Preface: To the Instructor	xvii
Preface: To the Student	xxvi

---

<b>PART ONE</b>	<b>Introduction and Measurement</b>	<b>1</b>
<b>CHAPTER 1</b>	<b>What Is Macroeconomics?</b>	<b>3</b>
1-1	How Macroeconomics Affects Our Everyday Lives	3
1-2	Defining Macroeconomics	5
1-3	Actual and Natural Real GDP	6
1-4	Macroeconomics in the Short Run and Long Run	9
1-5	<b>CASE STUDY: A Century of Business Cycles</b>	<b>13</b>
1-6	Macroeconomics at the Extremes	15
1-7	Taming Business Cycles: Stabilization Policy	19
1-8	The “Internationalization” of Macroeconomics	20
	<b>INTERNATIONAL PERSPECTIVE</b>	
	<b>How Does U.S. Economic Performance Rank?</b>	<b>21</b>
<b>CHAPTER 2</b>	<b>The Measurement of Income, Prices, and Unemployment</b>	<b>25</b>
2-1	Why We Care About Income	25
2-2	The Circular Flow of Income and Expenditure	26
2-3	What Transactions Should Be Included in Income and Expenditure?	27
2-4	Components of Expenditure	29
	<b>Where to Find the Numbers: A Guide to the Data</b>	<b>30</b>
2-5	A Summary of Types of Spending	37
2-6	How Much Income Flows from Business Firms to Households?	39
2-7	Nominal GDP, Real GDP, and the GDP Deflator	41
	<b>INTERNATIONAL PERSPECTIVE</b>	
	<b>Saving, Investment, and Government Budgets Around the World</b>	<b>42</b>
2-8	How Nominal GDP Is Split Between Inflation and Changes in Real GDP	44
	<b>How to Calculate Inflation, Real GDP Growth, or Any Other Growth Rate</b>	<b>49</b>
2-9	Measuring Unemployment	49
2-10	<b>CASE STUDY: Unemployment and the Output Ratio</b>	<b>52</b>

<b>PART TWO</b>	<b>Income, Interest Rates, Policy, and the Open Economy</b>	59
<b>CHAPTER 3</b>	<b>The Simple Keynesian Theory of Income Determination</b>	61
3-1	Business Cycles, Unemployment, and Income Determination	61
3-2	Planned Expenditure	62
3-3	<b>CASE STUDY: Why Did U.S. Saving Almost Vanish in 2001?</b>	66
3-4	The Economy In and Out of Equilibrium	67
3-5	The Multiplier Effect	72
3-6	Fiscal Policy	74
	<b>INTERNATIONAL PERSPECTIVE</b> <b>How the United States and Japan Use Fiscal Policy</b>	78
	<b>Appendix to Chapter 3:</b> <b>Allowing for Income Taxes and Income-Dependent Net Exports</b>	83
<b>CHAPTER 4</b>	<b>The IS-LM Model</b>	87
4-1	Introduction	87
4-2	Interest Rates and Rates of Return	88
4-3	The Relation of Autonomous Planned Spending to the Interest Rate	89
	<b>How Monetary Policy Actually Worked in 2001</b>	93
4-4	The <i>IS</i> Curve	94
	<b>Learning About Diagrams: The <i>IS</i> Curve</b>	96
4-5	Why People Use Money	98
4-6	Income, the Interest Rate, and the Demand for Money	100
4-7	The <i>LM</i> Curve	101
	<b>Learning About Diagrams: The <i>LM</i> Curve</b>	104
4-8	The <i>IS</i> Curve Meets the <i>LM</i> Curve	106
4-9	Monetary Policy in Action	107
4-10	How Fiscal Expansion Can “Crowd Out” Investment	109
	<b>INTERNATIONAL PERSPECTIVE</b> <b>The Worldwide Effects on Consumer Confidence of the September 11 Attacks</b>	110
<b>CHAPTER 5</b>	<b>Monetary Policy, Fiscal Policy, and the Government Budget</b>	117
5-1	Introduction	117
5-2	Strong and Weak Effects of Monetary Policy	118
5-3	Strong and Weak Effects of Fiscal Policy	120
5-4	Using Fiscal and Monetary Policy Together	122

