Preface xxiii

PART ONE INTRODUCTION

1 Introduction 1

The Investment Environment	2
<i>Securities</i>	2
<i>Security Markets</i>	8
<i>Financial Intermediaries</i>	8
The Investment Process	8
<i>Investment Policy</i>	9
<i>Security Analysis</i>	9
<i>Portfolio Construction</i>	10
<i>Portfolio Revision</i>	10
<i>Portfolio Performance Evaluation</i>	11
The Investment Industry	11
Summary	11
Questions and Problems	12

PART TWO THE INVESTMENT ENVIRONMENT

2 Buying and Selling Securities 13

Order Size	14
Time Limit	14
Types of Orders	15
<i>Market Orders</i>	15

<i>Limit Orders</i>	15
<i>Stop Orders</i>	15
<i>Stop Limit Orders</i>	16
Margin Accounts.	17
<i>Margin Purchases</i>	17
<i>Short Sales</i>	23
<i>Aggregation</i>	28
Summary	30
Questions and Problems	31

3 Security Markets 33

Major Markets in the United States	34
<i>The New York Stock Exchange</i>	34
<i>Other Exchanges</i>	40
<i>The Over-the-Counter Market</i>	41
<i>The Third and Fourth Markets</i>	43
The Central Market	44
Clearing Procedures	45
<i>Clearinghouses</i>	45
Insurance	46
<i>Securities Investor Protection Corporation (SIPC)</i>	46
Commissions	47
<i>Fixed Commissions</i>	47
<i>Competitive Commissions</i>	47
Transactions Costs	49
<i>The Bid-Ask Spread</i>	49
<i>Price Impact</i>	49
Investment Banking	51
Regulation of Security Markets	54
Summary	55
Questions and Problems	56

4 The Determination of Security Prices 57

Demand and Supply Schedules	57
<i>The Demand-to-Buy Schedule</i>	57
<i>The Supply-to-Sell Schedule</i>	59
<i>Interaction of the Schedules</i>	60
The Demand-to-Hold Securities	61
<i>The Demand-to-Hold Schedule</i>	62
<i>The Elasticity of the Schedule</i>	63
<i>Shifts of the Schedule</i>	63
The Effects of Procedures for Short Sales	64

Price as a Consensus	64
Market Efficiency	67
Summary	69
Questions and Problems	69

5 Taxes 70

Taxes in the United States	70
Corporate Income Taxes	71
Corporate Tax Rates	71
Defining Income	72
Depreciation	73
Inventory Valuation	74
Amortization and Depletion	76
Deductibility of Interest Payments	76
Corporate Income from Dividends, Interest, and Capital Gains	77
Tax-Exempt Organizations	78
Personal Income Taxes	79
Personal Tax Rates	79
Tax-Exempt Bonds	82
Alternative Minimum Tax	84
Deductible Expenses	84
Capital Gains and Losses	84
State Income Taxes	87
Tax Shelters	87
Summary	88
Questions and Problems	88

6 Inflation 90

Inflation in the United States	91
Measuring Inflation	91
Price Indices	93
Nominal and Real Returns	94
Nominal Returns	94
Real Returns	94
The Effect of Investor Expectations	95
Interest Rates and Inflation	95
The Effect of Inflation on Borrowers and Lenders	96
Indexation	97
Replacement Cost Accounting	99
Taxation, Inflation, and the Return on Capital	102
Securities as Hedges Against Inflation	103
Determining a Security's Sensitivity to Inflation	103
Summary	107
Questions and Problems	107

7 The Portfolio Selection Problem 109

Initial and Terminal Wealth	110
<i>Determining the Rate of Return on a Portfolio</i>	110
Indifference Curves	112
Nonsatiation and Risk Aversion	115
<i>Nonsatiation</i>	115
<i>Risk Aversion</i>	116
Summary	117
Appendix: Risk-Neutral and Risk-Seeking Investors	117
Questions and Problems	119

