

IABSE CONFERENCE

SHARM EL SHEIKH 2012

*Global Thinking in Structural Engineering:
Recent Achievements*

REPORT

**International Association for Bridge and Structural Engineering
IABSE**

Table of Contents

Keynotes

<i>Cross Border Technologies in Major Bridge Structures</i> Klaus OSTENFELD.....	2
<i>Designing Bridges in Africa</i> Armando RITO.....	19
<i>Innovative Applications for CFRP Strips in Precast Concrete Structures</i> Fathy SAAD	36
<i>Solar Thermal Power Generation Limitless Resource in Search of Adequate Harvest Technology</i> Markus BALZ.....	56
<i>A Structural Engineer's Vision of a Sustainably Built Environment</i> Peter MAYDL.....	64
<i>Denmark's Missing Link: The Femern Bælt Tunnel to Germany</i> Mikael BRAESTRUP.....	70
<i>Egypt's Strides towards a Green and Sustainable Construction</i> Moustafa EL- DEMIRDASH.....	72

A1.1 Structural Engineering as Part of Multi-disciplinary Systems

Bridge Engineering: Recent Achievements

<i>Bridge across the River Elbe at Mühlberg, Germany</i> Wolfgang EILZER, Rico STOCKMANN.....	76
<i>Modifications and Reconstructions of Bridges in order to Provide More Navigable Clearance</i> Ryszard A. DANIEL.....	78
<i>Experiences with Semi-Integral, High-Speed Railway Bridges During Design and Construction of the Grubental Valley-Bridge and Gaensebachtal Valley-Bridge</i> Andreas KEIL, Philipp WENGER, Arndt GOLDACK.....	80
<i>Bridge Foundations in Difficult Geotechnical Conditions</i> Yasser EI-MOSSALLAMY.....	82
<i>Construction of the Third Agatsumagawa River Bridge on JR Agatsuma Line</i> Ryo SHIRAGA.....	84
<i>Bridge across the Lochkov Valley, Prague Ring Road</i> Rolf JUNG, Erik SAGNER, Christian ANISTOROAI EI	86

A1.2 Structural Engineering as part of Multi-disciplinary Systems

Bridge Engineering: Cable Supported Bridges

Super Long-Span Bridge R&D Center in Republic of Korea

Kyoung-Bong HAN, Pil-Yong SONG, Jung-Hwan LEE, Jong-Man KANG,
Hong-Jin KIM.....90

Initial Equilibrium Analysis under Dead Load for Cable-Stayed Suspension Bridge

Dong-Ho CHOI, Ho-Sung NA, Sun Gil GWON.....92

Critical Wind Velocity Investigation of Long-Span Suspension Bridges with Multiple Main Cables

Ahmed A. BAYOUMEY, Walid A. ATTIA.....94

Dynamic Behavior of Ultra Span Cable Stayed Bridges Provided With Cable Nets

Walid A. ATTIA, Ehab KHALIL.....96

Upgrading the M80 Freeway through Innovative Structural Design

Rajiv KALRA, Jonathan LAM.....98

A1.3 Structural Engineering as part of Multi-disciplinary Systems

Bridge Engineering: Analysis

Comparison of Serviceability Limit State Code Requirements for Short and Medium Span Composite Bridges

Hany B. MATAR, Mourad M. BAKHOUM, Ishac I. ISHAC102

Bridging the Gap to Synchronized Lateral Vibration of Footbridges

Emad SALEM.....104

Fruitful Study about Snake-Like Motion of Train and its Effect on the Transverse Vibration of Bridge

Aiguo SHEN.....106

Optimization of the Tendon Layout for Box-Girder Multiple-Span Prestressed Concrete Bridges

Osman M. O. RAMADAN, Ahmed Amir KHALIL, Ezzat Nabih ELLITHY.....108

A1.4 Structural Engineering as part of Multi-disciplinary Systems

Bridge Engineering: Design Considerations

Structural Behaviour of Long Integral Abutment Bridges

Anssi LAAKSONEN.....112

Transition Areas of Integral Bridges

Roman ŠAFÁŘ, Alena KOHOUTKOVA, Jan ZÁLESKÝ, Petr TEJ, Lukáš DORKO,
Petr KONVALINKA.....114

