<i>Wage Flexibility in Japan Supports This Hypothesis</i>	151
IV.	Effects of Money on Aggregate Supply	153
IV.1.	<i>The Lucas Supply Function and Rational Expectations</i>	153
IV.2.	<i>Formation of Inflationary Expectations</i>	154
IV.3.	<i>Investigations of the Macro Rational Expectations Hypothesis</i>	157
V.	The Influence of Money on Prices and Output: A Trivariate Time Series Model	158
Chapter 7.	The Yen under the Floating Rate System	164
I.	Theory and Experience of the Floating Rate System	164
I.1.	<i>Independence of Monetary Policy under Floating Rates</i>	164
I.2.	<i>New Problems under the Floating Rate System</i>	168
II.	Empirical Analysis of the Yen Market	169
II.1.	<i>Short-Term Volatility and Intervention</i>	169
II.2.	<i>The Yen in the Medium Term: The Monetary Approach</i>	172
II.3.	<i>The Yen in the Medium Term: The Portfolio Balance Approach</i>	174
III.	The Money Supply and the Yen	178
Chapter 8.	Money-Focused Monetary Policy	181
I.	Choosing and Achieving Intermediate Objectives	181
I.1.	<i>Final Goals and Operating Targets</i>	181
I.2.	<i>Shift in Intermediate Objectives from Interest Rates to Money</i>	183
I.3.	<i>The Method of Targeting</i>	186
II.	Money Supply Controllability and Operating Variables	195

II.1. <i>Choice of Operating Variables</i>	195
II.2. <i>Japan's Operating Variables and Controllability of Money</i>	198
