Bereich Siedlungswasserwirtschaft und Wassergütewirtschaft

Universität Karlsruhe (TH)

Klaus Litty

User-Oriented Wastewater Treatment Technology in Developing and Newly Industrialising Countries

Universität Karlsruhe (TH)

Verlag Siedlungswasserwirtschaft Karlsruhe

Schriftenreihe SWW – Band 132 – Karlsruhe 2008

LIST OF CONTENTS

STRUCTURE OF THE RESEARCH WORK

1 INTRODUCTION	1
2 MOTIVATION	5
3 PROBLEM IDENTIFICATION	9
3.1 Users of Wastewater Technology in Newly Industrialising Countries	9
3.2 Manufacturers and Consultants on the Global Market	12
3.3 Bilateral Development Cooperation	14
4 TARGET OF THE RESEARCH ACTIVITIES	19
5 RELEVANT PRE-INFORMATION ON INDIA, CHINA & GERMANY	21
5.1 Water, Wastewater and Legal Framework	21
5.1.1 India	21
5.1.2 China	25
5.1.3 Germany	30
5.2 Education Tradition & Vocational Training	35
5.2.1 India	35
5.2.2 China	39
5.2.3 Germany	40
5.3 Introduction to Intercultural Communication	44
6 MATERIALS & METHODS	49
6.1 Choice of Data Collection Methods	49
6.1.1 General Considerations & Sociological Methods	49
6.1.2 Questionnaire Based Staff Interview	51
6.1.3 Visually Based Methods	57
6.1.4 Guided Expert Interview	62
6.1.5 Pilot Training	65

6.2	Data Collection	69
6.2.1	Wastewater Treatment Plant Inspections	69
6.2.2	Guided Expert Interviews	88
6.2.3	Implementation Pilot Training	95
7	RESULTS & DISCUSSION	101
7.1	Wastewater Technology Status & Trends in India	101
7.1.1	Efficiency, Technologies & Treatment Plant Operation	101
7.1.2	Staff	131
7.1.3	Expert Positions	141
7.1.4	Summary & Discussion	152
7.2	Wastewater Technology Status & Trends in China	165
7.2.1	Efficiency, Technologies & Treatment Plant Operation	165
7.2.2	Staff	194
7.2.3	Expert Positions	202
7.2.4	Summary & Discussion	214
7.3	Wastewater Technology Status & Trends in Germany	220
7.3.1	Efficiency, Technologies & Treatment Plant Operation	220
7.3.2	Staff	246
7.3.3	Western Positions on Developing & Newly Industrialising Countries	254
7.3.4	Summary & Discussion	263
7.4	Comparison of Special Aspects	266
7.5	Pilot Training in India	272
8	CONCLUSIONS	281
8.1	Staff Situation & Technology Choice	282
8.1.1	India	282
8.1.2	China	288
8.2	Technology Suppliers & Local Technology Choice	292
8.3	Technology Design Principles	295
9	RECOMMENDATIONS	301
9.1	Manpower & Education	301

9.2	Equipment Choice & Design	308
9.3	Equipment Supply	312
10	SUMMARY & OUTLOOK	315
