# CONTENTS

## *Preface*

v

## **Chapter 5. Centralization/Decentralization/Coordination: General Aspects**

5.1. Introduction	1
5.2. Dimensions of centralization/decentralization: Preferences	5
5.3. Dimensions of centralization/decentralization: Plan contents	10
5.4. Dimensions of centralization/decentralization: Information flows and plan elaboration	12
5.5. Dimensions of centralization/decentralization: Decision-making power	19
5.6. Combinations and correlations between the various aspects of centralization/decentralization	24
5.7. General problems of implementation	30
5.8. Some problems of incentives	39
5.9. Some remarks on the functions of prices	55
5.10. Systems costs	60

## **Chapter 6. Decentralized Plan Elaboration in an Economy with Centralized Power of Decision-making**

6.1. Introduction	75
6.2. The elaboration of a production plan for a simple input-output system by means of information exchange and elementary operations	79
6.3. Some generalizations and modifications of the procedure outlined in Section 6.2	86
6.4. An input-output system with model calculations at intermediate levels	101

6.5.	Plan elaboration with an aggregated model in the Central Planning Agency and more detailed models at intermediate levels	106
6.6.	General and introductory observations on decentralized plan elaboration for optimization	115
6.7.	Some special cases	125
6.8.	Solution by indirect distribution and related methods: The Dantzig-Wolfe decomposition method	136
6.9.	Solution by direct distribution	148
6.10.	Other approaches: Concluding observations	161
<b>Chapter 7. The Role of Centralized Economic Planning in an Economy with Mainly Decentralized Power of Decision-making</b>		
7.1.	Introduction	173
7.2.	The main theorem of welfare economics and the needs for central economic planning	177
7.3.	Centralization or decentralization of the use of policy instruments: Static analysis	197
7.4.	Centralization or decentralization of the use of instruments of economic policy: Dynamic analysis	208
7.5.	Some further observations on centralization and decentralization of the use of instruments of economic policy	221
7.6.	The effects of forecasts on the behaviour of decentralized decision-makers	236
7.7.	Further aspects of indicative planning	251
<b>Chapter 8. Planning under Uncertainty</b>		
8.1.	Introductory remarks	263
8.2.	Decision situations under uncertainty classified with regard to the type of uncertainty	267
8.3.	Decisions when only sets of possible outcomes are known	271
8.4.	Decisions under uncertainty represented by probabilities	282
8.5.	Maximization of expected utility with subjective probabilities	288
8.6.	Some observations on attitudes towards uncertainty and forms of utility functions	293

8.7. Optimal policy under a given degree of uncertainty referring to target variables: The static case	311
8.8. Optimal policies in the dynamic case: Strategies	325
8.9. The use of imperfect forecasts	339
8.10. Uncertainty about the impact of instruments on target variables	356
8.11. Some further aspects of policy optimization under uncertainty	366
8.12. Some remarks on uncertainty and decentralization	389