Simulation Based Probability Model of Impact Load Due to Ship-Bridge Collision

Jeong-Hyun LIM, Wonsuk PARK, Hyun-Joong KIM, Hyun-Moo KOH.....116

<i>4-D Analysis of Curved Segmental Cable-Stayed Bridges</i> Hesham NOUR ELDEEN.....	118
<i>Efficient Approach for the Longitudinal Analysis of Curved Bridges under Permanent Loads</i> Essam AYOUB, Charles MALEK, Gamal HELMY.....	120
A1.5 Structural Engineering as part of Multi-disciplinary Systems	
<i>Bridge Engineering</i>	
<i>Kattwyk Bridge, a New Movable Double Track Railway Bridge with 134 m Span</i> Helmut SCHMITT, Rico STOCKMANN, Michael MUELLER.....	124
<i>Technology of Rising Height of the Viaduct Rationally</i> Hirotaka SUZUKI, Takeshi TSUYOSHI, Taichiro WATANABE, Keiichi OKUBO, Chisato AOKI.....	126
<i>Bridge as a Tool of Urban Acupuncture</i> Cezary M BEDNARSKI.....	128
<i>Risk Analysis of Bridges for Hazard Scenarios</i> Vazul BOROS, Balthasar NOVOK.....	130
<i>Structural Performance of Unseated Composite Multi-Girder Bridges</i> Ehab B. MATAR.....	132
A2. Structural Engineering as part of Multi-disciplinary Systems	
<i>Intersection with other Disciplines</i>	
<i>An Integrated and Risk Management Approach to Structural Engineering on Multi-Discipline Engineering Projects</i> Francois DU TOIT, Paul D. TAVARES.....	136
<i>Incorporating Optimization Process in Form Finding by the Force Density Method for Multidisciplinary Design Objectives</i> Hiroyuki TAMAI.....	138
<i>The Risk Based Inspection of Structures</i> Francois DU TOIT	140
<i>Confidential Reporting of Mistakes in Structural Design and Execution</i> Karel TERWEL, Mirjam NELISSE, Dik-Gert MANS.....	142
<i>Abstract Learning from Safety in Other Industries</i> Karel TERWEL, Walter ZWAARD.....	144

A3. Structural Engineering as part of Multi-disciplinary Systems Tall Buildings and Special Structures

<i>Outrigger Structures for Complex-Shaped Tall Buildings</i> Kyoung Sun MOON.....	148
<i>New Forms of Combined Structural System Proposed for Tall Buildings</i> Janusz REBIELAK.....	150
<i>Assessment and Repair of Retractable Stadium Roof Structures</i> Thomas DUFFY, John ABRUZZO, Christopher PINTO.....	152
<i>Analysis of Cable-Supported Mast Cranes</i> Juhan IDNURM, Valdek KULBACH.....	154
<i>Shear Behaviour of Strengthened RC T-Beams with Large Web Opening</i> Tamer H. EL AFANDY.....	156
<i>Behavior of Axially Loaded Short Columns with Different Tie Steel Layouts</i> Osama HAMDY, Amgad TALAAT, Mohamed ALLAM.....	158

B1.1 Sustainable Development and Structural Engineering Design for Sustainability

<i>Reuse Verification of Sustainable Building Structure</i> Masanori FUJITA, Mamoru IWATA.....	162
<i>RC Structures a Solution for Sustainable Development</i> Corneliu BOB, Tamas DENCSEK.....	164
<i>Greenhouse Warming Potential of Infrastructure Projects</i> Julia SAUER, Sonja XALTER, Oliver FISCHER, Stephan FREUDENSTEIN.....	166
<i>A Simple Evaluation Method for Ultimate Compressive Strength of Shaped Steel with Local Corrosion</i> Toshiya UEMURA, Katashi FUJII, Mitsuwo FUKUDA, Kenichiro IMAFUKU, Kazumasa HISAZUMI.....	168
<i>Analysis of the Moisture Performance of Wall Structures at the Zero-Energy Luukku-house</i> Fahim AL-NESHAWY, Kimmo LYLKANGAS, Jukka PIIRONEN, Markku PEITTOLA, Jari PUTTONEN.....	170

B1.2 Sustainable Development and Structural Engineering Design for Sustainability: Structures Subjected to Fire & Fatigue

<i>Measures of the Risk of Fire Occurrence – Interpretation and Quantification</i> Mariusz MASLAK.....	174
<i>Effect of Marking Methods on the Fatigue Strength of Steel Plates</i> Natalie STRANGHÖNER, Jörn BERG.....	176

