

Residual Stresses in Science and Technology

Edited by
E. Macherauch and V. Hauk

Prof. Dr. Ing. T. Seeger
– Fachgebiet Werkstoffmechanik –
Technische Hochschule Darmstadt
Petersenstraße 13, 6100 Darmstadt

Inv. Nr.: 704

Volume 1

INFORMATIONSGESELLSCHAFT · VERLAG

Contents

Volume 1

I. General Aspects

- Origin, Measurement and Evaluation of Residual Stresses 3
E. Macherauch, Karlsruhe; K. H. Kloos, Darmstadt, FRG
- Prediction of Residual Stresses due to Heat Treatment 27
G. Beck, Nancy, France; T. Ericsson, Linköping, Sweden
- Residual Stresses – Fatigue and Fracture 41
V. Weiss, Syracuse; M. R. James, Thousand Oaks, USA
- Dimensional Alterations of Parts due to Heat Treatment 57
P. Mayr, Arbeitsgemeinschaft für Wärmebehandlung und Werkstofftechnik,
Bremen, FRG
- Dimensional Instability and Residual Stresses 79
H. Fujiwara, Tokushima, Japan

II. Measurement and Analysis of Residual Stresses

- Nondestructive Evaluation of Residual Stress in Composites and Advanced
Materials; A State-of-the-Art Review 101
G. A. Matzkanin, San Antonio, USA
- X-Ray Fractography. A new Technique for Fatigue Crack Growth
and Failure Analysis 109
J. L. Lebrun, M. Barral, Paris; A. Bignonnet, C. Maillard-Salin, A. Nhari,
Saint-Germain-en-Laye, France
- Lattice Strain Measurements and Evaluation of Residual Stresses on
Polymeric Materials 117
V. Hauk, A. Troost, D. Ley, Aachen, FRG
- Background Analysis and Its Correction for X-Ray Stress Measurement 127
Li Jiabao, Sun Yanjun, Sheng Yang; He Jiawen, Xi'an, China
- Stress Analyses by X-Ray Diffraction in Duplex Systems:
Metallic Substrate + Oxide 135
J. L. Lebrun, Paris; A. M. Huntz, Orsay; G. Béranger, A. Aubry,
J. G. Zhao, Compiègne, France

Measurement of Internal Stresses by Neutron Diffraction Using a Position-Sensitive Detector T. Leffers, T. Lorentzen, D. Juul Jensen, J. Kjems, Roskilde, Denmark	143	Measuring Techniques and Future Aims V. Hauk, Aachen; P. H. Karlsruhe, FRG
Neutron Diffraction Measurement of Internal Stress in Bulk Materials: Metal-Matrix Composites A. J. Allen, M. Bourke, M. T. Hutchings, A. D. Krawitz, Columbia, USA; C. G. Windsor, Didcot, UK	151	The Actual State of X E. Macherauch, Karlsruhe
Determination of Residual Stresses in Autofrettaged Steel Tubes by Neutron and X-Ray Diffraction L. Pintschovius, E. Macherauch, B. Scholtes, Karlsruhe, FRG	159	On the Accuracy of De by Means of the Hole- H. Häusler, G. König,
Stress Measurements on Components with Nondestructive Ferromagnetic Methods W. A. Theiner, Saarbrücken; E. Brinksmeier, Hannover; E. Stücker, H. Nowack, Mülheim, FRG	167	Contribution to the X- M. Barral, J. M. Sprau
Acoustoelastic Determination of Residual Stresses P. P. Delsanto, R. B. Mignogna, Washington; A. V. Clark, Jr., D. Mitrovic, J. C. Moulder, Boulder, USA	175	Residual Stress Meas a New Application of B. Bourniquel, J. Ferc
On the Evaluation of Residual Stresses from Rolling by Ultrasonic Waves M. Touratier, Paris; J. Y. Chatellier, Arcueil, France	183	Analysis of Residual H.-A. Crostack, W. R
X-Ray Diffraction Technique for Measuring Stress in Coatings T. Konaga, H. Kohno, H. Manabe, Aichi Pref., Japan	191	X-Ray Diffraction Ana H.-A. Crostack, W. R
New Measuring Method of Three-dimensional Residual Stresses Using Effective Inherent Strains as Parameters Y. Ueda, Y. Kim, Osaka, Japan	199	Experimental Results Analyzer Installed wi K. Ogiso, A. Ohno, Y
Ultrasonic Determination of Absolute Stresses in Aluminium and Steel Alloys A. V. Clark, J. C. Moulder, Boulder; R. B. Mignogna, P. P. Delsanto, Washington, D. C., USA	207	Determination of Res by X-Rays V. Hauk, W. K. Krug,
Trials in Increasing the Precision of the Incremental Hole Drilling Method for Residual Stress Distribution Determination J. Lu, J. F. Flavenot, Senlis, France	215	Specific Techniques H. N. Teodorescu, Ia
A Curvature Method for Determining the Stress Distribution in a Duplex Oxide-metallic Substrate System A. M. Huntz, J. G. Zhao, Orsay, France	223	Stress Analysis on A B. Eigenmann, Karls
		Residual Stress Lev J. Král, L. Horák, J. f
		Evaluation of Residu Using Ultrasonic Te S. L. Chu, E. Schnei