8 Efficient Sets 121

Calculating Expected Returns for Portfolios	121
<i>Using End-of-Period Values</i>	123
<i>Using Security Expected Returns</i>	123
Calculating Standard Deviations for Portfolios	124
<i>Formula for Standard Deviation</i>	124
The Efficient Set Theorem	128
<i>The Feasible Set</i>	129
<i>The Efficient Set Theorem Applied to the Feasible Set</i>	129
<i>Selection of the Optimal Portfolio</i>	130
Concavity of the Efficient Set	132
Summary	136
Appendix A: Determining the Investor's Optimal Portfolio	137
Appendix B: More on the Concavity of the Efficient Set	142
Questions and Problems	144

9 Riskfree Lending and Borrowing 146

Defining the Riskfree Asset	147
Allowing for Riskfree Lending	148
<i>Investing in Both the Riskfree Asset and a Risky Asset</i>	148
<i>Investing in Both the Riskfree Asset and a Risky Portfolio</i>	150
<i>The Effect of Riskfree Lending on the Efficient Set</i>	152
<i>The Effect of Riskfree Lending on Portfolio Selection</i>	153
Allowing for Riskfree Borrowing	155
<i>Borrowing and Investing in a Risky Security</i>	156

<i>Borrowing and Investing in a Risky Portfolio</i>	157
<i>The Effect of Riskfree Borrowing and Lending on the Efficient Set</i>	159
<i>The Effect of Riskfree Borrowing and Lending on Portfolio Selection</i>	160
Summary	161
Appendix A: Determining the Composition of the Tangency Portfolio	162
Appendix B: Allowing for Different Borrowing and Lending Rates	163
Questions and Problems	165

10 The Capital Asset Pricing Model 166

Assumptions	167
The Capital Market Line	168
<i>The Separation Theorem</i>	168
<i>The Market Portfolio</i>	169
<i>The Efficient Set</i>	171
The Security Market Line	173
<i>Implications for Individual Risky Assets</i>	173
<i>An Example</i>	177
Market and Unique Risk	180
Summary	181
Appendix: A Derivation of the Security Market Line	181
Questions and Problems	183

11 Characteristic Lines 185

Expected versus Actual Values	185
Equilibrium Expected Returns	186
Disequilibrium	186
Alpha	188
<i>The Characteristic Line</i>	189
<i>Actual Excess Returns</i>	191
Diversification	193
<i>Portfolio Total Risk</i>	193
<i>Portfolio Market Risk</i>	194
<i>Portfolio Unique Risk</i>	195
<i>An Example</i>	196
Summary	197
Appendix: Determining the Efficient Set	198
Questions and Problems	201

12 Factor Models and Arbitrage Pricing Theory 203

Single-Factor Models	204
<i>Two Important Features of Single-Factor Models</i>	205
Multiple-Factor Models	207
<i>Two-Factor Models</i>	207
<i>General Factor Models</i>	209
<i>Factor Models and Equilibrium</i>	209
Arbitrage Pricing Theory	210
<i>Factor Portfolios</i>	210
<i>Expected Returns on Factor Portfolios</i>	212
<i>Expected Returns on Securities</i>	213
A Synthesis of APT and the CAPM	214
<i>Beta Coefficients and Factor Sensitivities</i>	215
<i>Expected Returns, Factor Betas, and Security Sensitivities</i>	216
Summary	217
Questions and Problems	218

PART FOUR COMMON STOCKS

13 Characteristics of Common Stocks 220

The Corporate Form	221
<i>Stock Certificates</i>	221
<i>Voting</i>	221
<i>Tender Offers</i>	223
<i>Ownership versus Control</i>	224
<i>Stockholders' Equity</i>	224
Cash Dividends	226
Stock Dividends and Stock Splits	226
<i>Reasons for Stock Dividends and Splits</i>	227
Preemptive Rights	229
Stock Price and Volume Quotations	230
Insider Trading	232
Ex Ante and Ex Post Values	235
Common Stock Betas	235
<i>Adjusting Beta</i>	240
<i>Industry Beta Values</i>	244
<i>Beta Prediction Equations</i>	245
<i>Beta Services</i>	247
Summary	247
Appendix: Empirical Regularities	248
Questions and Problems	257

