CONTENTS

PREFACE	v
CHAPTER 1	
FORMULATION OF THE LAG DISTRIBUTION PROBLEM	1
1.1 Preliminaries	1
1.2 The Lag Structure as a Set of Probabilities	3
1.3 The z -Transform	13
CHAPTER 2	
THE ALGEBRA OF LAG OPERATORS	17
2.1 Generalities	17
2.2 The Lag Operator L and Its Algebra	19
CHAPTER 3	
FINITE AND INFINITE LAG STRUCTURES: APPROXIMATION	30
3.1 Finite Structures	30
3.2 The General Polynomial Lag	31
3.3 Lagrangian Interpolation	37
3.4 Approximations	44
CHAPTER 4	
GEOMETRIC LAG STRUCTURE I	53
4.1 Generalities	53
4.2 Motivation: The Adaptive Expectations Hypothesis	56
4.3 The Partial Adjustment Hypothesis	57
4.4 Autocorrelated Error Terms and Geometric Distributed Lags	59
4.5 The Dynamic Demand Model	61
4.6 Estimation of the Autocorrelated Errors Model	64
4.7 A Central Limit Theorem for m -Dependent Random Variables	70
4.8 Asymptotic Distribution of the Maximum Likelihood (ML) Estimators in the Autoregressive Errors Model	77
CHAPTER 5	
GEOMETRIC LAG STRUCTURE II	98
5.1 Maximum Likelihood Methods and Mutually Independent Errors	98
5.2 Estimation of the Geometric Lag Model; Alternative Methods	109
5.3 Relative Efficiency of Alternative Estimators	126

CHAPTER 6	
GEOMETRIC LAG STRUCTURE III	140
6.1 Geometric Distributed Lag with Autocorrelated Errors: Maximum Likelihood Estimators	140
6.2 Geometric Distributed Lag with Autocorrelated Errors: Alternative Estimators	154
6.3 Geometric Distributed Lag with Autocorrelated Errors: Two-Step Estimators	160
CHAPTER 7	
GEOMETRIC LAG STRUCTURE IV	188
7.1 Dynamic Demand Model, Three Pass Least Squares (3 <i>PLS</i>) and Alternative Estimators	188
7.2 Direct Estimation of the Dynamic Demand Model	210
CHAPTER 8	
FINITE LAG STRUCTURES	221
8.1 The General Polynomial Lag Structure	221
8.2 Test of the Polynomial Lag Hypothesis	227
8.3 Lagrange Interpolation	229
CHAPTER 9	
THE GENERAL RATIONAL LAG STRUCTURE	236
9.1 Motivation and Generalities	236
9.2 Estimation of the Rational Lag Structure	239
9.3 The General Rational Lag Structure with Autocorrelated Errors	250
CHAPTER 10	
SPECTRAL ANALYSIS AND ESTIMATION OF DISTRIBUTED LAG MODELS	263
10.1 Preliminaries	263
10.2 Elementary Aspects of Stochastic Processes	264
10.3 Multivariate Stochastic Processes	269
10.4 Estimation of the Spectral Matrix	276
10.5 Estimation of the Geometric Lag Structure	278
10.6 Asymptotic Properties of the Spectral Estimator	290
10.7 The General Rational Lag Structure	305
CHAPTER 11	
DISCRIMINATION AMONG ALTERNATIVE LAG STRUCTURES; MISCELLANEOUS TOPICS	326
11.1 Tests of Hypotheses on the Parameters of the Rational Lag	326
11.2 Separation of Parameters	329
11.3 Tests for Stability	332
11.4 Goodness of Fit Criteria and Related Topics	338
APPENDIX: SOME MONTE CARLO EXPERIMENTS	355
BIBLIOGRAPHY	402
INDEX	411
