TABLE OF CONTENTS

MATHEMATICAL PROGRAMMING: THEORY

Optimality Conditions for Some Nonconvex Problems
ELSTER, K.H., NEHSE, R. 1

A General Perturbation Theory for Optimization Problems
GOLLAN, B. 10

On the Theoretical Basis for Methods for Parametric Optimization Problems
GUDDAT, J., LIPS, M. 16

MATHEMATICAL PROGRAMMING: ALGORITHMS

Basic Solutions and a "SIMPLEX" Method for a Class of Continous Linear Programs
ANDERSON, E.J. 26

A Probabilistic Algorithm for Global Optimization Problems with a Dimensionality Reduction Technique
ARCHETTI, F. 36

The Method of Feasible Direction for Optimization Problems with Subdifferentiable Objective Function
BEER, K. 43

Factorized Variable Metric Algorithms for Unconstrained Optimization
GRANDINETTI, L. 52

A Unified Approach to Nonlinear Programming Algorithms Basing on Sequential Unconstrained Minimizations
GROSSMANN, Ch. 62

Minimax Optimization Using Quasi-Newton Methods
HALD, J., MADSEN, K. 69

Algorithm for the Solution of a Discrete Minimax Problem: Subgradient Methods and a New Fast Newton-Method
HORNUNG, R. 78

Algorithm of Search for Global Extremum of Function from Variables Measured in Different Scales
LBOV, G.S. 87

A Method for Solving Equality Constrained Optimization Problems by Unconstrained Minimization
Di PILLO, G.,GRIPPO, L., LAMPARIELLO, F. 96

Randomly Generated Nonlinear Programming Test Problems
SCHITTKOWSKI, K. 106

Method of Regularized Approximations and its
Application to Convex Programming
SOSNOWSKI, J.S. 116

Methods of Hierarchical Optimization
for Interconnected Systems
TATJEWSKI, P. 123

Structural Analysis of Large Nonlinear Programming Problems
TOCZYŁOWSKI, E. 131

On the Use of Statistical Models of Multimodel Functions
for the Construction of the Optimization Algorithms
ŽILINSKAS, A. 138

INTEGER PROGRAMMING

Stability Analysis in Pure and Mixed-Integer
Linear Programming
BANK, B. 148

Alternative Group Relaxation of Integer Programming Problems
BERTOLAZZI, P., LEPORELLI, C., LUCERTINI, M. 154

Efficient Method Applying Incomplete Ordering for
Solving the Binary Knapsack Problem
BIRÓ, M. 160

Weighted Satisfiability Problems and Some Implications
CAMERINI, P.M., MAFFIOLI, F. 170

On Two Methods for Solving the Bottleneck Matching Problem
DERIGS, U. 176

Fast Approximation Algorithms for Knapsack Type Problems
GENS, G.V., LEVNER, E.V. 185

Computational Relations Between Various Definitions
of Matroids and Independence Systems
HAUSMANN, D., KORTE, B. 195

Relations Among Integer Programs
KRARUP, J., WALUKIEWICZ, S. 199

Linear Optimization for Linear and Bottleneck Objectives with One Nonlinear Parameters
ZIMMERMANN, U. 211

SOFTWARE PROBLEMS

Selected Aspects of a General Algebraic Modeling Language
BISSCHOP, J., MEERAUS, A. 223

Software Design for Algorithms of Hierarchical Optimization
KALLIAUER, A. 234

Outlines for a General Mathematical Modeling Software
KALLIO, K. 242

An Efficient Algorithm for Obtaining the Reduced Connection Equations for a Class of Dynamic Systems
ROSENBERG, R.C., ANDRY, A.N. 250

Characteristics of Incremental Assignment Method
YAJIMA, K. 256

GRAPHS AND NETWORKS

Stochastic Modelling of Socio-Economic System
BEREZIŃSKI, M., HOŁUBIEC, J. 263

Optimal Allocation of a Seismographic Network by Nonlinear Programming
BETRÒ, B. 271

Stochastic Approach to the Two-Level Optimization of the Complex of Operations
BUBNICKI, Z., STAROSWIECKI, M., LEBRUN, A. 281

Some Results on Timed Petri-Nets
CHRETIENNE, Ph. 291

Non Equilibrium Computer Network Distribution
HAMMAD, P., RAVIART, J.M. 300

Dynamic Programming of Stochastic Activity Networks with Cycles
HÖPFINGER, E. 309