14 Financial Analysis of Common Stocks 260

Professional Organizations	261
The Reasons for Financial Analysis	263
<i>Determining Security Characteristics</i>	263
<i>Attempting to Identify Mispriced Securities</i>	263
<i>Beating the Market</i>	264
<i>Financial Analysis and Market Efficiency</i>	267
<i>Needed Skills</i>	268
Evaluating Investment Systems	268
<i>Failure to Adjust for Risk</i>	269
<i>Failure to Consider Transactions Costs</i>	269
<i>Failure to Consider Dividends</i>	270
<i>Nonoperational Systems</i>	270
<i>Spurious Fits</i>	271
<i>Comparisons with Easily Beaten Systems</i>	271
<i>Reliance on Misleading Visual Comparisons</i>	271
<i>Ex Post Selection Bias</i>	273
<i>Failure to Use Out-of-Sample Data</i>	274
Fundamental versus Technical Analysis	274
<i>Top-Down versus Bottom-Up Forecasting</i>	275
<i>Probabilistic Forecasting</i>	276
<i>Econometric Models</i>	276
<i>Financial Statement Analysis</i>	277
Analysts' Recommendations and Stock Prices	280
Sources of Investment Information	281
<i>Publications</i>	281
<i>Computer-Readable Data</i>	286
Summary	286
Appendix A: Technical Analysis	287
Appendix B: Sources of Investment Information	291
Questions and Problems	298

15 Dividend Discount Models 301

Capitalization of Income Method of Valuation	302
<i>Net Present Value</i>	302
<i>Internal Rate of Return</i>	303
<i>An Application to Common Stocks</i>	303
The Zero Growth Model	305
<i>Internal Rate of Return</i>	306
<i>An Application</i>	306
The Constant Growth Model	306
<i>Internal Rate of Return</i>	307
<i>Relationship to the Zero Growth Model</i>	308
The Multiple Growth Model	308

<i>Internal Rate of Return</i>	310
<i>Relationship to the Constant Growth Model</i>	311
<i>Two-Phase and Three-Phase Models</i>	311
Valuation Based on a Finite Holding Period	312
Models Based on Price-Earnings Ratios	313
<i>The Zero Growth Model</i>	316
<i>The Constant Growth Model</i>	316
Sources of Earnings Growth	318
<i>An Example</i>	319
A Commonly Used Approach	320
<i>An Example</i>	321
<i>Implied Returns</i>	323
<i>The Security Market Line</i>	324
<i>Required Returns and Alphas</i>	325
<i>The Implied Return on the Stock Market</i>	325
Dividend Discount Models and Expected Returns	325
Summary	329
Appendix A: The Graham-Rea Model	329
Appendix B: The Multiple Growth Model and the Price-Earnings Model	331
Questions and Problems	333

16 Dividends and Earnings 335

Stock Valuation Based on Earnings	335
<i>Earnings, Dividends, and Investment</i>	336
<i>Earnings Determine Market Value</i>	339
Determinants of Dividends	341
The Information Content of Dividends	343
Accounting Earnings versus Economic Earnings	345
<i>Accounting Earnings</i>	345
<i>Economic Earnings</i>	346
Price-Earnings Ratios	348
<i>Permanent and Transitory Components of Earnings</i>	348
Relative Growth Rates of Firms' Earnings	351
<i>Annual Earnings</i>	352
<i>Quarterly Earnings</i>	353
Comovement of Earnings	354
Earnings Announcements and Price Changes	355
<i>Deviations from Time-Series Models of Earnings</i>	357
<i>Security Analysts' Estimates of Future Earnings</i>	360
<i>Revisions in Security Analysts' Forecasts</i>	361
<i>Sources of Errors in Forecasting</i>	362
<i>Unexpected Earnings and Abnormal Returns</i>	362
Summary	363
Appendix: Value Line Rankings	364
Questions and Problems	366

