

SP-439  
June 2000

*Proceedings*

*EUROPEAN SPACE COMPONENTS CONFERENCE*

*ESCCON 2000*

**21-23 March 2000**  
**ESTEC, Noordwijk, The Netherlands**

*HLuHB Darmstadt*

14899030

**European Space Agency**  
**Agence spatiale européenne**

## CONTENTS

Opening Address	1
<i>Soons, A.; ESA/ESTEC, The Netherlands</i>	

### Session 1

### Radiation

**Chairman: G. Hopkinson, SIRA**

18 Years of Flight Experience with the UoSAT Microsatellites	5
<i>Underwood, C.I.; University of Surrey, United Kingdom</i>	
Heavy Ion Induced Gigantic Multiple Errors in State of the Art Memories	13
<i>Poivey, C.; Doucin, B.; Carriere, T; Matra Marconi Space, France; Marec, R.; Calvel, P.; Aspi, France</i>	
Temic 0.35 $\mu$ m Technology and Sea of Gates for Space	19
<i>De Saint Roman, D.; Rodde, K; Briet, M.; Rouxel, G.; TEMIC - MHS, France</i>	
Effect of Charge Distribution on Burnout Threshold of Hardened Power MOSFET	25
<i>Salame, C.*; Adams, L.****; Kerns, S.***; Kerns, D.V.***; Pelanchon, F.*; Mialhe, P.*; Hoffmann, A.**; Charles, J.-P.**; *Université de Perpignan, France; **Supélec, France; ***Franklin W. Olin College of Engineering, USA; ****Brunel University, United Kingdom</i>	
Total Dose Evaluation of Advanced and Commercial Grade Memories, Sensors and Interface ICs	31
<i>Regula, M.; Dornier Satellitensysteme GmbH, Germany</i>	

### Session 2

### Packaging

**Chairman: A. Coello Vera, Alcatel**

Very Fine Line Technology for MCM C Manufacturing Evaluation and Industrialisation	39
<i>Puig, O.; CNES, France; Samson, D; Matra Marconi Space, France</i>	
Power Modules: A Novel Approach to Achieve Compact Solutions for Complex Power Conditioning Circuits	45
<i>Perusini, M.; Tommaso, G.; Alenia Aerospazio S.p.A., Italy</i>	
Reliability Study of Surface Mounted 3D Molded Stacks Using BGA and Leadframe Attachment	53
<i>Venet, N.; Albinet, S.; Coello-Vera, A.; Alcatel Space Industries, France</i>	
High Density Interconnection for Modular Space Equipment: Interposers IUP and IHD	59
<i>Val, A. &amp; Garnier, J.; Matra Marconi Space, France</i>	
Hermetically Sealed On-Chip Packaging of MEMS Devices	67
<i>De Moor, P.; Tilmans, H.; Van de Peer, M.; Labie, R.; Beerten, S.; Beyne, E.; Van Hoof, C.; IMEC, Belgium</i>	
Theoretical and Empirical Verification of the Stress Distribution in Stacked Ceramic Capacitors for Space Applications	71
<i>Kraft, T.; Gaul, Th.; Löffler, R. &amp; Theis, R.; Bosch Telecom GmbH, Germany</i>	
Supercapacitors: Applications and Requirements	79
<i>Barde, H.; MMS, France</i>	
An Effective KGD Test Flow for Space Oriented Applications	87
<i>Vrignaud, J.M.; TEMIC - MHS, France</i>	

Chip Size Packages for Space Equipment <i>Massenat, M.; Matra Marconi Space, France</i>	93
--	----

