

The New Keynesian Economics

Corrado Benassi, Alessandra Chirco
and Caterina Colombo

BLACKWELL
Oxford UK & Cambridge USA

Contents

List of Figures	x
Preface	xiii
Part I: Introduction	
1 From Keynesian to New Keynesian Economics	3
Introduction	3
Keynes and the New Classics	5
New Keynesian Economics: A Reader's Guide	18
2 Keynesian Microfoundations in Historical Perspective	26
Introduction	26
Equilibrium, Disequilibrium and the Dual Decision Hypothesis	28
Non-Walrasian Equilibria: The Quantity Rationing Approach	35
Non-Walrasian Equilibria: The Problem of Price Determination	44
Fix-price Equilibria and Keynesian Macroeconomics	51
Concluding Remarks	58
Part II: Real Rigidities	
Introduction	67
3 The Labour Market and Real Wage Rigidity	71
Introduction	71
Real Wage Rigidity and the Allocation of Risk: The 'Implicit Contracts' Model	75

Real Wage Rigidity and Quality Effects: The Efficiency Wage Model	85
Real Wage Rigidity and Turnover: The Insider–Outsider Model	100
Concluding Remarks	118
4 Credit Rationing and Imperfect Capital Markets	126
Introduction	126
The Debt Contract	129
Credit Rationing with Adverse Selection and Moral Hazard	136
Credit Rationing, Imperfect Capital Markets and the Macroeconomy	154
Concluding Remarks	169
5 Real Rigidities in the Goods Market	176
Introduction	176
The Elasticity of Demand and the Transmission of Demand Impulses	178
The Counter-cyclical Behaviour of the Equilibrium Mark-up: Static Models	183
The Counter-cyclical Behaviour of the Equilibrium Mark-up: Dynamic Models	203
Concluding Remarks	215
Part III: Nominal Rigidities	
Introduction	227
6 Rational Models of Irrational Behaviour	232
Introduction	232
Rules of Thumb and Satisficing Behaviour: Some Hints for the Microfoundations of Cost-based Pricing	234
The Theory of Social Customs	243
The Costs of Inertial Behaviour	247
Concluding Remarks	256
7 Price Setting with Adjustment Costs	259
Introduction	259
Costs of Price Adjustment: The Static Model	261
Costs of Price Adjustment: Dynamic Models	272
Concluding Remarks	308

8	Real and Nominal Rigidities: Further Issues	315
	Introduction	315
	Complementarity between Real and Nominal Rigidities	316
	Relative and Nominal Rigidity	324
	Concluding Remarks	334
Part IV: Co-ordination Failures and Hysteresis		
	Introduction	341
9	Co-ordination Failures	346
	Introduction	346
	Basic Notions	347
	Co-ordination Failures and Imperfect Competition	357
	Technological Externalities, Complementarity in Production and Multiplicity of Equilibria	370
	Concluding Remarks	379
10	Hysteresis	387
	Introduction	387
	The Concept of Hysteresis	388
	Hysteresis in Insider–Outsider Models	395
	Concluding Remarks: Fragile Equilibria	413
Part V: Conclusions		
	Conclusions	421
	References	428
	Index	449
