CONTENTS

Preface	III
B.Roy	
Normative theories of decision making under risk and under uncertainty	1
P.C.Fishburn	
Partial structures of preference	22
J.-P.Doignon	
A generalisation of probabilistic consistency: linearity conditions for valued preference relations	36
B.Monjardet	
Fuzzy preference relations in group decision making	54
T.Tanino	
$\{P, Q, I\}$ - preference structures	72
Ph.Vincke	
Identifying noninferior decision alternatives based on fuzzy binary relations	82
S.V.Ovchinnikov and V.M.Ozernoy	
Effective convolutions of vector preference relations in decision making problems	96
V.E.Zhukovin	
Choice functions associated with fuzzy preference relations	106
Z.Świtalski	
Fuzzy possibility graphs and their application to ranking fuzzy numbers	119
M.Roubens and Ph.Vincke	
On measuring consensus in the setting of fuzzy preference relations	129
M.Fedrizzi and J.Kacprzyk	
Assumptions of individual preferences in the theory of voting procedures	142
H.Nurmi