		Evaluation of Residual Stress States in Welded Plates Using Ultrasonic Techniques S. L. Chu, E. Schneider, Saarbrücken; H. Peukert, Essen, FRG	335

Experimental Analysis of Residual Stresses in Semiconductor Materials 343
D. Chambonnet, R. Gauthier, R. M'Ghaieth, P. Pinard, Villeurbanne, France

III. Texture and Residual Stresses

Textures and Residual Stresses – Introduction of Posters 353
V. Hauk, Aachen, FRG

The Texture Independent Path (TIP) Method of X-Ray Residual Stress Analysis (XRDRSA) on Textured Steel 361
C. P. Gazzara, Watertown, MA, USA

X-Ray Residual Stress Analysis in Textured Steels by Use of Synchrotron Radiation Source 369
Y. Yoshioka, H. Matsui, T. Morooka, K. Hasegawa, M. Koike, Tokyo, Japan

Non-linear ϵ ($\sin^2\psi$) Curves Observed for a Cold Rolled Nickel Sheet 377
M. Eckhardt, H. Ruppertsberg, Saarbrücken, FRG

Texture and Residual Lattice Strain States of Cold Rolled Carbon Steels 385
G. Maurer, H. Neff, B. Scholtes, E. Macherauch, Karlsruhe, FRG

Elastic Anisotropy of Textured Materials. Influence on X-Ray Stress Measurements 393
M. Barral, J. L. Lebrun, J. M. Sprauel, G. Maeder, Paris, France

X-Ray Residual Stress Measurement for Textured Material 401
He Jiawen, Xu Kewei, Xi'an; Li Jiabao, Sheng Yang, China

Evaluation of Residual Stresses in FCC-Textured Metals Using Strain- and Intensity-Polefigures 409
H. U. Baron, V. Hauk, R. W. M. Oudelhoven, B. Weber, Aachen, FRG

X-Ray Measurement of Residual Stresses in Textured Materials with the Aid of Orientation Distribution Functions 417
W. Serruys, P. Van Houtte, E. Aernoudt, Leuven, Belgium

IV. Shot Peening and Residual Stresses

Residual Stress Distribution in Shot Peened Plates – Analysis of Experimental Data 427
M. Roth, Dübendorf; J. Bernasconi, Baden, Switzerland

Thermal Stability of Residual Stresses in Steel
M. Roth, Dübendorf, Switzerland

Fatigue Progressing of Residual Stresses in Steel
M. Desvignes, B. Gentil, France

Predicting Residual Stresses in Steel
H. Guechichi, L. Castex, France

Effect of Residual Stresses on Fatigue Life of Steel
C. P. Diepart, Amilly, France

Assessment of the Influence of Residual Stresses on the Fatigue Life of Butt Welded Joints
J. Heeschen, Gummerts, Germany

V. Heterogeneous Materials

An X-Ray Study of The Residual Stresses of Cemented Carbides by PVD Process
H. Kamachi, T. Ito, Higashi, Japan

The State of Residual Stresses in Titanium
L. Chollet, Neuchatel, Switzerland

Simultaneous Determination of Residual Stresses and Grain Orientations
W. G. Sloof, M. A. J. Somers, Delft, The Netherlands

Origin and Control of Residual Stresses in Silicon for Microelectronics
H. E. Göbel, H. Stockinger, Germany

Effect of Cyclic Thermal Stresses on the Fatigue Life of Steel
T. Siebler, H. Stamm, D, Germany

Thermal Stress in a Silicon Nitride Film
H. M. Ledbetter, M. W. Lee, USA

Measurements of Thermal Residual Stresses in Composites Using X-Ray
Y. Ikeuchi, Niihama; H. Imai, Japan

