CONTENTS

PREFACE

Chapter 1	INTRODUCTION	1
1.1	The Major Issues in the Theory of Monetary Policy	2
1.2	Sources of Disagreement	3
1.2.1	Short Run and Long Run	3
1.2.2	Equilibrium and Disequilibrium	4
1.3	Outline of the Discussion	5
Chapter 2	AIMS, TARGETS AND INSTRUMENTS OF POLICY	8
2.1	Aims	
2.1.1	Independence of Fiscal and Monetary Policy	11
2.2	Proximate Objectives and Instruments of Monetary Policy	12
2.3	The Ability to Control Money and Credit	13
2.4	The Transmission Mechanism	15
Chapter 3	SIMPLE KEYNESIANISM v. EARLY MONETARISM	17
3.1	The Transmission Mechanism: The Cost of Capital v. Direct Effects	17
3.2	Exogeneity of the Money Supply	19
3.2.1	The Deposit Multiplier	20
3.3	Real or Money Income	22
3.4	The Static ISLM Model	23
3.4.1	The Transmission Mechanism	23
3.4.2	The Effectiveness of Monetary Policy	26
3.5	The Pseudodynamics of ISLM	29
3.6	Early Monetarism	34
3.6.1	Permanent Income	35
3.6.2	Friedman on Interest Rates	41
Appendix 1	Friedman and Meiselman	44
Appendix 2	Lags and Cycles in Income and Interest Rates	47
3.7	A Critique of ISLM	52
3.7.1	Price Changes	52
3.7.2	Interrelationship of Fiscal and Monetary Policy	55
Chapter 4	THE RADCLIFFE REPORT	58
4.1	A "Keynesian" Reaction to Simple Quantity Theory?	58
4.2	Liquidity, Substitutability Among Assets and the Definition of Money	59
4.3	Interest Rates and Credit Rationing	62
4.4	Financial Intermediaries and Velocity	67
Appendix:	Expansion of Money and Credit with Non-Bank Intermediation	69
4.5	Liquidity, Consumption Plans and Effective Demand	71
4.6	Radcliffe: Summary	73

Chapter 5	MONEY, WEALTH, LIQUIDITY AND SPENDING	75
5.1	Money in the Budget Restraint	75
5.2	The Real Balance Effect	76
5.3	Liquidity	77
5.4	Net Wealth of the Private Sector	79
5.5	Inside and Outside Money	80
5.6	Summary	83
5.7	The "Exogeneity" Issue	83
5.7.1	Definition of Exogenous	84
5.7.2	Exogeneity and the Deposit Expansion Multiplier	86
5.7.3	Direction of Causation	87
5.7.4	Exogeneity: Summary	89
Chapter 6	PORTFOLIO BALANCE	91
6.1	The Role of Real Assets in the Transmission Mechanism	91
6.2	Different Hypotheses about the Substitutability of Assets	93
6.3	The Portfolio Approach, Keynesian Economics, and Keynes	98
6.4	Equities and Real Capital	100
6.5	The Role of Portfolio Choice in Tobin, Gurley and Shaw and Radcliffe	102
6.6	Portfolio Balance, the Uniqueness of Banks and Financial Intermediaries	103
Chapter 7	LATER MONETARISM	108
7.1	Prices and Output	108
7.2	Expected Inflation and Monetary Policy	110
7.2.1	The Real Rate of Interest	110
7.3	Friedman Again	111
7.3.1	The Presidential Address	111
7.3.2	Friedman's 1970-71 Model	115
7.3.3	Prices and Output in the 1970-71 Model	120
7.4	Monetarism and the Real Rate of Interest	123
7.5	The "Crowding Out" Effect in a Financially Constrained Economy	126
Chapter 8	A PERSONAL VIEW	131
8.1	Fiscal-Monetary Interrelationships	131
8.1.1	An Extension: Money v. Credit	139
8.2	The Role of Expectations	140
8.3	Distributional Effects of Monetary Policy	145
8.3.1	The Long Run	150
8.4	Conclusion	150