**Session 3**  
**Assurance/Procurement**  
**Chairman: E. Jantz, DSS**

Strategy for Low Power Radiation Tolerant Commercial Technologies ( <i>Keynote Paper</i> ) <i>Hollreiser, M.; ESA/ESTEC, The Netherlands</i>	101
A Structured Procedure for Assessing the Suitability of Commercial Components for Space Applications <i>Colquhoun, A.*; Moore, D.**; Sesterhenn, S.*;</i> <i>*Bosch Telecom GmbH, Germany; **Dornier Satellitensysteme GmbH, Germany</i>	109
Temperature Upgrading Study on Use of Commercial Components for Space Applications <i>Lay, Ph.**; Aicardi, C.**; Pasquier, B.*; Prodhomme, P.*; Carton, P.***; Le Blanc, P.****</i> <i>*Lab. Central des Industries Electriques, France; **CNES, France; ***Thomson CSF-TTM, France;</i> <i>**** Matra Marconi Space, France</i>	115
Establishment of Derating Rules and Worst Case Analysis Figures for EEE Components <i>Cosqueric, L.; Le Blanc, P.; Salvaterra, G.; Toudret, L.; Matra Marconi Space, France</i>	121
Procurement of Catalogue Hybrid DC/DC Converters for Various Space Projects <i>Liebler, T.; Stadler, B.; Bosch Telecom GmbH, Germany</i>	125
Advances in the Evaluation of the Quality and Reliability of Integrated Circuits <i>Colquhoun, A.; Korn, M.; Bosch Telecom GmbH, Germany</i>	131
Refinement of Internal Visual Inspection (IVI) Criteria and Pre-cap Inspection Procedure for GaAs and Related Components <i>Storm, H.*; Croisille, G.**; Kirsch, M.***; Marchand, L.****;</i> <i>*Bosch Telecom GmbH, Germany; **United Monolithic Semiconductors, France;</i> <i>***Infineon Technologies, Germany; ****ESA ESTEC, The Netherlands</i>	137
The EIA G12 and EIA JC13 Collaboration with the European Space Community, Global Joint Efforts for Advances in Solid State Device Standards <i>Cooper, M.* &amp; Gutierrez Macias, F.**; *General Dynamics, USA; **Tecnologica, Spain</i>	143
NASDA Component Program Approach to QML from QPL <i>Itoh, H.*; Yuchi, H.*; Matsuda, S.*; Asano, H.**; *NASDA, Japan;</i> <i>**High-Reliability Components Corporation, Japan</i>	151

**Session 4**  
**From IP to Product**  
**Chairman: R. Creasey, ESA**

Using VHDL Cores in System-On-A-Chip Developments <i>Habinc, S.; ESA ESTEC, The Netherlands</i>	159
An Onboard FEC Decoder for Burst Mode Operations <i>De Saint Roman, D.*; Burban, A.*; Mantelet, G.*; Baguena, L.**; Buret, I.**; Mesnager, G.*;</i> <i>*TEMIC - MHS, France; **Alcatel Space Industries, France</i>	167
Validation of a 1553 IP <i>Mercier, P.*; Clavé, E.*; Baguena, L.**; De Saint Roman, D.***; *ADV Engineering, France;</i> <i>**Alcatel Space Industries, France; ***TEMIC - MHS, France</i>	173

A Local Time Management IP Core 177  
*Redant, S.\*; Habinc, S.\*\*; \*IMEC, Belgium; \*\*ESA/ESTEC, The Netherlands*

LEON-1 Processor - First Evaluation Results 183  
*Gaisler, J.; ESA/ESTEC, The Netherlands*

**Session 5**  
**Microwave & Optics**  
**Chairman: F. Fantini, University of Modena (also ASI)**

Component Technologies for Space Equipments from the User Point of View 191  
*Feudale, M.; Alenia Aerospazio S.p.A., Italy*

Space Evaluation of P-HEMT MMIC Process PH15 199  
*Huguet, P.\*; Auxemery, P.\*; Pataut, G.\*; Fellon, P.\*; Geiger, D.\*\*; Jung, H.\*\*;  
 \*UMS, France; \*\*UMS, Germany*

Comprehensive Hot Electron Assessment of Ku-Band AlGaAs/GaAs Power HFETs: Electrical Characterization, Accelerated Stress, and Simulation 205  
*Dieci, D.\*; Menozzi, R.\*\*; Tomasi, T.\*; Sozzi, G.\*\*; Lanzieri, C.\*\*\*; Canali, C.\*;  
 \*University of Modena and Reggio Emilia, Italy; \*\*University of Parma, Italy; \*\*\* Alenia, Italy*

Millimetre-Wave Performance of InP and Metamorphic GaAs HEMTs (*Invited Paper*) 211  
*Thayne, I.G.; Edgar, D.L.; University of Glasgow, UK*

Microwave Power SiC Technology (*Invited Paper*) 217  
*Brylinski, Ch.; Thomson CSF, France*

Gallium Nitride Microwave Devices for Space Applications 225  
*Phillips, W.A.; Davies, R.; Jones, S.; Marsh, S.; Vanner, K.; Wadsworth, S.; Webb, A.; Wallis, R.;  
 GEC-Marconi Materials Technology, UK*

**Session 6**  
**Emerging IC Technologies & Products (Theme A-3)**  
**Chairman: A. Dantec, TEMIC**

Internal Testing of Programmable Circuits 233  
*Desplats, R.; Perdu, P.; CNES, France*

Evaluation of the Digital Signal Processor TSC2102F from the Manufacturer TEMIC Semiconductors MHS for Space Applications 239  
*Belasic, M.\*; Bezerra, F.\*; Rouxel, G.\*\*; \*CNES, France; \*\*MHS La Chantreterie, France*

PDFE: A Particle Detector Front-End ASIC 247  
*Wouters, J.\*; Redant, S.\*; Marent, K.\*; Das, C.\*; Habinc, S.\*\*; Johlander, B.\*\*; Sanderson, T.\*\*;  
 \*IMEC, Belgium; \*\*ESA/ESTEC, The Netherlands*