343	Thermal Stability of Residual Stresses in Shot Peened Surfaces M. Roth, Dübendorf, Switzerland	435
	Fatigue Progressing of Shot Peened Steel M. Desvignes, B. Gentil, Vélizy; L. Castex, Paris, France	441
353	Predicting Residual Stresses due to Shot Peening H. Guechichi, L. Castex, Paris; J. Frelat, G. Inglebert, Palaiseau, France	449
361	Effect of Residual Stresses Induced by Shot Peening on Metal Fatigue C. P. Diepart, Amilly, France	457
369	Assessment of the Influence of Shot Peening on the Fatigue Strength of Butt Welded Joints J. Heeschen, Gummersbach; H. Wohlfahrt, Kassel, FRG	467
377	V. Heterogeneous Materials and Residual Stresses	
385	An X-Ray Study of The Relationships between Strength and Residual Stresses of Cemented Carbides, Coated with TiN by CVD Process and by PVD Process H. Kamachi, T. Ito, Higashiosaka; T. Yamamoto, Osaka, Japan	479
393	The State of Stress both in Films and their Substrates L. Chollet, Neuchatel, Switzerland; A.-J. Perry, Thunderbird, MI, USA	485
401	Simultaneous Determination of Stress, Composition, Stacking-Fault Densities and Gradients thereof in Surface Layers W. G. Sloof, M. A. J. Somers, R. Delhez, Th. H. de Keijser, E. J. Mittemeijer, Delft, The Netherlands	493
409	Origin and Control of Stresses in Metallization Thin Films for Microelectronics H. E. Göbel, H. Stockinger, G. Zorn, Munich, FRG	501
417	Effect of Cyclic Thermal Loading in Cracks in Cladded Components T. Siebler, H. Stamm, D. Munz, Karlsruhe, FRG	509
	Thermal Stress in a Silicon-Carbide/Aluminium Composite H. M. Ledbetter, M. W. Austin, Boulder, USA	517
427	Measurements of Thermal Stress Behavior on Tungsten Fiber-Copper Composites Using X-Ray Diffraction Y. Ikeuchi, Niihama; H. Fujiwara, Tokushima, Japan	523

Investigations of Residual Stresses in Ceramic Components 531
W. Grellner, K. A. Schwetz, Kempten; W. Pfeiffer, R. Prümmer, Freiburg, FRG

Relation between Residual Stresses, Microstructure and Failure
of Brittle Materials 539
F. E. Buresch, Jülich, FRG

Development of Residual Stress in Deformed Steel Containing
Carbide Particles 547
T. Hanabusa, H. Fujiwara, Tokushima; K. Uga, Itami, Japan

Residual Stresses and Microstrain Distributions in Explosively Cladded
Copper and Aluminium Plates 555
P. K. Nair, R. Vasudevan, Madras, India

Volume 2

II. Calculation of Residual Stresses

Discussion on the Role of Transformation Plasticity in the Calculation
of Quench Stresses in Steels 565
S. Denis, A. Simon, Nancy, France

Examples for the Influence of Input Data on the Results of Stress Calculations 573
M. Wildau, H. P. Hougardy, Düsseldorf, FRG

Aspects of the Generation of Thermal Stress and Strain in Quenched
Steel Plates 581
F. S. Allen, A. J. Fletcher, A. B. Soomro, Sheffield, UK

A Finite Element Calculation of Residual Stresses after Quenching and
Compression Stress relieving of High Strength Aluminium Alloys Forgings 587
P. Jeanmart, B. Dubost, J. Bouvaist, Voreppe; M. O. Charue, Issoire, France

Coupled Temperature, Stress, Phase Transformation Calculation Model.
Application to the Prediction of Phase Transformation during Cooling
of an Eutectoid Carbon Steel 595
S. Denis, A. Simon, Nancy, France; S. Sjöström, Linköping, Sweden

Prediction of the Thermal and Structural Evolution of Steel During
Continuous Cooling 603
F. M. Braz Fernandes, Monte da Caparica, Portugal; S. Denis, A. Simon,
Nancy, France

Residual Stresses in ZrO₂-Ceramics due to Thermal Expansion Mismatch 611
S. Schmauder, Stuttgart, FRG

Residual Stresses Orig
A. Pawelek, Cracow, P

VII. Influence of Heat

Investigations on the R
Annealing of Heat Trea
W. Mitter, R. Scheierl, C
K. Dorninger, Wien, Au

Stress Relaxation Beha
C. Tanaka, K. Yagi, T. C

Residual Stresses after
Influence on their Fatig
J. J. Marez, F. Bugnarc

Residual Stress States
B. Scholtes, Karlsruhe;

In-Situ X-Ray Measure
at Elevated Temperatu
U. Schlaak, T. Hirsch, F

Determination of the R
after Different Thermon
V. Šijački-Žeravčić, M.

