

BIOREACTOR SYSTEM DESIGN

Bibliothek Chemie/Materialwissenschaft
Technische Universität Darmstadt

Contents

<i>Series Introduction</i>	W. Courtney McGregor	iii
<i>Foreword</i>	Eleftherios Terry Papoutsakis	v
<i>Preface</i>		vii
<i>Contributors</i>		xi
1.	Design of a Bioreactor System: Overview <i>José C. Merchuk and Juan A. Asenjo</i>	1
Part I: Biological Systems and Media Design		
2.	Organism Selection <i>Francisco Javier Castillo</i>	13
3.	Bacterial, Yeast, and Fungal Cultures: Effect of Microorganism Type and Culture Characteristics on Bioreactor Design and Operation <i>Moshe D. White, Bernard R. Glick, and Campbell W. Robinson</i>	47
4.	Design, Formulation, and Optimization of Media <i>Rodolfo J. Ertola, Ana Maria Giulietti, and Francisco Javier Castillo</i>	89

Part II: Bioreactor Design

- | | | |
|-----|--|-----|
| 5. | Fundamentals of Bioreactor Design
<i>José C. Merchuk and Juan A. Asenjo</i> | 139 |
| 6. | Stirred Tank Bioreactors
<i>Matthias Reuss</i> | 207 |
| 7. | Pneumatically Agitated Bioreactors
<i>Karl Schügerl and Andreas Lübbert</i> | 257 |
| 8. | Membrane Reactors
<i>Peter M. Salmon and Channing R. Robertson</i> | 305 |
| 9. | Immobilized Microorganism Bioreactors
<i>Hideki Fukuda</i> | 339 |
| 10. | Immobilized Animal Cell Bioreactors
<i>Matthew S. Croughan, Tzyy-Wen Chiou, and
Daniel I. C. Wang</i> | 377 |
| 11. | Plant Cell Bioreactors
<i>Peter D. G. Wilson and Martin G. Hilton</i> | 413 |
| 12. | Photobioreactors
<i>Aleš Prokop and Larry E. Erickson</i> | 441 |
| 13. | Bioreactor Operation Modes
<i>Tsuneo Yamane</i> | 479 |
| 14. | Scale-Up
<i>Carles Solà and Francesc Gòdia</i> | 511 |

Part III: Bioreactor Support Systems

- | | | |
|-----|--|-----|
| 15. | Sterilization and Containment
<i>Andrew Sinclair and Michael H. J. Ashley</i> | 553 |
| 16. | Bioreactor System Supplies
<i>T. M. Roberts, M. J. Kearns, and T. J. Latham</i> | 589 |
