Schnittsahnstraße

Contents

1. Introduction	1
2. The Knights of the Dark Age	4
3. The Hypotonic Miracle	15
4. From 48 to 46	25
5. The Foundation of Somatic Cell Genetics	31
6. Funny Looking Kids	38
7. Of Beans, Weeds, and Human Cytogenetics	45
8. Sex and the Single Chromosome	50
9. The Denver Conference and Beyond	58
10. The Occasional Lion Tamer	64
11. The Pathologist Who Went Astray	71
12. Anomalous Sex Chromosome Systems	77
13. The Somatic Cell Genetics Conferences	83
14. Mammals for Cytogeneticists	88
15. Old Cultures Never Die?	94
16. The Bandwagon	99
17. <i>In Situ</i> Hybridization: Marriage Between Molecular Biology and Cytology	108
18. Junk DNA and Chromatin?	116
19. The Giemsa Magic	123
20. Parasexual Reproduction	132
21. Interphase Chromosomes	139
22. Cancer Chromosomes	143
23. Chromosomes and Mammalian Phylogeny	150
24. The Future	161
Suggested Readings	165
References	167
Index	181