<i>Behaviour of Restrained Structural Subassemblies of Steel Beam to CFT Column in Fire</i> Sherif ELSAWAF, Yong WANG, Parthasarathi MANDAL.....	178
<i>Performance-Based Optimization of Bridge Structures' Design, Repairs and Reconstructions</i> Roman ŠAFÁŘ, Alena KOHOUTKOVA, Vladimír KRÍSTEK, Lucie BROŽOVÁ, Vojtěch SEDMIDUBSKÝ, Jiří KOLÍSKO.....	180
<i>Safety of Glued Timber Roof Structures Subjected to Fire</i> Tomasz DOMANSKI.....	182
<i>Inspection Planning for Steel Bridges Subjected to Fatigue and Corrosion</i> Mohamed SOLIMAN, Dan M. FRANGOPOL.....	184
B2. Sustainable Development and Structural Engineering	
Health Monitoring	
<i>Structural Health Monitoring of Cabala Bridge in Angola</i> Luis Oliveira SANTOS, Xu MIN, João Pedro SANTOS, M. MOLARES D'ABRIL.....	188
<i>Monitoring Infrastructure during Construction and Refurbishment Projects</i> Hans DE BACKER, Amelie OUTTIER, Ken SCHOTTE, Dries STAEL, Wim NAGY, Philippe VAN BOGAERT.....	190
<i>Health Monitoring of the Supporting Structures of Offshore Wind Mills</i> Mohamed I. ELMASRY.....	192
<i>The analysis of Time Dependent Effects of Reinforced Concrete Systems Through In-Situ Structural Health Monitoring</i> David BYRNE, Jamie GOGGINS, Eamonn CANNON.....	194
<i>SHM-informed Management of Long-span Bridges: Motivation, Approach and Challenges</i> Isaac FARRERAS ALCOVER, Jacob E. ANDERSEN, Marios CHRYSANTHOPOULOS, M. IMRAN RAFIQ.....	196
<i>The Effect of Rice Husk Ash (RHA) Additions on Corrosion of Steel in OPC Mortars in Chloride Environments</i> Sylvia BENJAMIN, Muhammad T. ZAMAN.....	198
B3. Sustainable Development and Structural Engineering	
Design for Sustainability & Health Monitoring	
<i>A Subcycling Integration Method for Train-Bridge Dynamic Interaction</i> Zhibin JIN.....	202
<i>Optimal Bridge Maintenance: Programming and Cost Evaluation</i> Chifei GUO.....	204
<i>Seismic Analysis of Building Structures with Base Isolation and Tuned Mass Dampers</i> Peter ROSKO.....	206

<i>Expanding the Role of Structural Engineers in Sustainable Development Beyond the Current Rating Systems</i> Tariq CHAUDHARY, Awais PIRACHA	208
--	-----

C1.1 Smart Structures, New Materials and Construction Techniques ***New Systems and Construction Techniques***

<i>Structural Engineering and the Tubular Track Rail Support System</i> Jan A. WIUM.....	212
---	-----

<i>Time and Temperature Dependant Behaviour of Bituminous Slide Joints</i> Radim CAJKA, Pavlina MATECKOVA, Martina JANULIKOVA, Kamil BURKOVIC, Marie STARA.....	214
---	-----

<i>Modelling Slabs with Expansion Joints under Extreme Events</i> Amr ABDELLAH, Kristian SCHELLENBERG.....	216
---	-----

<i>A New Flexible Plug Joint - Advanced PU And A New Mat Expansion Joint</i> Gustav GALLAI.....	218
--	-----

<i>Strength and Durability Performance of Stabilised Soil Block Masonry Units</i> Declan GAVIGAN, Jamie GOGGINS, Bryan McCABE.....	220
---	-----

<i>Analysis of Concrete Structures Reinforced with Carbon Nano-Fibers</i> Ravi MULLAPUDI , Ashraf AYOUB.....	222
---	-----

C1.2 Smart Structures, New Materials and Construction Techniques ***Recent Designs of Concrete & Composite Structures***

<i>High Strength Concrete Filled Tubes Subjected to Eccentric Loading</i> Fathy Saad, Khaled HILAL RIAD, Sherif A. SALAH EL-DIN	226
--	-----

<i>Lateral Buckling of Precast Reinforced Concrete Girders</i> Ilker KALKAN, Jong-Han LEE, Chul-Hwan KIM, Hyun-Bae KIM.....	228
--	-----

<i>A Hybrid Prestressed Concrete Bridge Over the Nile</i> Atef MOUSSA.....	230
---	-----

<i>Non-linear Behaviour of Composite Structures</i> Roman ŠAFÁŘ, Alena KOHOUTKOVA, Pavel JURSIK, Petr BOUŠKA, Miroslav VOKÁČ, Jiří LITOŠ.....	232
---	-----

<i>Perforation of Concrete Panels by Hard Projectile</i> Ahmed FOUDA, Mohamed ABDEL-KADER.....	234
---	-----

<i>Influence of Shear Reinforcement Detailing on the Behavior of Concrete Column Heads</i> Tarek K. HASSAN.....	236
--	-----