	<b>INTERNATIONAL PERSPECTIVE</b>	
	<b>Policy Paralysis in Japan</b>	126
5-5	<b>CASE STUDY: The Debate Over Monetary and Fiscal Policy Stimulus in the 2001 U.S. Recession</b>	128
5-6	The Pervasive Effects of the Government Budget	131
5-7	<b>CASE STUDY: The Government Budget in Historical Perspective</b>	133
5-8	The Structural Budget	135
5-9	National Saving and the Consequences of the Government Budget	139
5-10	Conclusion: The Role of Monetary and Fiscal Policy	142
	<b>Appendix to Chapter 5: The Elementary Algebra of the IS-LM Model</b>	147
<b>CHAPTER 6</b>	<b>International Trade, Exchange Rates, and Macroeconomic Policy</b>	151
6-1	Introduction	151
6-2	Foreign Trade, the Balance of Payments, and International Indebtedness	153
6-3	Exchange Rates	157
6-4	The Market for Foreign Exchange	158
6-5	Nominal and Real Exchange Rates in the Long Run	162
6-6	Exchange Rate Systems	165
	<b>INTERNATIONAL PERSPECTIVE</b>	
	<b>Big Mac Meets PPP</b>	166
6-7	<b>CASE STUDY: The Trilemma, Fixed Exchange Rates, and Perfect Capital Mobility</b>	170
6-8	Determinants of Net Exports	172
6-9	The Real Exchange Rate and Interest Rate	176
	<b>INTERNATIONAL PERSPECTIVE</b>	
	<b>Exchange Rates and Monetary Policy in the U.S., Europe, and Japan</b>	178
6-10	The IS-LM Model in a Small Open Economy	180
6-11	Capital Mobility and Exchange Rates in a Large Open Economy	184
	<b>Summary of Monetary and Fiscal Policy Effects in Open Economies</b>	186
6-12	Conclusion: Economic Policy in the Open Economy	186

---

## **PART THREE Inflation and Unemployment** 191

<b>CHAPTER 7</b>	<b>Aggregate Demand, Aggregate Supply, and the Self-Correcting Economy</b>	193
7-1	The Role of Aggregate Demand and Supply	193

7-2	Flexible Prices and the <i>AD</i> Curve	194
7-3	Shifting the Aggregate Demand Curve with Monetary and Fiscal Policy	196
	<b>Learning About Diagrams: The <i>AD</i> Curve</b>	198
7-4	Alternative Shapes of the Short-Run Aggregate Supply Curve	199
7-5	The Aggregate Supply Curve When the Nominal Wage Rate Is Constant	201
	<b>Learning About Diagrams: The <i>SAS</i> Curve</b>	203
7-6	How the Wage Rate Is Set	204
7-7	Fiscal and Monetary Expansion in the Short and Long Run	206
	<b>Summary of the Economy's Adjustment to an Increase in Aggregate Demand</b>	209
7-8	Classical Macroeconomics: The Quantity Theory of Money and the Self-Correcting Economy	210
7-9	The Keynesian Revolution: The Failure of Self-Correction	212
	 <b>INTERNATIONAL PERSPECTIVE</b>	
	<b>Deflation Deepens Japan's Dilemma</b>	216
7-10	<b>CASE STUDY: What Caused the Great Depression?</b>	219

<b>CHAPTER 8</b>	<b>Inflation: Its Causes and Cures</b>	226
8-1	Introduction	226
8-2	Real GDP, the Inflation Rate, and the Short-Run Phillips Curve	227
8-3	The Adjustment of Expectations	230
	<b>Learning About Diagrams: The Short-Run (<i>SP</i>) and Long-Run (<i>LP</i>) Phillips Curves</b>	232
8-4	Nominal GDP Growth and Inflation	233
8-5	Effects of an Acceleration in Nominal GDP Growth	235
8-6	Expectations and the Inflation Cycle	237
8-7	Recession as a Cure for Inflation	239
8-8	<b>CASE STUDY: How Large Is the Sacrifice Ratio?</b>	242
	 <b>INTERNATIONAL PERSPECTIVE</b>	
	<b>Did Disinflation in Europe Differ from That in the United States?</b>	244
8-9	The Importance of Supply Disturbances	244
8-10	The Response of Inflation and Real GDP to a Supply Shock	247
8-11	<b>CASE STUDY: The Goldilocks Economy—Why Inflation Was So Low in the 1990s</b>	252
8-12	Inflation and Output Fluctuations: Recapitulation of Causes and Cures	256
	<b>Appendix to Chapter 8:</b>	
	<b>The Elementary Algebra of the <i>SP-DG</i> Model</b>	263

<b>CHAPTER 9</b>	<b>The Goals of Stabilization Policy: Low Inflation and Low Unemployment</b>	271
9-1	The Costs and Causes of Inflation	271
9-2	Money and Inflation	272
	<b>INTERNATIONAL PERSPECTIVE</b> <b>Money Growth and Inflation</b>	275
9-3	Interest Rates and Inflation	277
9-4	The Government Budget Constraint and the Inflation Tax	280
9-5	Starting and Stopping a Hyperinflation	283
9-6	Costs of a Fully Anticipated Inflation: Creeping Inflation versus Hyperinflation	286
	<i>The Wizard of Oz as a Monetary Allegory</i>	287
9-7	Indexation and Other Reforms to Reduce the Costs of Inflation	290
	<b>INTERNATIONAL PERSPECTIVE</b> <b>The Indexed Bond Has Arrived</b>	291
9-8	Why the Unemployment Rate Cannot Be Reduced to Zero	292
9-9	Sources of Mismatch Unemployment	293
9-10	Turnover Unemployment and Job Search	295
9-11	<b>CASE STUDY: Why Is Unemployment in Europe Higher Than in the United States?</b>	299
9-12	Conclusion: Solutions to the Inflation and Unemployment Dilemma	302