A Necessary Condition for the Elimination of Crane Interference
LIEBERMAN, R.W., TÜRKSEN, I.B. 316

Optimal Constructions of Project Network
SYSŁO, M.M. 328

Enumeration Techniques in Directed Hypergraphs
VAN NUFFELEN, C. 330

SCHEDULING AND ALLOCATION PROBLEMS

Optimal Dispatching Control of Bus Lines
ADAMSKI, A. 334

A Strategic Approach to Air Traffic Control
BIANCO, L., CINI, M., GRIPPO, L. 345

EDP Project and Computer Equipment Selection
by the Use of Linear Programming
HARAMIS, G.E. 356

Impact of Financing on Optimal R a. D Resource Allocation
HUNG, S.H., HUNG, J.C., ANDERSON, L.P. 363

On an Inexact Transportation Problem
KACPRZYK, J., KRAWCZAK, M. 373

Integer Programming as a Tool for Plant
Adjustment Problem
KALISZEWSKI, I., LIBURA, M., MISIEWICZ, H. 380

A Cutting Sequencing Algorithm
MADSEN, O.B.G. 388

On a Winning Coalition of the Characteristic Function
Game as a Solution of the Resource Allocation Problem
MERCIK, J.W. 397

APPLICATIONS: ECONOMICS AND ECONOMETRICS

A Package for Analytic Simulation of Econometric Models
BIANCHI, C., CALZOLARI, G., CORSI, P. 404

On the Recursive Estimation of Stochastic and Time-Varying
Parameters in Economic Systems
BRÄNNÄS, K., WESTLUND, A. 414

Computing Equilibria in an Industry Producing
an Exhaustible Resource
FOLIE, G.M., ULPH, A.M. 423

Optimization of a Country's Trade Policies
KARASEK, M. 432

An Open Input-Output Model with Continuous Substitution Between Primary Factors as a Problem of Geometric Programming
LUPTÁČIK, M. 442

An Equilibrium Model for an Open Economy with Institutional Constraints on Factor Prices
MATHIESEN, L., HANSEN, T. 451

Controllability and Observability of Dynamic Economic Systems
NECK, R. 462

The Development of Economic System in Case of Differential Optimization /for One-Sector Dynamic Model/
ZHIYANOV, V. 473

APPLICATIONS: ENVIRONMENTAL AND ENERGY SYSTEMS

Modelling and Computation of Water Quality Problems in River Networks
BAUMERT, H., BRAUN, P., GLOS, E., MÜLLER, W.D., STOYAN, G. ... 482

An Application of Optimal Control Theory to the Estimation of the Demand for Energy in Canadian Manufacturing Industries
DENNY, M., FUSS, M., WAVERMAN, L. 492

Operational Multiple Goal Models for Large Economic Environmental Models
HARTOG, J.A., NIJKAMP, P., SPRONK, J. 502

Resource Distribution Combinatorial Models in Air Pollution Problems
KRUŚ, L., LIBURA, M., SŁOMINSKI, L. 513

The Energy Economics of the United Kingdom, the Federal Republic of Germany and Belgium
LEIMKÜHLER, K., EGBERTS, G. 524

Decentralized Approach for Electric Generating System Development - Energy Supply-Social Siting Concern Interaction
OGINO, K. 536

On a Stochastic Model of Reservoir System Sizing
PINTÉR, J. 546

An LP Energy Supply Model for World Regions
SCHRATTENHOLZER, L. 559

APPLICATIONS: INDUSTRIAL PROCESSES

An Application of Nonlinear Programming Techniques to the Energy - Economic Optimization of Building Design
ARCHETTI, F., VERCELLIS, C. 569

Optimization of the Signal-to-Noise Ratio in the Optical Data Processing
HOMESCU, R. 577

An Asymptotic Approach to the Dynamic Optimization of Complex Cyclic Processes
JANKOWSKI, W. 585

Methods of Peridic Optimization in Stabilization Problems of Biped Apparatus
LARIN, V.B. 593

Comparison of Optimal and Suboptimal Methods for Pulp Mill Production Control
LEIVISKÄ, K. 600

Streams of Information in the Process of Systematic Modelling of Complex Technical Objects on the Example of Vessel Engines
PODSIADŁO, A., SOBOCIŃSKI, J. 609
