Preface	vii
I. Evolution of Social Expenditure in the Group of Seven Major Industrial Countries, 1980–2025	1
Introduction	
Principal Results of the Study	
Canada	
France	
Federal Republic of Germany	
Italy	
Japan	
United Kingdom	
United States	
Robustness of Projections to Assumptions	
Demographic Assumptions	
Time Frame of the Study	
Economic Assumptions	
Sectoral Assumptions	
Broad Policy Issues	
Structural Financial Adjustments Related to Shifts in Demand	
New Demands and the Public-Private Mix	
Implications for Macroeconomic Surveillance	
II. Methodology for Projections	16
Pattern of Government Social Expenditure, 1980	
Methodology for Projecting Social Expenditure	
Methodology for Projecting Economic Growth	
III. Population Dynamics in the Seven Major Industrial Countries	23
Underlying Demographic Assumptions	
Principal Results of the Baseline Scenario	
The “Greater Aging” Scenario	
IV. Pensions	30
Demography and Pension Expenditure	
Pension Expenditure Projections, 1980–2025	
Alternative Demographic and Economic Scenarios	
Policy Issues	
V. Medical Care	37
Issues in the Modeling of Long-Term Projections of Medical Expenditure	
Medical Expenditure Projections, 1980–2025	
Policy Issues	
VI. Education	46
The Structure of the Education Sector	
Past Developments	
Education Expenditure Projections, 1980–2025	
Policy Issues	

	<i>Page</i>
VII. Unemployment Compensation, Family Benefits, and Other Social Programs: Projections and Policy Issues	51
Unemployment Compensation	
Family Benefits	
Other Social Expenditure	
 APPENDIX	
I. Statistical Tables	56
II. Summary of Major Public Pension Programs and Their Average Benefits	70
 REFERENCES	
 TABLES	
Section	
II.	
1. Decomposition of the Average Growth Rate of Government Social Expenditure, 1960–1975 and 1975–81	19
2. Labor Market Developments as Projected in the Baseline Scenarios, 1980–2025	20
3. Productivity and GDP Growth as Projected in the Baseline Scenarios, 1980–2025	21
IV.	
4. Growth in the Number of People of Pension Age and Numbers of Pensioners, as Projected in the Baseline Scenarios, 1980–2025	30
5. Indices of the Growth in Real Pension Expenditure and the Ratio of Pension Expenditure to GDP, as Projected in the Baseline Scenarios, 1980–2025	31
6. Annual Growth Rate of Real Pension Expenditure and of the Ratio of Government Pension Expenditure to GDP in Historical Perspective, 1960–80 and 1980–2025	33
V.	
7. Cost and Productivity Factors Assumed in the Medical Sector Projection Model and Historical Statistics	39
8. Real Government Expenditure on Medical Care, 1980–2025	40
9. Effect of Delaying Medical Cost Control Efforts: Medical Expenditure in 2025 as a Ratio to GDP	42
10. Percentage of Government Medical Care Expenditure on the Elderly Population, as Projected in the Baseline Scenarios, 1980–2025	45
VI.	
11. Overall School Enrollments, 1980–2025	47
12. School Enrollments by Level, as Projected in the Baseline Scenarios, 1980–2025	48
13. Demographic Effect of Education Expenditure, 1980–2025	48
 Appendices	
I.	
14. Social Expenditure Under Alternative Economic and Demographic Scenarios, 1980–2025	56
15. Government Social Expenditure Ratios by Sector, 1980	58
16. Overall Social Expenditure Ratios by Sector, 1980	59
17. Government Social Expenditure: Comparison of OECD and IMF Estimates, 1980	59

	<i>Page</i>
18. Government Social Expenditure, 1960–81	60
19. Assumed Demographic Parameters, 1980–2025	60
20. Demographic Structure of the Population, 1980–2025	61
21. Some Principal Demographic Measures, 1980–2025	62
22. Age Composition of the Population Group Aged 20–64, 1980–2025	63
23. Age Distribution of Government Medical Expenditure in 1980	64
24. Medical Expenditure and Total Government Social Expenditure in 1960–81	64
25. Some Illustrative Statistics on Medical Expenditure Per Capita by Age Group in Selected Group of Seven Countries	65
26. Copayment and Coverage Rates in Government Medical Insurance Programs, 1960–80	66
27. Contribution of Demographic and Coverage Effects, Relative Prices, and Real Benefits to the Growth of Government Medical and Health Expenditure, 1960–81	67
28. OECD Estimates of the Average Growth in Real Medical Benefits Relative to the Changing Share of the Elderly, 1960–81	67
29. Number of Years of Primary and Secondary School Attendance by Years, 1980	67
30. Enrollment at Different School Levels, 1950–80	68
31. School Enrollment Rates, 1960–80	69
32. Public Expenditure per Student by Level of Education, 1980	69
II. 33. Estimates of Average Pension Payments, 1980	73

CHARTS

Section		
I.	1. Ratio of Expenditure to GDP for Total Government Social Expenditure, 1980–2025	4
	2. Implied Change in Payroll Tax Rate Arising from Changes in the Government's Social Expenditure Burden, 1980–2025	5
II.	3. Social Expenditure as a Percentage of GDP by Sector, 1980	17
	4. Government Social Expenditure, 1960–81	17
III.	5. Assumed Demographic Parameters, 1980–2025	24
	6. Demographic Structure of the Population, 1980–2025	25
	7. Dependency Rates, 1980–2025	26
	8. Share of Age Group 75 and Over in the Population, 1980–2025	27
	9. Age Composition of the Population Aged 20–64, 1980–2025	28
	10. Population Size, 1980–2025	28
IV.	11. Government Pension Expenditure as Percentage of GDP, 1980–2025	33
V.	12. Government Medical Care as Percentage of GDP, 1980–2025	41
VI.	13. Government Education Expenditure as Percentage of GDP, 1980–2025	49
VII.	14. Government Expenditure on Unemployment Compensation as Percentage of GDP, 1980–2025	52
	15. Family Benefits as Percentage of GDP, 1980–2025	53
	16. Other Government Social Expenditure as Percentage of GDP, 1980–2025	54
