Decision Making with Multiple Objectives

Proceedings of the Sixth International Conference on Multiple-Criteria Decision Making
Held at the Case Western Reserve University
Cleveland, Ohio, USA
June 4–8, 1984

Edited by Yacov Y. Haimes and Vira Chankong

Fachbereich Mathematik
Technische Hochschule Darmstadt
Bibliothek
Inv.-Nr. B 20 408

TABLE OF CONTENTS

Preface III

Welcoming Remarks by Y. Y. Haimes, Conference Chairman IX

Part I--A State-of-the-Art Review

Behavior Mechanism in Decision Making
P. L. Yu 1

Risk Assessment and Management in a Multiobjective Framework
Y. Y. Haimes and M. Leach 23

Multiple Criteria Optimization: A State-of-the-Art Review
V. Chankong, Y. Y. Haimes, J. Thadathil, and S. Zionts 36

Axiomatization of the Analytic Hierarchy Process
T. L. Saaty 91

Part II--Theory

Duality Theory in Vector Optimization: An Overview
H. Nakayama 109

Solving Stochastic Linear Programs via Goal Programming
T. Gal and H. Wolf 126

Some Basic Theoretical Results in Multiobjective Optimization
T. Tanino 144

Partial Preference Information and First-Order Differential Optimality: An Illustration
G. B. Hazen 153

Optimization of the Share of the Pareto Set for Multicriteria Models
A. Umnov 158

Use of Intuitive Preference in Directing Utility-Assessment
C. C. White, III 162

Multiattribute Utility Analysis and Collective Choice: A Methodological Review
F. Seo 170

A Nonlinear Multiattribute Utility Theory
B. Malakooti 190

Part III--Methodology and DSS

Computer Graphics at the Multicriterion Computer/User Interface
J. Silverman, R. E. Steuer, and A. W. Whisman 201

Designing a Generalized Multiple-Criteria Decision Support System
M. T. Jelassi, M. Jarke, and E. A. Stohr 214

An Analysis of the Decision Behavior of Individual Decision Makers in the Course of a Computer-Assisted Interactive Decision Process
H. Isermann 236

An Interactive Procedure for Solving Multiple-Objective Integer Linear Programming Problems
J. J. Gonzalez, G. R. Reeves, and L. S. Franz 250

An Improved Interactive Multicriteria Integer Programming Algorithm
M. H. Karwan, S. Zionts, B. Villarreal, and R. Ramesh 261

On Developing a Visual Interactive Multiple Criteria Method: An Outline
P. J. Korhonen and J. Laakso 272

An Interactive Multiple-Criteria Linear Programming Package
S. Breslawski and S. Zionts 282

The Use of Conjoint Analysis in the Determination of Goal Programming Weights for a Decision Support System
D. E. O'Leary and J. H. O'Leary 287

Goal Programming Sensitivity Analysis: The Tolerance Approach
R. E. Wendell 300

Multicriterion Design of High-Productivity Systems: Extensions and Applications
M. Zeleny 308

Generating Alternatives in Multiple-Criteria Decision-Making Problems: A Survey
V. M. Ozernoy 322

An Interactive Procedure for Solving Group Decision Problems
G. Kersten 331

Part IV--Applications and Comparative Evaluation Studies

Optimal Criterion Weights in Multicriteria Decision Making
E. U. Choo and W. C. Wedley 345

Subjective Estimation and Its Use in MCDM
G. Lockett, B. Hetherington, and P. Yallup 358

A Series of Experiments into the Use of Pairwise Comparison Techniques to Evaluate Criteria Weights
V. Belton and T. Gear 375

A Comparative Study on Eigen Weight Vectors
E. Takeda, P. L. Yu, and K. O. Cogger 388

Experiments in Multicriteria Decision Making and What we can Learn from them: An Example
B. F. Hobbs 400

An Experiment with Zionts-Wallenius and Steuer Interactive Programming Methods
M. Michalowski 424

Goal Trade-offs for U.S. Agricultural Commodity Programs: An Application of Multiple-Objective Analysis
E. Erickson 430

Multiobjective Decision Making Under Uncertainty: An Example for Power System
J. Teghem, Jr., and P. L. Kunsch 443

Pairwise Comparisons in a Multiobjective Energy Model
M. Kok and F. A. Lootsma 457

Multiple Criteria Financial Planning Model of Public Utility Firms
J. B. Guerard, Jr., and S. G. Buell 475

Comparison of a Multiattribute Utility and an Outranking Model Applied to a Nuclear Power Plant Siting Example
B. Roy and D. Bouyssau 482

A Multiple-Criteria Evaluation Typology of Environmental Management Problems
R. Janssen and P. Nijkamp 495

Trade-Off Between Cost and Efficiency of Pollution Control
I. Bogardi, A. Bardossy, and L. Duckstein 515

Multicriteria Methodology for Efficient Evaluation and Ranking of R&D Project Proposals
V. Matejic and D. Kutlaca 524

On the Applicability of Group Decision-Making Concepts to Wage Bargaining
G. Fandel 532

Regression Quantiles: An Example of Bicriteria Optimization
S. C. Narula and J. F. Wellington 549

Policy/Goal Percentaging as a Form of MCDM
S. S. Nagel 558

Conference Program 563

List of Participants 568
