Toward Interactive and Intelligent Decision Support Systems

Volume 1

Proceedings of the Seventh International Conference on Multiple Criteria Decision Making
Held at Kyoto, Japan, August 18–22, 1986

Edited by Y. Sawaragi, K. Inoue and H. Nakayama

Inv.-Nr. B 21322

Springer-Verlag
Berlin Heidelberg New York London Paris Tokyo

CONTENTS (VOL. 1)

PART I. INTERACTIVE DECISION SUPPORT SYSTEMS

Towards Interactive and Intelligent Decision Support Systems 1
Y. Sawaragi

Corporate Systematic Thinking and its Implementation; in Retrospect of my Way 10
K. Kobayashi

On Effective Goal Setting 18
I.S. Chien and P.L. Yu

Systems Approach to Multiple Criteria Decision Making; Metaoptimum 28
M. Zeleny

Symmetries in Multicriteria Optimization and their Application 38
B.A. Berezovsky and Y.M. Baryshnikov

Habitual Domains Analysis: An Application to High Stake Decision Problems 47
S. Huang

Multicriteria Comparative Analysis of Discrete Alternatives 57
B. Danev, G. Slavov and B. Mettev

Integration of Didactics and Creativity in Interactive Multiple Criteria Decision Support Systems 65
S.M. Borch

Autonomous Coordinability of Decentralized System Considering Subsystems Failures 75
M. Koizumi and K. Mori

Identifying Support in Decision Support Systems 85
Y. Kobashi

PART II. INTERACTIVE MULTIOBJECTIVE PROGRAMMING METHODS

Analytical Survey of Procedures for Solving Multicriteria Mathematical Programming Problems (MMPP) 95
O.I. Larichev and A.D. Nikiforov

Methods for Constructing Interactive Procedures in Multiobjective Optimization Problems 105
V.S. Mikhalevich and V.L. Volkovich

User Control and Multiple Time Path Objectives in a Manpower Planning Decision Support Systems Environment 114
J. Silverman, R.E. Steuer and A.W. Whisman

Multi-Objective Optimization Method by Satisfaction and Min-Max 123
K. Shimizu

On the Use of Bipolar Reference Objectives in Multiple Criteria Decision Making 132
E. Konarzewska-Gubala

An Interactive Modification of the Decision Set to Attain a Target Point in Vector Optimization Problems 142
A.M. Skulimowski

On Using Computer Graphics for Solving MCDM-Problems 154
P. Korhonen

Priority-Based Interactive Multicriteria Optimization Algorithm 163
A. Arbel and S.S. Oren

An Interactive Approach to Multiple Objective Multiple Decision Maker Problems 172
L.S. Franz, G.R. Reeves and J.J. Gonzalez

An Empirical Assessment and Insights on Two Multi-criteria Integer Programming Algorithms 182
R. Ramesh, M.H. Karwan and S. Zionts

Degeneracy Valuation and Consolidation in Multiple Objective Linear Programming Models in Accounting 196
J.S.H. Kornbluth

Approximation Methods for Multiple Criteria Travelling Salesman Problems 211
A. Gupta and A. Warburton

Multicriterion Packing Problem 218
O.I. Larichev and E.M. Furems

Arbitration Models for Solving Multiobjective Optimization 227
M.A. Benito-Alonso, F. Condis and M.V. Audenrode

A Lexicographic Method for Multiple Objective Binary Linear Programming 235
A.J. Rueda

Interactive Methods for Group Multiple Criteria Decision Making 241
W.K. Brauers

Guide Lines for Testing Interactive Multicriterion Methods by Simulation 250
T. Hemming

PART III. APPLICATIONS

1. Planning

MCDM in Hospital Planning 260
G. Fandel and H. Hegemann

Two-Level Financial Planning with Conflicting Goals: An Interactive Procedural Approach 270
H. Schaffers and J. Spronk

