ANALYSIS OF ERECTION PROCEDURES FOR CABLE-STAYED BRIDGES

TABLE OF CONTENTS

page

Notation	4
Introduction	5
1. The Forward Method	8
1.1 Generalized matrix equation	8
1.1.1 The $[P_n]$ matrix	10
1.1.2 The $[CG]$ matrix	12
1.1.3 The $[K]$ matrix	14
1.1.4 The $[Y_n]$ matrix	15
1.2 Number of matrix equations	16
1.3 Solution of bridge actions	17
2. The Backwards Method	20
2.1 General equation	20
2.2 Analysis of mainspan	20
2.3 Analysis of sidespan	25
2.4 Organization of data	30
2.4.1 Flow chart of computer files	30
2.4.2 Cable forces	32
2.4.3 Nonlinear effects	33
3. Example 1: Simple Structure	37
3.1 Forward Method	41
3.2 Backwards Method	47
4. Example 2: 3 span bridge with multicable system	51
4.1 Forward method	53
4.2 Backwards method	61
5. References	71
