<i>List of figures</i>	<i>ix</i>
<i>List of tables</i>	<i>xi</i>
<i>List of contributors</i>	<i>xv</i>
<i>Preface</i>	<i>xvii</i>
<i>Foreword</i>	<i>xix</i>
1. Introduction	1
<i>Steve Sorrell and Jim Skea</i>	
PART I: THE US EXPERIENCE	
2. Summary evaluation of the US SO <sub>2</sub> emissions trading program as implemented in 1995	27
<i>A. Denny Ellerman, Richard Schmalensee, Paul L. Joskow, Juan Pablo Montero and Elizabeth M. Bailey</i>	
3. Cost savings, market performance and economic benefits of the US Acid Rain Program	43
<i>Dallas Burtraw</i>	
4. Turning theory into practice for emissions trading in the Los Angeles air basin	63
<i>David Harrison, Jr.</i>	
PART II: INTRODUCING TRADING IN EUROPE	
5. Emissions trading in the European Union: practice and prospects	83
<i>Ger Klaassen</i>	
6. Designing a scheme for SO <sub>2</sub> trading in Norway	101
<i>Geir Høiby</i>	
7. Trading emissions and other economic instruments to reduce NO <sub>x</sub> in the Netherlands	109
<i>Chris Dekkers</i>	

8. Towards tradability of pollution permits in Poland 124  
*Tomasz Zylicz*

### PART III: TRADING AND NATIONAL REGULATORY TRADITIONS

9. Tradable emission permits in German clean air policy:  
 considerations on the efficiency of environmental policy  
 instruments 141  
*Bernd Schärer*
10. Public policy and institutional trajectories: what about  
 introducing SO<sub>2</sub> emissions trading in France? 154  
*Christine Cros*
11. Why sulphur trading failed in the UK 170  
*Steve Sorrell*

### PART IV: SCOPING STUDIES: WATER AND WASTE

12. Least-cost pollution allocations for probabilistic water quality  
 targets to protect salmon on the Forth Estuary 211  
*James S. Shortle, Robin Faichney, Nick Hanley and Alistair  
 Munro*
13. Designing a scheme for trading non-returnable beverage  
 containers in Germany 231  
*Rolf-Ulrich Sprenger*

### PART V: INTERNATIONAL SULPHUR TRADING

14. Joint implementation for controlling sulphur in Europe and  
 possible lessons for carbon dioxide 255  
*Peter Bailey and Tim Jackson*
15. Economic instruments and institutional constraints: possible  
 schemes for SO<sub>2</sub> emissions trading in the EU 272  
*Olivier Godard*

### PART VI: INTERNATIONAL CARBON TRADING

16. An emission quota trade experiment among four Nordic  
 countries 299  
*Peter Bohm*

17. International tradable carbon permits as a strong form of joint implementation <i>ZhongXiang Zhang and Andries Nentjes</i>	322
18. Implementation issues in international CO <sub>2</sub> trading <i>Tim Denne</i>	343
19. Flexibility, emissions trading and the Kyoto Protocol <i>Jim Skea</i>	354
<i>Index</i>	381