MCDM and Strategic Development for Beijing 280
C.F. Ku and J.L. Yang

Environmental Design and Ordinal Regression 288
J. Siskos and N. Assimakopoulos

A Specific DSS for City Planners on a PC 297
T. Matsuda

2. Design

Multiobjective Management of Erection for Cablestayed Bridge Using Satisficing Trade-Off Method 304
K. Ishido, H. Nakayama, K. Furukawa, K. Inoue and K. Tanikawa

MultipleCriteriaDecision Making System for Steel Structure in Chemical Plant 313
T. Ueno, Y. Ohtake, H. Nakayama and K. Inoue

Computer Aided Interactive Multiobjective Satisfaction and its Applications to Design Problems 323
H. Fujimoto

3. Production

Applications of Multicriteria Methods to Operations Management 333
R.K. Sarin

Contracting Cone Method vs Modified Two Person-Zero Sum Game Approach: An Implementation in Production Planning 343
B. Karpak and A. Kuruuzum

Problems in the Production Management System of the Steel Industry : An Approach to the Problem of Multi-Purpose Decision-Making 353
I. Okinaka

A Fuzzy Satisficing Approach to Multiobjective Pass Scheduling for Hot Tandem Mills 363
M. Sakawa, H. Narazaki, M. Konishi, K. Nose and T. Morita

PART IV. THEORY OF VECTOR OPTIMIZATION

Inverse Problems in Multiobjective Dynamic Optimization 374
A.B. Kurzhanski

Duality and Decision Support for LVOPs 383
W. Rödder

Vector Maximum Problems: Sensitivity, Degeneracy and Entropy 392
T. Gal

Sensitivity Analysis in Vector Optimization 398
T. Tanino

Vector Variational Inequality and Vector Optimiaztion Problem 408
G.Y. Chen and G.M. Cheng

Epsilon Solutions and Duality in Vector Optimization 417
I. Vályi

APPENDICES

1. Softwares in Computer Demonstration Session 427

2. List of Participants 431

3. Organization 443

4. List of Sponsors 444

CONTENTS (VOL. 2)

PART I. INTELLIGENT DECISION SUPPORT SYSTEMS

An Interactive Knowledge Support System with Imperfect Information: Toward a Microcomputer Implementation of ARIADNE 1
A.P. Sage, A. Goicoechea and P.H. Aiken

Object Model for a Deep Knowledge System 11
H. Ueno

A Distributed Problem Solving Approach to Control Asynchronous and Concurrent Processes 20
S. Kobayashi and N. Ono

A Human-Friendly Interface System for Decision Support Based on Self-Organized Multi-Layered Knowledge Structures 30
T. Sawaragi, S. Iwai and O. Katai

Intelligent Decision Support for Technology Assessment 40
M. Grauer and K. Fedra

A Framework for Choosing the Most Appropriate Discrete Alternative Multiple Criteria Decision-Making Method in Decision Support Systems and Expert Systems 56
V.M. Ozernoy

The Intelligent Decision Support System: Synthesis of a Decision Support System and an Expert System 65
Y. Kuratani

A Decision-Support System for Systems Engineering and Management: The SEMS Experiment at NASA 71
A. Goicoechea, R.W. Nelson and W. Truszkowski

To Solve Discrete Multicriteria Decision Problems Based on Logic-Based Decision Support Systems 80
H.L. Li

MCDM: From 'Stand-Alone' Methods to Integrated and Intelligent DSS 90
M.T. Jelassi

Development of a Diagnosis Analysis System for Ion Implanter 100
Y. Doi, T. Yokohara, M. Matsuo, K. Arima, N. Tachibana, M. Yamaji and M. Katsuragawa

A Multiple Criteria Algorithm for Automatic Layout of Data Flow Diagrams 109
K.J. Farn and T.T. Waung

On the Method to Arrange and Use Expertise 119
K. Hagiwara

Intellectual Distributed Processing System Development 129
S. Tamura, Y. Okataku, T. Endo, T. Seki and M. Arai

