International Trends in Manufacturing Technology

SIMULATION

APPLICATIONS IN MANUFACTURING

Edited by
Dr. R.D. Hurrion

IFS (Publications) Ltd, UK

Springer-Verlag
Berlin Heidelberg New York Tokyo
1986

Contents

1. Discrete-Event Simulation

2. Risk Evaluation

3. Design of Machine and Robot Cells

4. Design of FMS

5. Control of Manufacturing Facilities

6. Simulation Standards

7. Expert Simulation Environments
