Contents

List of Abbreviations	ix
List of Tables	xi
List of Figures	xiv
1. The Future Impact of Automation on Employment	3
Methodology and Scenarios	5
Principal Findings	12
Discussion and Implications of the Results	19
Projections of Future Technologies	26
References	28
2. The Automation of Manufacturing	30
Computers	33
Computer-Numerically-Controlled (CNC) Metalworking Equipment	40
Robots	48
References	60
3. The Automation of Office Work	63
The Production of Office Equipment	66
The Use of Electronic Office Equipment	67
References	90

4. Technological Change in Education	92
The Production of Education	97
The Use of Instructional Television and Computer-Based Instruction	102
References	111
5. Technological Change in Health Care	113
The Production and Use of Health Care	115
The Future Production of Health Care	125
References	127
6. Projections of Final Deliveries	129
References	131
Appendix A. The Dynamic Input-Output Model	132
Appendix B. The Historical Database, 1963–1980	139
Index	165
