

Defects in Insulating Crystals

Proceedings of the International Conference
Riga, May 18—23, 1981

Edited by V. M. Tuchkevich and K. K. Shvarts

With 365 Figures and 24 Tables

„Zinātne” Publishing House Riga
Springer-Verlag Berlin Heidelberg New York

CONTENTS

Introduction	9
In Memory of Professor P.P.Feofilov (1915-1980)	11

I. General

I.1. Y.M.Kagan. Quantum diffusion in crystals	17
I.2. K.Dransfeld. Dynamic properties of amorphous solids at low temperatures	56
I.3. F.Lüty. Alkali-cyanides and their mixtures with alkali- halides: model systems for the evolution of molecular order and phase transitions	69
I.4. T.J.Lewis. Some characteristics of surface states on dielectric solids	90
I.5. E.A.Silinsh. Local electronic states of structural ori- gin in organic molecular crystals	107
I.6. Y.A.Ossipyan, S.Z.Shmurak. Deformation luminescence and motion of charged dislocations in crystals	135

II. Theory and Models of Defects

II.1. C.R.A.Catlow, A.N.Cormack, J.R.Walker. Theoretical studies of defects in insulators	163
II.2. R.F.Wood, T.M.Wilson. Theoretical calculations of the electronic and vibrational structure of point defects in ionic crystals	186
II.3. A.A.Maradudin. Defect vibrations in insulating crystals	207
II.4. J.M.Spaeth. Atomic hydrogen as a model defect in alkali halides	232

III. Excitons

- III.1. E.I.Rashba. Self-trapping of excitons in solids . . . 255
- III.2. H.Sumi. Exciton polarons in molecular crystals.
 Studies using the dynamical CPA 267
- III.3. W.von der Osten. Excitons in silver halides 284
- III.4. M.Ueta. Spatial dispersions of exciton and excitonic
 molecule in cuprous halides 301

IV. Radiation Effects

- IV.1. C.Lushchik, A.Lushchik, E.Vasil chenko. Excitons and
 point defect creation in alkali halides 323
- IV.2. N.Itoh. Primary process of defect formation in alkali
 halides 343
- IV.3. K.K.Shvarts, Y.A.Ekmanis. Radiation and photostimulat-
 ed processes in inorganic materials 363
- IV.4. G.Chassagne. Precipitation of metal colloids in irra-
 diated ionic crystals 392
- IV.5. L.W.Hobbs. Secondary processes in the environmental
 alteration of insulating crystals 411
- IV.6. E.L.Andronikashvili, M.V.Galustashvili, R.D.Dokhner.
 Defects in alkali halide crystals irradiated under
 applied stress 439
- IV.7. W.A.Sibley. Impurities and radiation defects in
 complex alkali earth fluorides 459
- IV.8. A.Scharmann, M.Böhm. Thermally stimulated processes
 in solids 478

V. Spectroscopy

V.1.	G.Zimmerer. Investigation of ionic crystals with synchrotron radiation	503
V.2.	L.F.Mollenauer. Progress in color center lasers	524
V.3.	D.von der Linde. Picosecond spectroscopy	542
V.4.	W.E.Bron. Defect probes of phonons in insulating crystals	560
V.5.	A.A.Kaplyanskii, A.V.Akimov. Resonance interaction of high energy acoustic phonons with impurity centers in insulating crystals	577
V.6.	V.S.Vikhnin, L.S.Sochava, Y.N.Tolparov. Off-center impurity ions and tunneling processes in alkaline earth oxide crystals	601
V.7.	L.A.Rebane, O.I.Sild. Spectroscopy of molecular impu- rities in alkali halides	619
V.8.	T.Nakamura, M.Takashige. Raman scattering studies on the amorphous state of PbTiO_3	642

VI. Ionic Processes

VI.1.	F.Bénière. Diffusion in ionic crystals	657
VI.2.	R.Capelletti, R.Fieschi, A.Gainotti, C.Mora, L.Romanò, E.Zecchi. Interactions of dipoles in alkali halides by the method of ionic thermocurrents	675

VII. Conclusion

C.Lushchik. Electronic excitations and defects in ionic crystals. Past. Present. Near future (Summary Talk)	709
Supplement. Conference Program	723