## Poster Session Component Assurance, Costs and Procurement

COTS and Technology Stability <i>Harvey, M.; Jones, J.; IGG Component Technology Ltd., UK</i>	255
Qualification and Certification of Russian and West-European Space Components <i>Gericke, W.; Nagel, J.; DaimlerChrysler Aerospace AG, Germany</i>	261
The European Preferred Parts List <i>Haury, M.*; Gallina, G.**; *ESA/ESTEC, The Netherlands; **Top-Rel, Italy</i>	267
Plastic Packaged IC in Space Application - Two Case Studies of PEM Evaluation <i>Lundmark, K.; Saab Ericsson Space, Sweden</i>	271
Technical Analysis and Types Reduction as Drivers for Effective EEE Parts Procurement Cost Savings <i>Gutiérrez, F.; Ramos, O.; Dominguez, M.; Tecnologica, Spain</i>	277
Total Dose Behaviour of Pure Commercial Non-Traceable Integrated Circuits <i>Gutiérrez, F.*; Fernandez, G.*; Ramos, O.*; Núñez, D.*; Fenoy, S.*; Valverde, J.M.*; Ponce, J.**; Juménez, J.M.**; Velasco, A.**; *Tecnologica, Spain, **Alcatel Espacio, Spain</i>	285

## Poster Session IC Technology

Reliability Prediction and Quality Assurance at TEMIC Semiconductors/MHS SA <i>Lecuyer, P.; TEMIC Semiconductors / MHS SA, France</i>	295
TEMIC SLI Answers to Future Telecom Multimedia Payload Challenges <i>De Saint Roman, D.; TEMIC Semiconductors / MHS SA, France</i>	303
Reliability of THz Whisker Contacted Schottky Diodes <i>Pike, J.; Calvert, T.; Maaskant, P.; National Microelectronic Research Centre, Cork, Ireland</i>	309
Noise Behaviour in SiGe BiCMOS Technology <i>Regis, M.*; Plana, R.*; Borgarino, M.*; Lafontaine, H.**; Tartarin, J.G.*; Llopis, O.*; Kovacic, S.**; *LAAS-CNRS, France; ** SiGe Microsystems Inc, Canada</i>	313
Lithium Battery Array Pseudo-Passive Protection Device <i>DiBugnara, R.; Zhang, W.; Zhuang, W.D.; Hu, W.; Conte, B.; Sensitron Semiconductor, USA</i>	319
Development of 1M Gate CMOS Gate Array <i>Nemoto, N.*; Shindou, H.*; Makihara, A.*; Kuboyama, S.*; Matsuda, S.*; Sugimoto, K.**; Oikawa, K.**; Itoh, H.***; Nashiyama, I.**; *NASDA, Japan; **High-Reliability Components Corp, Japan; ***Japan Atomic Energy Research Institute</i>	325
Radiation Tolerant Very Low Voltage Dropout Regulator - European Space Component Initiatives <i>DiBugnara, R.; Hu, W.; Sensitron Semiconductor, USA</i>	331
Space Qualified 4Mb CMOS Static RAM <i>Hymers, R.*; Turner, C.*; Shephard, L.*; Odell, G.**; Smith, R.**; *Spur Electron Ltd, United Kingdom; **Rood Technology UK Ltd, United Kingdom</i>	337

## Poster Session Optics

- Space Qualified Fiber Optic Components for the Space Station 343  
*Clarensen, Th. & Messaoudi, M.; Alcatel Space Industries, France*

## Poster Session Radiation

- A New Methodology for SEE Testing and Simulations 349  
*Pietri, S.\*; Pavan, P.\*; Iacono, S.\*\*; Striccoli, M.\*\*\*; \*University of Modena, Italy; \*\*Top-Rel, Italy; \*\*\*Centro Laser, Italy*
- A COTS-Based Single Board Radiation-Hardened Computer for Space Applications 355  
*Strobel, D.; Stewart, S.; Hillman, R.; Layton, P.; Krawzsenek, D.; Space Electronics Inc., USA*
- New Techniques for a Better Performance of Total Dose Radiation Tests over EEE Components 361  
*Fenoy, S.; Valverde, J.M.; Muñoz, E.; Fernández, G.; Tecnologica SA, Spain*
- In-situ Radiation Tests of Memory Devices 367  
*Brüggemann, M.\*; Fichna, T.\*; Gärtner, M.\*; Gliem, F.\*; Rombeck, F.-J.\*\*; \*TU Braunschweig, Germany, \*\*Dornier Satellitensysteme, Germany*
- Evaluation of the Sensitivity of Newly Emerging FD-SOI Technologies to the Combined Low Temperature and Radiation Environment in Space 375  
*Patel, J.; Yuan, J.; Vandooren, A.; Kayali, S.; NASA/JPL, USA*
- Participants** 383
