Contents

| | |
|---|-----------------|
| Foreword | vii |
| Acknowledgments | ix |
| Abbreviations and Acronyms..... | xi |
| Executive Summary..... | xiii |
| 1 Introduction | 1 |
| 2 Kenya's Economy and Water Resources | 7 |
| 3 The Physical Impacts of Rainfall Variability: Floods and Droughts..... | 27 |
| 4 The Physical Impacts of Water Resources Degradation | 43 |
| 5 Economic Impacts of Rainfall Variability and Water Resources Degradation... | 65 |
| 6 Conclusions and Recommendations | 77 |
| APPENDIXES | |
| A List of People Consulted | 87 |
| B Hydrologic Effects of Forest Clearance | 91 |
| C Methods and Data for Valuing Economic Losses | 95 |
| References | 101 |
| Map..... | endplate |

LIST OF TABLES

| | |
|---|-----------|
| 2.1 Safe Yield from Water Resources by Major Drainage Basins in Kenya..... | 9 |
| 2.2 Infrastructure Cost Estimates for Water Sector | 13 |
| 2.3 Condition of Gauges for Measuring Flow into Lake Nakuru | 15 |
| 2.4 Estimated Water Demand, 1990–2010 | 16 |
| 2.5 Estimates of Livestock Populations in Kenya | 19 |
| 2.6 Major Crop Production in 1990 and Projected Production in 2010 | 20 |

| | | |
|-----|--|----|
| 2.7 | Estimated Economic Loss from Livestock Deaths Due to 1999–2000 Drought Stress..... | 21 |
| 2.8 | Quantity and Value of Fish Landed, 1995–2001 | 23 |
| 3.1 | Distribution of Rainfall in Kenya | 28 |
| 3.2 | Drought Incidence in Kenya, 1883–2001 | 29 |
| 3.3 | Existing Water Dams/Pans and Boreholes and Deficit in Most-Affected Districts .. | 31 |
| 3.4 | Major Rehabilitation Projects in Response to El Niño Floods in Most-affected Areas | 34 |
| 3.5 | Flood Damage Costs to the Water Sector | 35 |
| 3.6 | The Physical Impacts of Floods and Droughts | 41 |
| 4.1 | Growth in Absolute Number of Abstraction Points in Three Rivers, Ewaso Nyiro North Basin, 1997–2002 | 46 |
| 4.2 | Percentage of Unauthorized Abstractions for River Basins in the Northern Ewaso Nyiro Catchment, 1994–95..... | 47 |
| 4.3 | Depth of Lake Baringo | 48 |
| 4.4 | Economic Opportunities Lost Due to Water Overabstraction, 1999–2000..... | 49 |
| 4.5 | Main Economic Uses of the Water Hyacinth | 62 |
| 4.6 | Summary of Physical Impacts of Water Resources Degradation | 63 |
| 5.1 | Costs Arising from El Niño-induced Floods | 68 |
| 5.2 | Costs Arising from 1998–2000 La Niña Drought | 70 |
| 5.3 | Costs from Water Resource Degradation | 73 |

LIST OF FIGURES

| | | |
|-----|---|-----|
| 1 | Trend of GDP and Population Growth Rates (1999–2000)..... | xiv |
| 2 | Decreasing Storage for Domestic Water Supply in Kenya (1969–1999)..... | xv |
| 2.1 | Actual Withdrawal and Safe Yield of Water | 10 |
| 2.2 | Estimated Water Demand | 11 |
| 2.3 | Decreasing Storage for Domestic Water Supply in Kenya (1969–1999) | 12 |
| 2.4 | Development Expenditure on Water Supplies and Related Services, 1994/5–2001/2 | 14 |
| 2.5 | Principal Economic Sectors..... | 16 |
| 2.6 | Sources of Electric Power Used in Kenya | 18 |
| 2.7 | Sources of Electricity Generation, 1996–2000 | 18 |
| 3.1 | Water Abstraction Rate in Upper Ewaso Nyiro North River..... | 32 |
| 3.2 | Changes in the Price of Maize in Kenyan Regions..... | 37 |
| 3.3 | Freshwater Natural Fish Production, 1994–2000..... | 39 |
| 4.1 | Trends in Analytical Services at Central Water Testing Laboratory, Nairobi..... | 45 |

| | |
|--|----------|
| 4.2 Observed and Modeled Levels of Lake Naivasha Showing a Steady Decline in the Potential Water Level after 1984 | 46 |
| 4.3 Trends in Borehole Drilling in Ewaso Nyiro North Basin, 1930–2003 | 47 |
| 4.4 Expenditure in Forest Sector, Kenya | 50 |
| 4.5 Extent of Forest Removal in Lake Nakuru Catchment | endplate |
| 4.6 Trends in Bed Occupancy in Coastal Beaches and Niarobi Area | 55 |
| 4.7 Bed Occupancy for Eight Hotels along Malindi Beach | 55 |
| 4.8 Drawdown of Water Table in a Private Well in Nairobi Area | 56 |
| 4.9 Reduction in Water Hyacinth Density after Release of Bio-agent at Three Sites in Tanzanian Part of Lake Victoria | 62 |
| 6.1 Percentage Change from Long-term Mean Rainfall Illustrating a Sequence of Floods and Droughts | 78 |

LIST OF BOXES

| | |
|---|----|
| 1.1 Country Strategy on Integrated Water Resources Management: Key Issues | 4 |
| 2.1 Major Programs for Groundwater Development | 13 |
| 2.2 Declining Per Capita Commercial Energy Consumption | 17 |
| 2.3 Consequences of Underpricing Water Supply | 24 |
| 3.1 The Impact of Floods | 36 |
| 4.1 Social Implications of Water Scarcity | 48 |
| 4.2 Effects of Increased Sedimentation of the Sabaki River | 54 |
| 6.1 International Costs of Water Resource Degradation and Climate Variability | 79 |
