

**Fourth international conference on
Current and future trends in
Bridge design, construction and
maintenance**

Proceedings of the 4th International Conference organised on behalf of the Structural and Buildings Board of the Institution of Civil Engineers, and held in Kuala Lumpur, Malaysia, 10–11 October 2005

Edited by Professor Ben Barr

In association with the Institution of Engineers, Malaysia

Co-sponsored by the

Association of Civil Engineering Departments in Europe
China Civil Engineering Society
Institution of Professional Engineers, New Zealand
Structural Engineering Institute, USA

Contents

Engineering for Seismic Performance

- 1 **Dynamic response analysis of Shinkansen train–bridge interaction system subjected to seismic load** 1–12
X. He, M. Kawatani, R. Sobukawa, and S. Nishiyama
- 2 **Arch bridge seismic response analysis** 13–21
H.H. Abbas and W. Salah
- 3 **Effects of seismic risk on life-cycle cost analysis for bridge maintenance** 22–33
H. Furuta, H. Katayama, M. Dogaki and D.M. Frangopol
- 4 **Effect of material quality on reliability of bridges** 34–45
M. Kaszynska and A.S. Nowak
- 5 **Bridges for high speed railways – special considerations** 46–56
S.G. Davis and A.G. Wilkins
- 6 **Effect of train dynamics on seismic performance of steel monorail bridges under extreme ground motions** 57–66
C-H Lee, T. Kanbara, N. Nishimura, C-W Kim and M. Kawatani
- 7 **Tsugaru Strait Bridge and Nagisa Bridge – combining a suspension & cable stayed bridge and a steel & prestressed concrete bridge** 67–78
H. Kudo, Y. Shioi, A. Hasegawa and N. Suzuki
- 8 **Investigation, selection, detailed analysis and strengthening design of bridges on the haulage route for the Genesis Energy Power Station upgrade, New Zealand** 79–90
I. Sloane, G. Wemyss and Y. Khwaounjoo

Bridge Design

- 9 **Innovative steel plate girders with corrugated webs for short span bridges** 91–102
E.Y. Sayed-Ahmed
- 10 **Advanced bridge analysis and design methods simplified** 103–112
B. Skinner and D. Geeves
- 11 **Integral bridges: the final frontier** 113–118
M. Tandon
- 12 **Pedestrian steel arch bridge with composite polymer deck** 119–130
H. Zobel, P. Zoltowski, J. Piechna, and M. Wrobel
- 13 **Innovations in concrete arch bridge design** 131–138
J. Radić, Z. Šavor and A. Kindij
- 14 **Fatigue design of welded tubular steel bridge details** 139–148
R.M. Natal Jorge, A.A. Fernandes, P.M.S.T. de Castro, N.E. Santos, R. Fonseca and A. Campos e Matos

15	A new design concept for steel bridge decks S.R. Bright and J.W. Smith	149–162
16	Current and future trends in long-span bridge design in China Y. Ge and H. Xiang	163–174
17	Modern integral bridge designs for east coast expressway A. Forouzani and I.M. Taib	175–186
18	QLJC used in calculation of lateral load distribution factors J. Lu and K. Chen	187–194
19	Innovative technologies involved in a vehicular underpass V. Gupta	195–206
20	Limit state design and lateral buckling analysis of the steel pony truss bridge E.H. Wang	207–214
Condition Monitoring and Repair		
21	Advanced retrofitting techniques with hybrid use of carbon fibre and external post-tensioning: a case study E. Siviero, B. Briseghella and T. Zordan	215–224
22	Tinsley Viaduct strengthening, UK A. Milner	225–236
23	Investigation into the vibrations of suspension footbridge M. Barghian and G-R. Zamani Ahari	237–248
24	A study on repair and strengthening of historical steel bridges H. Isohata	249–259
25	Arch bridge strengthening – Tainui Bridge over the Waikato River, New Zealand P.T. Sheasby and I.D. Sloane	260–270
26	Torsional strengthening of substructure beams of Mangatawhiri River Bridge Y.R. Khwaounjoo, A. Kerkovius, I. Sloane and J. Hilton	271–282
27	The effect of long-term creep on moment redistribution of Pathum Thani Bridge crossing the Chao-Praya River A. Pimanmas and K.H. Nielsen	283–292
28	Cost-effective condition monitoring of concrete bridges D. Pearson-Kirk, K.S. Croke and R.J.M. Cairns	293–304
29	Bridge management studies to reduce whole-life costs K.S. Croke, B.B. Pucknell and D.R. Pearson-Kirk	305–312
30	Effect of vehicle model and initial condition on traffic-induced vibration of short-span girder bridges C-W Kim, M. Kawatani, N. Kawada and T. Sakata	313–322

- 31 **Acoustic emission as a tool for non-destructive diagnostics of bridges** 323–332
K. Pospisil, J. Stryk, M. Korenska and L. Pazdera
- 32 **Condition monitoring, assessment and maintenance of bridges in Croatia** 333–340
J. Radić, J. Bleiziffer and D. Tkalčić
- 33 **An investigation of the time-dependent behaviour of post-tensioned concrete structures** 341–349
R.J. Lark, R.W. Howells and B.I. Barr

Bridge Construction - Parallel Session

- 34 **New trends in footbridge design** 350–358
J.J. Corbal and J.A. González
- 35 **Asymmetric cable-stayed bridge, Dubrovnik, Croatia** 359–369
G. Stenzel
- 36 **Cable-stayed curved bridge, G. Machincang, P. Langkawi Malaysia** 370–388
C.B. Lim and S.Y. Keong

Material Performance

- 37 **Sulfate attack of bridges** 389–401
D.R. Pearson-Kirk, S.J. Collard-Jenkins and B.A. Solan
- 38 **Research and bridge applications of high-performance lightweight concrete in Poland** 402–411
W. Radomski
- 39 **Monitoring of corrosion of reinforcement in concrete** 412–425
S. Jayanthan, T. Jegatheepan and K. Vijidharan
- 40 **Reliability analysis for curved steel I-girder bridges** 426–437
P.J. Podhorecki and A.S. Nowak

Bridge Assessment

- 41 **Remaining life of orthotropic steel bridge decks** 438–449
L. Lu and A. de Boer
- 42 **Experiences in bridge assessment and reconstructions** 450–460
J. Bujnak, J. Bujnak Jr and J. Vican
- 43 **Whangamarino River Bridge: assessment and bridge strengthening using external prestress** 461–472
A. Kerkovius and I. Sloané
- 44 **Element and system risk considerations in highway bridge assessment** 473–484
S.M. Wong, R.E. Hobbs and C. Onof
- 45 **Safety assessment and strengthening of the Auckland Harbour Bridge** 485–496
I. Billings, A. Dickson and M. Beamish

Bridge Construction – Plenary Session

- | | | |
|-----------|---|---------|
| 46 | Channel Tunnel Rail Link – Contract 342, installation of Bridge 3590
R.C.E. Huggard | 497–506 |
| 47 | Incrementally launched bridges
M. Meyer | 507–514 |
| 48 | An arch bridge in one shot
E. Vitiello | 515–520 |