---

## **PART FOUR** Macroeconomics in the Long Run: Growth and Public Finance 307

<b>CHAPTER 10</b>	<b>The Theory of Economic Growth</b>	309
10-1	The Importance of Economic Growth	309
10-2	Standards of Living as the Consequence of Economic Growth	311
	<b>INTERNATIONAL PERSPECTIVE</b> <b>The Growth Experience of Seven Countries over the Last Century</b>	312
10-3	The Production Function and Economic Growth	313
10-4	Solow's Theory of Economic Growth	317
10-5	Technology in Theory and Practice	321
10-6	Puzzles That Solow's Theory Cannot Explain	324
10-7	Human Capital, Immigration, and the Solow Puzzles	327
10-8	Endogenous Growth Theory: How Is Technological Change Produced?	329
10-9	Conclusion: Are There Secrets of Growth?	332

	<b>Appendix to Chapter 10: General Functional Forms and the Production Function</b>	336
<b>CHAPTER 11</b>	<b>The Big Questions of Economic Growth</b>	338
	11-1 Answering the Big Questions	338
	11-2 The Standard of Living and Concepts of Productivity	340
	11-3 The Failure of Convergence	343
	11-4 Human Capital and Technology	350
	11-5 Political Capital, Infrastructure, and Geography	353
	 <b>INTERNATIONAL PERSPECTIVE</b>	
	<b>Growth Success and Failure in the Tropics</b>	357
	11-6 <b>CASE STUDY: Uneven U.S. Growth Across Eras: Why the Productivity Growth Slowdown?</b>	359
	11-7 Labor Supply Shifts as a Source of Faster or Slower Productivity Growth	364
	11-8 The “New Economy” and the Revival of Productivity Growth	368
	<b>How the Great Inventions Created Economic Growth: Life in the “Bad Old Days”</b>	370
	11-9 Conclusion on the Great Questions of Growth	374
<b>CHAPTER 12</b>	<b>The Government Budget, the Public Debt, and Social Security</b>	379
	12-1 Introduction: The Government Budget and Long-Run Economic Growth	379
	12-2 Long-Run Effects of Fiscal Policy on Economic Growth and Welfare	380
	12-3 The Future Burden of the Government Debt	382
	12-4 Will the Government Remain Solvent?	384
	 <b>INTERNATIONAL PERSPECTIVE</b>	
	<b>The Debt-GDP Ratio: How Does the United States Compare?</b>	386
	12-5 <b>CASE STUDY: Historical Behavior of the Debt-GDP Ratio Since 1790</b>	387
	12-6 How the Budget Deficit Grew and Disappeared	389
	12-7 Alternative Views of Fiscal Policy: Supply-Side Economics	392
	12-8 Alternative Views of Fiscal Policy: The Barro-Ricardo Equivalence Theorem	394
	12-9 How Should Social Security Be “Saved”?	396
	12-10 The Budget Surplus Recasts the Debate	400
<b>PART FIVE</b>	<b>Stabilization Policy in an Open Economy</b>	403
<b>CHAPTER 13</b>	<b>Money and Financial Markets</b>	405
	13-1 Money in a World of Many Financial Assets and Liabilities	405