17 Investment Management 367

Traditional Investment Management Organizations	367
Investment Management Functions	369
Setting Investment Policy	369
Estimating Risk Tolerance	369
<i>The Trade-off Between Risk and Expected Return</i>	370
Constant Risk Tolerance	372
Certainty Equivalent Return	375
Security Analysis and Portfolio Construction	375
Passive and Active Management	375
Security Selection, Asset Allocation, and Market Timing	377
Portfolio Revision	381
Manager-Client Relations	381
Summary	382
Appendix: Determining the Risk Tolerance of an Investor	383
Questions and Problems	385

18 Portfolio Performance Evaluation 387

Measures of Return	388
<i>Dollar-Weighted Returns</i>	389
<i>Time-Weighted Returns</i>	389
<i>Comparing Dollar-Weighted and Time-Weighted Returns</i>	390
<i>Annualizing Returns</i>	390
Making Relevant Comparisons	391
Risk-Adjusted Measures of Performance	392
<i>Ex Post Characteristic Lines</i>	395
<i>The Reward-to-Volatility Ratio</i>	401
<i>The Reward-to-Variability Ratio</i>	402
<i>Comparing the Risk-Adjusted Measures of Performance</i>	404
Market Timing	405
<i>Quadratic Regression</i>	407
<i>Dummy Variable Regression</i>	408
Criticisms of Risk-Adjusted Performance Measures	409
<i>Use of a Market Surrogate</i>	410
<i>Distinguishing Skill from Luck</i>	410
<i>Measuring the Riskfree Rate</i>	410
<i>Validity of the CAPM</i>	411
<i>Performance Attribution</i>	411
Summary	411
Appendix: Performance Attribution	412
Questions and Problems	415

19 Types of Fixed-Income Securities 418

Savings Deposits	419
Commercial Banks	419
Savings and Loan Companies and Mutual Savings Banks	420
Credit Unions	420
Other Types of Personal Savings Accounts	422
Money Market Instruments	422
Commercial Paper	423
Certificates of Deposit	424
Bankers' Acceptances	424
Eurodollars	424
Repurchase Agreements	425
U.S. Government Securities	425
U.S. Treasury Bills	427
U.S. Treasury Notes	429
U.S. Treasury Bonds	430
U.S. Savings Bonds	431
Zero-Coupon Treasury Security Receipts	431
Federal Agency Securities	433
Bonds of Federal Agencies	434
Bonds of Federally Sponsored Agencies	435
Participation Certificates	435
State and Local Government Securities	436
Issuing Agencies	437
Types of Municipal Bonds	438
Tax Treatment	439
Ownership of Municipal Securities	441
The Market for Municipal Bonds	441
Municipal Bond Insurance	442
Eurobonds	442
Corporate Bonds	442
The Indenture	443
Types of Bonds	443
Call Provisions	445
Sinking Funds	445
Private Placements	445
Bankruptcy	446
Ownership of Corporate Bonds	447
Trading in Corporate Bonds	447
Preferred Stock	448
Summary	450
Questions and Problems	451

20 Fundamentals of Bond Valuation 452

Investment	453
<i>Deciding How Much to Invest</i>	453
<i>Using Indifference Curves</i>	454
Investment and Interest	455
<i>Demand and Supply of Capital</i>	455
Yield-to-Maturity	456
Spot Rates	459
Discount Factors	460
Forward Rates	461
Forward Rates and Discount Factors	462
Compounding	463
Continuous Compounding	464
Yield Curves	466
Term Structure Theories	466
<i>The Unbiased Expectations Theory</i>	467
<i>The Liquidity Preference Theory</i>	470
<i>The Market Segmentation Theory</i>	473
<i>Empirical Evidence on the Theories</i>	473
Summary	474
Questions and Problems	475

21 Bond Analysis 477

Applying the Capitalization of Income Method to Bonds	478
Bond Attributes	479
<i>Coupon Rate and the Length of Time Until Maturity</i>	480
<i>Call Provisions</i>	480
<i>Tax Status</i>	482
<i>Marketability</i>	482
<i>Likelihood of Default</i>	483
The Risk Structure of Interest Rates	490
Determinants of Yield Spreads	492
Financial Ratios as Predictors of Default	493
<i>Univariate Methods</i>	493
<i>Multivariate Methods</i>	494
<i>Investment Implications</i>	495
Summary	495
Questions and Problems	496

