Contents

| | Page |
|--|-----------|
| List of Tables | V |
| List of Charts | IX |
| Preface. | XI |
| | |
| I. Trade Patterns and Structural Characteristics of the Electrical Engineering Industry | 1 |
| | |
| II. Changes in Foreign Trade Competitiveness | 10 |
| 1. Measurement Concepts | 10 |
| 2. Factor Endowments and Factor Intensity | 14 |
| 3. Human Skills | 26 |
| 4. Technological Factors | 40 |
| | |
| III. The Structure of Competitiveness. | 45 |
| 1. Degrees of Specialization | 45 |
| 2. Determinants of Specialization I: Human Capital, Skills, R&D | 50 |
| 3. Determinants of Specialization II: A Survey of German Firms | 53 |
| 4. Determinants of Specialization III: Product Value | 59 |
| 5. Intraindustry Trade | 61 |
| | |
| IV. Demand and the Adjustment Process | 68 |
| 1. Introduction | 68 |
| 2. Income Elasticity of Demand for Electrical Engineering Products | 68 |
| 3. Demand Growth and the Structure of Competitiveness | 74 |
| | |
| V. Employment Projection and Threatened Subindustries | 77 |
| 1. Overall Employment Projection | 77 |
| 2. Subindustries Threatened by LDC Competition. | 83 |
| 3. Conclusions | 89 |