13-2	Financial Institutions, Markets, and Instruments	406
13-3	Definitions of Money	410
	<b>Smart Cards, E-Money, and the Money Supply</b>	413
13-4	High-Powered Money and Determinants of the Money Supply	414
13-5	The Fed's Three Tools for Changing the Money Supply	417
13-6	Theories of the Demand for Money	421
13-7	<b>CASE STUDY: Why Interest Rates Were More Volatile in the 1980s and Less Volatile in the 1990s</b>	426
13-8	Why the Federal Reserve "Sets" Interest Rates	428
	<b>INTERNATIONAL PERSPECTIVE</b>	
	<b>Where in the World Is All the U.S. Currency?</b>	432
<b>CHAPTER 14</b>	<b>Stabilization Policy in the Closed and Open Economy</b>	438
14-1	The Central Role of Demand Shocks	438
14-2	Stabilization Targets and Instruments in the Activists' Paradise	439
	<b>Rules vs. Activism in a Nutshell: The Optimism-Pessimism Grid</b>	443
14-3	Policy Rules	443
14-4	Policy Pitfalls: Lags and Uncertain Multipliers	446
14-5	<b>CASE STUDY: Was the Fed Responsible for the Decline in Economic Volatility?</b>	451
14-6	Time Inconsistency, Credibility, and Reputation	456
14-7	<b>CASE STUDY: Should Monetary Policy Target the Exchange Rate?</b>	459
	<b>INTERNATIONAL PERSPECTIVE</b>	
	<b>The Debate About the Euro</b>	460
14-8	Rules Versus Discretion: An Assessment	462
<hr/>		
<b>PART SIX</b>	<b>Sources of Instability in the Private Economy</b>	469
<b>CHAPTER 15</b>	<b>Instability in the Private Economy: Consumption Behavior</b>	471
15-1	Consumption and Economic Stability	471
15-2	<b>CASE STUDY: Main Features of U.S. Consumption Data</b>	472
15-3	Background: The Conflict Between the Time-Series and Cross-Section Evidence	474
15-4	Forward-Looking Behavior: The Permanent-Income Hypothesis	477
15-5	Forward-Looking Behavior: The Life-Cycle Hypothesis	481
15-6	Rational Expectations and Other Amendments to the Simple Forward-Looking Theories	485
	<b>Did Households Spend or Save the 2001 Tax Rebate?</b>	487
15-7	Bequests and Uncertainty	489

	<b>INTERNATIONAL PERSPECTIVE</b>	
	<b>Why Do Some Countries Save So Much?</b>	490
15-8	<b>CASE STUDY: Did the Stock Market Boom Cause the Collapse in the Household Saving Rate?</b>	493
15-9	Conclusion: Consumption and the Case For and Against Activism	497
<b>CHAPTER 16</b>	<b>Instability in the Private Economy: Investment</b>	501
16-1	Investment and Economic Stability	501
16-2	<b>CASE STUDY: The Historical Instability of Investment</b>	502
16-3	The Accelerator Hypothesis of Net Investment	504
16-4	<b>CASE STUDY: The Simple Accelerator and the Postwar U.S. Economy</b>	508
16-5	The Flexible Accelerator	510
16-6	The Neoclassical Theory of Investment Behavior	511
16-7	User Cost and the Role of Monetary and Fiscal Policy	513
	<b>Tobin's <math>q</math>: Does It Explain Investment Better Than the Accelerator or Neoclassical Theories?</b>	514
16-8	Business Confidence and Speculation	517
16-9	<b>CASE STUDY: The Boom and Bust in "New Economy" Investment</b>	519
	<b>INTERNATIONAL PERSPECTIVE</b>	
	<b>The Level and Variability of Investment Around the World</b>	522
16-10	Investment as a Source of Instability of Output and Interest Rates	524
16-11	Conclusion: Investment and the Case For and Against Activism	524

---

## **PART SEVEN Debates at the Macroeconomic Frontier** 529

<b>CHAPTER 17</b>	<b>New Classical Macro Confronts New Keynesian Macro</b>	531
17-1	Introduction: Classical and Keynesian Economics, Old and New	531
17-2	Imperfect Information and the "Fooling Model"	532
17-3	The Lucas Model and the Policy Ineffectiveness Proposition	535
17-4	The Real Business Cycle Model	539
	<b>INTERNATIONAL PERSPECTIVE</b>	
	<b>Productivity Fluctuations in the United States and Japan</b>	540
17-5	New Classical Macroeconomics: Limitations and Positive Contributions	545
17-6	Essential Features of the New Keynesian Economics	548
17-7	Why Small Nominal Rigidities Have Large Macroeconomic Effects	549
17-8	Coordination Failures and Indexation	553

17-9	Long-Term Labor Contracts as a Source of the Business Cycle	554
17-10	“Real” Sources of Wage Stickiness	556
17-11	Assessment of the New Keynesian Model	557

## **CHAPTER 18 Conclusion: Where We Stand** 562

18-1	The Evolution of Events and Ideas	562
18-2	The Reaction of Ideas to Events, 1923–47	563
18-3	The Reaction of Ideas to Events, 1947–69	566
18-4	The Reaction of Ideas to Events, 1970–2001	570
18-5	The Reaction of Ideas to Events in the World Economy	576
18-6	Macro Mysteries: Unsettled Issues and Debates	577

### **INTERNATIONAL PERSPECTIVE**

<b>How Does Macroeconomics Differ in the United States and Europe?</b>	578
--	-----

### **Appendixes**

A:	Time Series Data for the U.S. Economy: 1875–2001	A1
B:	International Annual Time Series Data for Selected Countries: 1960–2001	A8
C:	Data Sources and Methods	A14