22 Bond Portfolio Management 497

Bond Market Efficiency	498
<i>Price Behavior of Treasury Bills</i>	498
<i>Experts' Predictions of Interest Rates</i>	498
<i>Price Reaction to Bond Rating Changes</i>	499
<i>Money Supply Announcements</i>	500
<i>Summary</i>	500
Bond Pricing Theorems	501
Duration	502
<i>Calculation</i>	502
<i>Changes in the Term Structure</i>	504
Immunization	505
<i>How Immunization Is Accomplished</i>	505
<i>Problems with Immunization</i>	507
Active Management	510
<i>Horizon Analysis</i>	510
<i>Bond Swaps</i>	513
<i>Contingent Immunization</i>	514
<i>Riding the Yield Curve</i>	515
Portfolio Performance Evaluation	516
Bonds versus Stocks	516
<i>Summary</i>	519
Questions and Problems	520

PART SIX ALTERNATIVE INVESTMENTS

23 Investment Companies 521

Net Asset Value	522
Major Types of Investment Companies	523
<i>Unit Investment Trusts</i>	523
<i>Managed Companies</i>	524
Similar Types of Investments	528
<i>Fixed and Variable Annuities</i>	528
<i>Commingled Funds</i>	532
<i>Real Estate Investment Trusts</i>	532
Investment Policies	533
Mutual Fund Accounts	536
<i>Accumulation Plans</i>	536
<i>Retirement Plans</i>	537
Mutual Fund Performance	538
<i>Risk Control</i>	539
<i>Diversification</i>	540
<i>Average Return</i>	541
<i>Consistency of Performance</i>	544

Expenses	544
Market Timing	546
Closed-End Fund Premiums and Discounts	547
Summary	548
Questions and Problems	549

24 Options 550

Types of Option Contracts	551
Call Options	551
Put Options	553
Option Trading	554
Margin	558
Taxation of Option Profits and Losses	560
Valuation of Options	561
Valuation at Expiration	561
Profits and Losses at Expiration	563
The Black-Scholes Model for Call Options	564
Limitations on its Use	564
The Formula	566
Static Analysis	568
Estimating a Stock's Risk from Historical Prices	568
The Market Consensus of a Stock's Risk	569
Hedge Ratios	570
Adjustments for Dividends	571
The Valuation of Put Options	573
Put-Call Parity	573
Static Analysis	575
Early Exercise and Dividends	576
Options on Other Kinds of Assets	577
Index Options	577
Interest Rate Options	579
Foreign Currency Options	579
Portfolio Insurance	580
Purchase an Insurance Policy	582
Purchase a Protective Put	583
Create a Synthetic Put	583
Summary	586
Appendix: Securities with Optionlike Features	587
Questions and Problems	591

25 Futures 593

The Futures Contract	595
Futures Markets	597
The Clearinghouse	597

Futures Positions	600
Taxation	601
Open Interest	601
Price Limits	602
Basis	603
Spreads	603
Futures Prices	604
Certainty	604
Uncertainty	604
Returns on Futures	606
Financial Futures	607
Foreign Currency Futures	607
Interest Rate Futures	610
Market Index Futures	610
Futures versus Call Options	616
Synthetic Futures	617
Summary	617
Appendix: Futures Options	619
Questions and Problems	623

26 Extended Diversification 624

International Investment	624
<i>The World Market Wealth Portfolio</i>	625
<i>International Equity Indices</i>	626
<i>Risk and Return from Foreign Investing</i>	628
<i>Multinational Firms</i>	632
<i>International Listings</i>	633
<i>Correlations Between Equity Markets</i>	634
Tangible Assets	635
Collectible Assets	635
Gold	636
Sports Betting	637
Spread Betting	638
Odds Betting	638
<i>The Efficiency of Horse Race Betting</i>	640
Summary	641
Questions and Problems	641

Glossary 643

Index 661