C1.3 Smart Structures, New Materials and Construction Technique

Recent Design Considerations: Steel Structures

<i>In-plane Nonlinear Buckling Behavior of Elastic Arches</i> Xing WEI, Shizhong QIANG.....	240
<i>Eccentricity Effect of Flange Bracing on the Performance of Box Girders</i> Ahmed RAGEH, Emad SALEM, Hussein ABBAS.....	242
<i>Top Flange Bracing Forces of Steel Tub Girders</i> Ahmed RAGEH, Emad SALEM, Hussien ABBAS.....	244
<i>Behavior Analysis of Stiffened Slender Plate Girders</i> Ishac ISHAC, Ossama EL HOSSEINY, Ehab MATTAR, Shady MANDOUR.....	246
<i>Mechanical Properties of Different Matrix Type Composite Sandwich Panels</i> Ana T. GAVRILOSKA, Viktor GAVRILOSKI, Meri CVETKOVSKA, Tudorka SAMARDZIOSKA, Marijan GAVRILOSKI, Marijana LAZAREVSKA.....	248

C2. Smart Structures, New Materials and Construction Technique

New Materials

<i>Analytical Study on Shear Strength of Ultra High Strength Concrete Beam-Column Joints Containing Steel Fiber</i> Hiroshi NOGUCHI, Takashi KASHIWAZAKI, Hiroto TAKATSU.....	252
<i>Evaluating the Barriers to Entry for Non-Conventional Building Materials</i> Natasha WATSON, Pete WALKER, Andrew WYLIE, Celia WAY.....	254
<i>Basic Study on Mechanical Properties of Bamboo Fiber Reinforced Concrete</i> Masakazu TERAJ, Koichi MINAMI.....	256
<i>Development of Lightweight, Water-Retentive Concrete Block</i> Masanori MARUOKA, Hiromi FUJIWARA.....	258
<i>Moment Redistribution and Ductility of Self-Compacting Lightweight Reinforced Concrete Continuous Beams</i> Osama HAMDY, Abdel Wahab EL GHANDOUR, Mohamed NABIL, Mahmoud LASHEEN.....	260
<i>Special Cementitious Bonding Material For FRP Strengthening Systems</i> Judy SOLIMAN, Tarek HASSAN, Amr ABDELRAHMAN, Osama HAMDY, Sami RIZKALLA.....	262

C3. Smart Structures, New Materials and Construction Technique

Recent Development in Advanced Composite Materials

<i>Experimental and Analytical Study of Hybrid GFRP/ Concrete Bridge Deck</i> Airong CHEN, Jun HE, Yuqing LIU, Haifeng FAN, Teruhiko YODA.....	266
--	-----

<i>Effectiveness of Strengthening Low-Grade Eccentrically Loaded Concrete Columns Using FRP Sheets</i> Mohamed EYADA, Tarek HASSAN, Amr ABDELRAHMAN	268
<i>Behavior of Dry Concrete Joints Strengthened By Carbon Fiber Laminates</i> Omar ABDELKARIM, Khaled HILAL RIAD, Amr ABDELRAHMAN.....	270
<i>Prediction of Plate End Debonding and Flexural Failures for Fiber-Reinforced Grancrete Systems</i> Judy SOLIMAN, Tarek HASSAN, Amr ABDELRAHMAN, Osama HAMDY, Sami RIZKALLA.....	272
<i>Jointing Tubular FRP Components for Planar and Space Grid Structure Constructions</i> Yu BAI.....	274
<i>Application of Advanced Composites in Strengthening and Retrofitting of an Existing RC Bridge</i> Janusz HOLOWATY.....	276
<i>Multi-Objective Genetic Algrithm-Based Optimization of Composite Cable-stayed Bridges with Fiber Reinforced Polymer Deck and Cable Systems</i> Hongwei CAI, Amjad J. AREF.....	278
C4. Smart Structures, New Materials and Construction Technique	
<i>New Designs: Seismic Performance of Structures</i>	
<i>Direct Displacement-Based Seismic Design of Multi-Storey Concentrically Braced Frame Structures</i> Suhaib SALAWDEH, Jamie GOGGINS.....	282
<i>A Smart and Costless Solution for Upgrading the Seismic Resistance of Bridges</i> Olga MARKOGIANNAKI, Ioannis TEGOS.....	284
<i>Strength & Drift Seismic Code Requirements for Mid-Rise RC Frame Buildings</i> Sameh S. F. MEHANNY, Ahmed M. SOLIMAN, Mourad M. BAKHOUM.....	286
<i>Spectral Analysis Method to Evaluate the Dynamic Impacts of Turbulent Wind on the "Foundation Louis Vuitton pour la Création" Building's Glass Roofs</i> Luciano TOSINI, Julien TANANT, Benoît GARS, Xavier CESPEDES.....	288
<i>Effect of FEM Modelling Assumptions and Code Provisions on Seismic Analysis of RC Buildings</i> Ahmed M. SOLIMAN, Sameh S. F. MEHANNY, Mourad M. BAKHOUM.....	290
<i>Evaluation of Seismic Performance Factors for Elevated Reinforced Concrete Tanks</i> Mahmoud MOUNIR, Sherif SAFAR, Hisham EL-ARABATY, Ezzeldin Y. SAYED-AHMED.....	292
