<i>List of figures</i>	<i>page</i>	xiii
<i>List of tables</i>		xv
<i>Preface</i>		xvii
<i>List of conference participants</i>		xviii
<b>1 Ageing and the European labour market: public policy issues</b>		<b>1</b>
<i>Paul Johnson and Klaus F. Zimmermann</i>		
1 Introduction		1
2 Labour costs and productivity		4
3 Training and skill		12
4 Retirement		14
5 Migration and mobility		16
6 Overview of the book		18
7 Conclusions		22
<b>2 Ageing and European economic demography</b>		<b>26</b>
<i>Paul Johnson</i>		
1 The ageing of Europe		26
2 Fertility and mortality patterns		32
3 Population and economic performance		38
4 Conclusions		42
<b>Discussion</b>		
<i>Rudolf Andorka</i>		46
<b>3 Ageing and employment trends: a comparative analysis for OECD countries</b>		<b>53</b>
<i>Martin Rein and Klaus Jacobs</i>		
1 A conceptual framework of early retirement		53
2 Trends and patterns of labour force participation of older men: the significance of early exit		54

3	Disaggregating labour force participation	56
4	Patterns of early exit	63
5	The future of early retirement: extending the concept of pathways of early exit from the labour force	71
	<b>Discussion</b>	
	<i>Heather Joshi</i>	76
<b>4</b>	<b>Ageing and the labour market in Poland and Eastern Europe</b>	<b>79</b>
	<i>Stanislawa Golinowska</i>	
1	Introduction	79
2	The position of Central and Eastern Europe in the process of demographic change	80
3	Poland's position in the process of European population change through the year 2010	82
4	Ageing and the labour market in Poland	84
5	Population pressures and labour market trends in Poland and Eastern Europe, 1990–2010	91
6	Summary and conclusions	94
	<b>Discussion</b>	
	<i>Walter Krämer</i>	96
<b>5</b>	<b>The implications of cohort size for human capital investment</b>	<b>98</b>
	<i>Christopher J. Flinn</i>	
1	Introduction	98
2	Model structure and the characterization of equilibrium	100
3	Empirical analysis	108
4	Computed elasticities and simulation exercises	112
5	Conclusions	119
	<b>Appendix: Data sources and construction</b>	119
	<b>Discussion</b>	
	<i>Kenneth Burdett</i>	123
<b>6</b>	<b>Does an ageing labour force call for large adjustments in training or wage policies?</b>	<b>126</b>
	<i>Didier Blanchet</i>	
1	Ageing, productivity and optimal accumulation of human capital over the life cycle	127
2	Ageing, career profiles and wages	134
3	Retirement age	140
4	Conclusions	142
	<b>Appendix A: Sensitivity of an age-related phenomenon to the population growth rate</b>	143

<b>Appendix B: Optimal training</b>	143
<b>Discussion</b>	
<i>Paul G. Chapman</i>	146
<b>7 On ageing and earnings</b>	151
<i>N. Anders Klevmarken</i>	
1 Introduction	151
2 The human capital approach	152
3 Changes in the age distribution and the dynamics of earnings profiles	155
4 An empirical application to Swedish panel data	161
5 Earnings mobility	167
6 Conclusions	173
<b>Discussion</b>	
<i>Axel Börsch-Supan</i>	178
<b>8 Age, wages and education in The Netherlands</b>	182
<i>Joop Hartog, Hessel Oosterbeek and Coen Teulings</i>	
1 Introduction	182
2 A brief history of the Dutch labour market	182
3 The composition of the labour force by age and education	185
4 Explaining changes in labour force composition	189
5 The wage structure	193
6 The influence of cohort sizes	201
7 Conclusions and speculations	204
<b>Appendix A: Data</b>	206
<b>Appendix B: The price of education</b>	208
<b>Discussion</b>	
<i>Robert E. Wright</i>	211
<b>9 Ageing and unemployment</b>	216
<i>Christoph M. Schmidt</i>	
1 Introduction	216
2 Ageing, migration and labour market outcomes	217
3 A formal model and its empirical implications	220
4 Data and empirical results	223
5 Ageing and unemployment: a re-evaluation	250
<b>Discussion</b>	
<i>John Ermisch</i>	252

<b>10 Ageing, migration and labour mobility</b>	255
<i>Rainer Winkelmann and Klaus F. Zimmermann</i>	
1 Introduction	255
2 Some stylized facts on ageing and migration	256
3 Theoretical framework	263
4 Data and methodology	265
5 Econometric results and policy implications	269
6 Concluding remarks	281
<b>Discussion</b>	
<i>Gerd Ronning</i>	283
 <i>Index</i>	 288