Improvement of Rotativ
of Nitrided 32CDV13
J. Barralis, L. Castex, P

Residual Stress Distrib
and Discontinuous Har
P. Graja, B. Scholtes, H

Relaxation of Residual
J. Hoffmann, Mannheim
Karlsruhe, FRG

VIII. Fatigue and Resis

Analysis of Residual Str
T. Nyman, Linköping, S

Rolling Contact Fatigue
A. P. Voskamp, Nieuwe

531	Residual Stresses Originated by the Relaxed Dislocation Pile-Ups A. Pawelek, Cracow, Poland	619
539	VII. Influence of Heat Treatment on Residual Stresses	
547	Investigations on the Relaxation of Straightening Stresses During Annealing of Heat Treatable Steel W. Mitter, R. Scheierl, G. Wiedner, Kapfenberg; F. G. Rammerstorfer, K. Dorninger, Wien, Austria	629
555	Stress Relaxation Behavior of Type 316 Stainless Steel C. Tanaka, K. Yagi, T. Ohba, Tokyo, Japan	637
	Residual Stresses after Temper Rolling and Cold Forming of Steel Sheets – Influence on their Fatigue Behaviour J. J. Marez, F. Bugnard, Florange; J. L. Lebrun, G. Maeder, Paris, France	645
	Residual Stress States of Laser-Surface-Hardened Steel Specimens B. Scholtes, Karlsruhe; B. L. Mordike, Clausthal, FRG	655
565	In-Situ X-Ray Measurements of the Residual Stress Relaxation at Elevated Temperatures U. Schlaak, T. Hirsch, P. Mayr, Bremen, FRG	663
573	Determination of the Residual Elastic Microstrains in Cu-Cr Alloy after Different Thermomechanical Treatments V. Šijački-Žeravčić, M. Rogulić, V. Simić, Belgrade, YU	671
581	Improvement of Rotative Bending and Rolling Contact Fatigue of Nitrided 32CDV13 J. Barralis, L. Castex, Paris, France	679
587	Residual Stress Distributions in Cylindrical Parts due to Continuous and Discontinuous Hardening Processes P. Graja, B. Scholtes, H. Müller, E. Macherauch, Karlsruhe, FRG	687
595	Relaxation of Residual Stresses of Various Sources by Annealing J. Hoffmann, Mannheim; B. Scholtes, O. Vöhringer, E. Macherauch, Karlsruhe, FRG	695
603	VIII. Fatigue and Residual Stresses	
611	Analysis of Residual Stresses and Cyclic Plasticity in Aircraft Structures T. Nyman, Linköping, Sweden	705
	Rolling Contact Fatigue and the Significance of Residual Stresses A. P. Voskamp, Nieuwegein, The Netherlands	713

Load-History Effect on Initiation of Stress Corrosion Cracking in High-Strength Steel Z. Yajima, M. Tsuda, Y. Hirose, Kanazawa; K. Tanaka, Kyoto, Japan	721
Effect of Residual Stresses on the Fatigue Behaviour, Crack Origin and Growth Velocity of Cold-Worked Ti-6Al-4V J. Broichhausen, Aachen; W. Calles, Bonn, FRG	729
Effect of Grinding Conditions on Fatigue Behaviour of 42CD4 Grade Steel. Fatigue Strength Estimation Incorporating Residual Stresses using Different Fatigue Criteria JF. Flavenot, Senlis, France	735
Crack Initiation Life Estimations for Notched Specimens with Residual Stresses Based on Local Strains M. Vormwald, T. Seeger, Darmstadt, FRG	743
Fatigue Crack Growth in the Presence of Residual Stresses H. Berns, L. Weber, Bochum, FRG	751
Slow Crack Growth in the Presence of Tensile Residual Stresses R. Hermann, C. N. Reid, Milton Keynes, UK	759
Residual Stresses and Fatigue Behaviour of Surface Induction Hardened Parts K.-H. Kloos, P. Braisch, M. Koch, Darmstadt, FRG	767
X-Ray Diffraction and Acoustic Emission Study of Fatigue Damage in Aluminium Alloys J. P. Bonnafé, J. L. Lebrun, G. Maeder, Paris; C. Bathias, Compiègne, France	777
Inhomogeneous Plastic Deformations and Residual Stress Distributions in the Crack Tip Region of Fatigued 42CrMo4 (SAE 4140) and their Consequences on Fatigue Crack Propagation E. Welsch, Stuttgart; D. Eifler, B. Scholtes, E. Macherauch, Karlsruhe, FRG	785
Taking into Account Residual Stresses in a Fatigue Criterion in the Case of a Spring Steel D. Couratin, P. De Roo, T. Lim, Boulogne-Billancourt, France	793
Influence of Machining Residual Stresses on the Bending Fatigue Behaviour of Notched Specimens of Ck 45 in Different Heat Treating States J. E. Hoffmann, D. Löhe, E. Macherauch, Karlsruhe, FRG	801
