

OECD DOCUMENTS

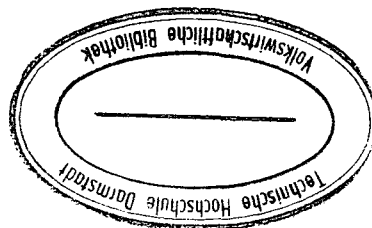

Environmental and ethical aspects of long-lived radioactive waste disposal

Proceedings of an International Workshop

*organised by
the Nuclear Energy Agency*

*in co-operation
with the Environment Directorate*

Paris, 1-2 September 1994

PUBLISHER'S NOTE

The following texts are published in an unembellished form to permit faster distribution at a lower cost.
The views expressed are those of the authors,
and do not necessarily reflect those of the Organisation or of its Member countries.

**NUCLEAR ENERGY AGENCY
ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT**

Table of Contents

Introductory Session:

Welcoming Address(<i>Kunihiko UEMATSU, Director General of NEA</i>)	11
Introductory Remarks (<i>Ron FLOWERS, Workshop Chairman</i>)	13
Radioactive Waste Management Strategies: Setting the Scene (<i>Colin ALLAN, AECL Research, Canada, RWMC Vice-chairman</i>)	15

Session I: **Background to Current Environmental Policies and their Implementation**

Evolution and Current Thoughts about Environmental Policies (<i>Bill L. LONG, Director, OECD Environment Directorate</i>)	27
Managing Hazardous Activities and Substances (<i>Victor MORGENROTH, Environmental Health and Safety Division, OECD Environment Directorate</i>)	32
Emerging Concepts and Requirements for the Long-term Management of Non-radioactive Hazardous Wastes - Would Geological Disposal Be an Appropriate Solution for Some of These Wastes? (<i>Mrs Kristina von REIN, Swedish Environmental Protection Board</i>)	40
General Discussion	44

Session II: **Ethics and the Environment**

Ethical Principles and the Environment in a Democratic Society (<i>John F. AHEARNE, Executive Director of Sigma Xi, United States</i>)	55
Radioactive Waste Disposal - Ethical and Environmental Considerations: A Canadian Perspective (<i>Fred ROOTS, Department of Environment, Canada</i>)	71
Ethical Questions Within the Context of Final Storage of Radioactive Wastes (<i>Mrs Herlind GUNDELACH, BMU, Germany</i>)	95
Responsables aujourd'hui pour demain (<i>Yves QUERE, Ecole Polytechnique et Maurice ALLEGRE, ANDRA, France</i>)	99

Managing Today for Tomorrow (Translation) (Yves QUERE, Ecole Polytechnique and Maurice ALLEGRE, ANDRA, France)	109
Cost Benefit Analysis, Sustainability and Long-lived Radioactive Waste Management (Frans BERKHOUT, Science Policy Research Unit, University of Sussex, United Kingdom)	117
Balancing Risks and Benefits Fairly Across Generations: Cost/Benefit Considerations (Prof. Bayard L. CATRON, The George Washington University, United States)	129
General Discussion	142

**Session III: Review of the Geological Disposal Strategy for Long-lived
Radioactive Waste and its Implementation**

• Topic A Have All the Relevant Issues Been Identified? (Rapporteur: Robert M. BERNERO, USNRC)	159
General Discussion	162
• Topic B Disposal Objectives: Are they Fair and Properly Defined? (Rapporteur: Charles McCOMBIE, NAGRA, Switzerland)	167
General Discussion	171
• Topic C Implementation Strategies (with Emphasis on Storage/Disposal and Timing of Programmes) (Rapporteur: Per-Eric AHLSTRÖM, SKB, Sweden)	177
General Discussion	180
• Topic D Retrievability: A Spectrum of Views	
Radioactive Waste Disposal: Taking Societal Views into Account (Wim A. SMIT, University of Twente, The Netherlands)	184
Geological Disposal of Long-lived Radioactive Waste and "Sustainable Development" (Manfred BLOSER, BMU/Helmut Röthemeyer,BfS, Germany)	203
The Issue of Retrievability (Steven BROWN, DOE,United Kingdom)	207
General Discussion	209

Session IV: Final Discussion and Conclusions 217

Annex I: Background Document 243

Annex II: List of Participants 311