Japanese-English Machine Translation System Implemented in the Personal Computer 139
T. Shiino, H. Yasuhara, M. Sakamoto, and A. Tanaka

PART II. UTILITY AND RISK ANALYSIS

Multiattribute Utility and Derived Utility 149
J.W. Pratt

Applications of Utility Theory in Artificial Intelligence Research 155
P.H. Farquhar

Portfolio Risk Aversion and Weighted Utility Theory 162
S.H. Chew and M.H. Mao

Expected Utility with a Threshold Function 170
Y. Nakamura

Risk Management in a Hierarchical Multiobjective Framework 180
D. Li and Y.Y. Haimes

A Land Use Model for Spatial Policy Analysis and Multi-Criteria Evaluation of Regional Development Planning 190
K. Yoshikawa, K. Kobayashi and S. Mun

Multiattribute Utility Modeling of Cardiac Health Effects from Carbon Monoxide Exposure 200
L.R. Keller and W.E. Lambert

PART III. VALUE ANALYSIS AND INTENSITY OF PREFERENCE

On a Measurable Value Function under Risk : A Descriptive Model of Preferences Resolving the Expected Utility Paradoxes 210
H. Tamura, Y. Mori and Y. Nakamura

Intensity of Preference 220
J.C. Vansnick

Verifying Preference Separability for Additive Value Functions 230
P.L. Yu and E. Takeda

PART IV. HIERARCHY ANALYSIS AND WEIGHTING METHODS

The General Case of Dependence in Hierarchic Decision Theory 239
T.L. Saaty

The New Dynamic Priorities Model and an Analysis of China's Energy Strategy for the Future 249
S. Xu and B. Liu

Evaluation of Cardinal Utility Based on Weighted Paired-Comparisons 257
K. Inoue, T. Moriyasu and Y. Masago

Design of a Decision-Support Workstation System for Hierarchical Multiobjective Inventory Control 267
Y. Nishikawa, J. Nomura, K. Sawada and R. Nakajima

A Rationale for Additive Decomposition in Multi-attribute Utility Assessment 277
J.S. Dyer and H.V. Ravinder

An Approach to Preference Vector Derivation Using Geometric Least Square 286
G. Islei and A.G. Lockett

Assessing Weights by Means of Pairwise Comparisons 296
V. Belton and T. Gear

Bias in Assessment of Attribute Weights 309
M. Weber, F. Eisenfuhr and D. von Winterfeldt

PART V. INCOMPLETE INFORMATION

Bicriterion Decision-Making under Randomness and Worth of Perfect Information 319
L. Duckstein, D. Davis and J. Weber

The Perspective of Possibilistic Models in Decision Making 328
J. Watada and H. Tanaka

An Interactive Fuzzy Satisficing Method for Multi-objective Linear Fractional Programming Problems with Fuzzy Parameters 338
M. Sakawa and H. Yano

Multicriteria Optimization Problems in Statistics 348
S.C. Narula and J.F. Wellington

PART VI. GROUP DECISIONS

A Prototype Selection Committee Decision Analysis and Support Systems, SCDAS: Theoretical Background and Computer Implementation 358
A. Lewandowski, S. Johnson and A. Wierzbicki

Scalarization, Optimality Conditions and Group Decision Making 366
M.Q. Ying

Two Aspects of Group Decision Support System Design 373
G.E. Kersten

Multi-Person Decision Support with Knowledge Base Systems 383
W. Michalowski

Socio-Economic Interpretation of Multiple Agents Decision Making by Game Theory 393
F. Seo

Microcomputer-Based Games for the Purposes of Environmental Protection and Managemental Training 403
N. Baba

Interactive Modeling and Gaming-Simulation for Group Decision Making 412
Y. Nakamori

Multiactor Decision Analysis for Regional Investment Allocation 422
K. Kobayashi, T. Tanino, A.P. Wierzbicki and M. Okumura

APPENDICES

1. Softwares in Computer Demonstration Session 432

2. List of Participants 436

3. Organization 448

4. List of Sponsors 449
