

# Main Economic Indicators

COMPARATIVE METHODOLOGICAL  
ANALYSIS: WAGE RELATED  
STATISTICS

## TABLE OF CONTENTS

<b>FOREWORD</b> .....	3
<b>1. INTRODUCTION</b> .....	7
1.1 Necessity for metadata in interpreting data.....	7
1.2 Aim of this publication.....	8
1.3 International guidelines for short-term economic indicators.....	9
1.4 Statistical methodological information for international comparisons.....	10
1.5 Collection of methodological information for this publication.....	13
1.6 Conclusions.....	13
1.7 Feedback on contents.....	14
<b>2. OVERVIEW OF WAGE RELATED STATISTICS</b> .....	15
2.1 Introduction.....	15
2.2 Summary of existing international guidelines and recommendations.....	16
2.3 Terminology, concepts and definitions.....	18
Wages and salaries.....	18
Wage rates.....	20
Earnings.....	20
Average hourly/weekly/monthly earnings.....	21
Employment-related income.....	21
Total household income and disposable income.....	22
Compensation of employees.....	27
Unit labour costs.....	27
Labour costs.....	27
Labour Price Index.....	28
2.4 Relationship between wages, earnings, compensation, unit labour cost, labour cost and.....	29
labour price concepts.....	29
2.5 Uses of the statistics in short-term economic monitoring.....	36
2.6 Brief overview of data sources.....	39
Enterprise surveys.....	39
Administrative sources.....	39
Household surveys.....	40
2.7 Comparison of key aspects of national methodologies used to compile the indicators.....	41
<b>3. WAGES AND EARNINGS</b> .....	43
3.1 Introduction.....	43
3.2 Basic Concepts.....	43
System of National Accounts concept of wages and salaries.....	43
ILO concept of earnings.....	45
Eurostat concept of (gross) wages and salaries.....	45
3.3 National Practices.....	45
Components.....	46
Data collection method.....	47
Category of employees.....	48
Basis of calculation of the indicator.....	49
Economic activity coverage.....	50
Coverage of small, medium and large establishments.....	50
The availability of annual data.....	50
3.4 Concluding remarks.....	51
<b>4. MINIMUM WAGES</b> .....	53
4.1 Overview.....	53
4.2 National Practices.....	53

<b>5. LABOUR COSTS</b> .....	57
5.1 Overview .....	57
5.2 National Practices .....	61
Components .....	62
Volume of work measure .....	63
Data collection method .....	64
Coverage of economic activities .....	64
Category of employees.....	64
Estimation .....	64
5.3 Concluding remarks .....	64
<b>6. LABOUR PRICE INDEX</b> .....	67
6.1 Overview.....	67
6.2 National Practices .....	68
National labour price index definitions.....	68
Sample Size.....	69
Frequency.....	69
Component items included.....	69
Data collection method .....	71
Estimation .....	72
<b>7. UNIT LABOUR COSTS</b> .....	75
7.1 Overview.....	75
7.2 National practices.....	80
<b>8. HOUSEHOLD INCOME</b> .....	81
8.1 Overview.....	81
8.2 National practices on household income.....	84
Examples of national concept of household income .....	84
Household budget surveys - frequency .....	86
Household budget surveys - coverage.....	86
Household budget surveys - sample size.....	86
<b>9. HOURS OF WORK</b> .....	89
9.1 Overview.....	89
Sources of data on working time.....	91
An overview of estimation methods.....	91
9.2 National practices.....	94
Frequency and sources of data .....	94
Coverage of economic activities .....	94
Format of data presentation.....	94
Availability of overtime hours and hours paid for .....	94
<b>10. CONCLUDING REMARKS AND FUTURE WORK</b> .....	95
10.1 International perspective .....	95
10.2 Availability of national wage related statistics.....	96
10.3 Need for an integrated system of wage related statistics.....	98
<b>BIBLIOGRAPHY</b> .....	101
<b>ANNEX TABLES: METHODOLOGY SUMMARIES</b> .....	109
