TRANSPORTATION RESEARCH RECORD

Journal of the Transportation Research Board, No. 2130

Contents

Foreword	vii
Estimation of Passenger Car Equivalents Based on Capacity Variability Justin Geistefeldt	1
Prediction of User Perceptions of Signalized Intersection Level of Service Based on Fuzzy Neural Networks Xiaoming Chen, Da Li, Nan Ma, and Chunfu Shao	7
Estimation of Freeway Work Zone Capacity Through Simulation and Field Data Kevin Heaslip, Alexandra Kondyli, Diego Arguea, Lily Elefteriadou, and Frank Sullivan	16
Level of Service Analysis of Freeway Weaving Segments Roger P. Roess and Jose M. Ulerio	25
Capacity of Freeway Weaving Segments Roger P. Roess and Jose M. Ulerio	34
Validating the Incremental Queue Accumulation Method for Left-Turn Delay Estimation Michael Kyte, Ahmed Abdel-Rahim, Michael Dixon, Jan-Mou Li, and Dennis Strong	42
Impedance Effects of Left-Turning Vehicles from the Major Street at a Two-Way Stop-Controlled Intersection Werner Brilon	52

Capacity of U-Turns at Unsignalized Median Openings on Six-Lane Streets Pan Liu, Jian John Lu, and Bing Cao	59
Assessing Quality of Progression with Cyclic Coordination Functions Nathan H. Gartner and Rahul Deshpande	66
Investigation of Peak Flow Variations: Preliminary Field Studies Ping Yi, Jeanne Wolfenbarger, Venkata Suresh Raavi, and Lei Yu	75
Turbo Roundabouts: Estimation of Capacity Lambertus G. H. Fortuijn	83
Effect of Phase Countdown Timers on Queue Discharge Characteristics Under Heterogeneous Traffic Conditions Anuj Sharma, Lelitha Vanajakshi, and Nageswara Rao	93
Capacity and Other Traffic Characteristics in Taiwan's 12.9-km-Long Shea-San Tunnel Feng-Bor Lin, Chiung-Wen Chang, Pin-Yi Tseng, and Cheng-Wei Su	101
Delay Pattern Estimation for Signalized Intersections Using Sampled Travel Times Xuegang (Jeff) Ban, Ryan Herring, Peng Hao, and Alexandre M. Bayen	109
Performance Measures for Truck Level of Service: An Exploratory Survey Analysis Byungkoo Ko, Scott S. Washburn, and Douglas S. McLeod	120
Capacities of Unsignalized Intersections Under Mixed Vehicular and Nonmotorized Traffic Conditions Haiyuan Li, Wei Deng, Zong Tian, and Peifeng Hu	129
Replication of Work Zone Capacity Values in a Simulation Model Indrajit Chatterjee, Praveen Edara, Sandeep Menneni, and Carlos Sun	138
Field Evaluation of Model-Based Estimation of Arterial Link Travel Times Hui Xiong and Gary A. Davis	149
