ISBS '98
XVI INTERNATIONAL SYMPOSIUM ON
BIOMECHANICS IN SPORTS
July 21 - 25, 1998
University of Konstanz, Germany

PROCEEDINGS I

Hartmut J. Riehle
Manfred M. Vieten
(Editors)

UVK – Universitätsverlag Konstanz GmbH
# Table of Contents

## GEOFFREY DYSON MEMORIAL LECTURE

BIOMECHANICS OF SPORTS: SELECTED EXAMPLES OF SUCCESSFUL APPLICATIONS AND FUTURE PERSPECTIVES  
Herbert Hatze, University of Vienna, Austria ................................................................. 2

## TOPIC 1 PURE AND APPLIED SPORTS BIOMECHANICS

### KEYNOTE LECTURE

LIFTING PERFORMANCE IN AQUATIC SPORTS  
Ross H. Sanders, Edith Cowan University, Joondalup, Western Australia ........... 25

### ORAL LECTURES AND POSTER PRESENTATIONS

A COMPARISON OF VARIOUS METHODS FOR THE ASSESSMENT OF VERTICAL JUMP HEIGHT  
Jiri Adamec, Petr Novotny, Frantisek Vaverka, Univerzita Palackeho v Olomouci, Olomouc, Czech Republic ................................................................. 42

EACH BODY SEGMENT FUNCTION DURING THE SUPPORT PHASE OF THE DROP JUMP  
Kiyohide Aoyama, Yohei Shimokouti, Nihon University, Tokyo, Japan, Kazuyuki Ogiso, Toba National College of Maritime, Mie, Japan, Mitsugi Ogata, Toshifumi Yasui, University of Tsukuba, Japan .................................................. 43

RACEWALKING AND NORMAL WALKING ANALYSIS  
Aluisio O. V. Ávila, Ana C. D. Klavdianos, Eliane F. Manfio, Federico Viollaz, John P. Nasser, José C. P. Fonseca, Mario C. Andrade, Universidade do Estado de Santa Catarina, Florianópolis, Brazil, Alberto C. Amadio, Universidade de São Paulo, Brazil .................................................. 47

DETERMINING THE GROUND REACTION FORCE EXPERIENCED IN BEACH RUNNING  
Rod Barrett, Cassius D’Helon, Griffith University, Southport, Australia, Rob Neal, University of Queensland, Brisbane, Australia ........................................ 51

ACCURACY AND THROWING VELOCITY IN HÅNDBAL  
Joannis Bayios, Konstantinos Boudolos, University of Athens, Greece ............ 55
AN INNOVATIVE DEVICE FOR MEASURING THE ACCURACY OF THROWING IN HANDBALL
Ioannis Bayios, Giorgos Georgiadis, Konstantinos Boudolos, University of Athens, Greece

BIOMECHANICAL ANALYSIS OF SPRINTING TO IMPROVE INDIVIDUAL TECHNIQUE
Christiane Bohn, Gong B. Shan, Ralf Attermeyer, M. Schulte, Westfälische Wilhelms-Universität, Münster, Germany

BIOMECHANICS OF STATODYNAMIC STABILITY FOR THE ATHLETE'S BODY AND BODY SYSTEM
Viktor Boloban, Tayana Mistulova, Ukrayinsky Gosudarstvenny Universitet Fizicheskogo Vospitaniya i Sporta, Kiev, Ukraine

INTERVAL TRAINING FOR SPRINT RUNNING: EFFECTS OF THE DURATION OF THE PAUSE ON RUNNING KINEMATICS AND BLOOD LACTATE
Monica M. V. Brochado, Eduardo Kokubun, Universidade Estadual Paulista, Rio Claro, Brazil

LANDING STRATEGY VARIATIONS: EFFECTS OF SKILL LEVEL, TASK DEMANDS AND MOVEMENT TYPE
Brian L. Caster, Western Oregon University, Monmouth, USA

INTERSEGMENTAL DYNAMICS ANALYSIS OF "JUMP-SLAP-KICK" IN CHINESE MARTIAL ARTS
Long-Ren Chuang, Yu Liu, Chinese Culture University, Taipei, Taiwan, Chung-Yu Chen, Chen-Fu Huang, National Taiwan Normal University, Taipei, Taiwan

A 1998 SELECTIVE REVIEW OF RESEARCH ON THE ELDERLY
John M. Cooper, David M. Koceja, Indiana University, Bloomington, USA

MECHANICAL ENERGY DIFFERENCES BETWEEN WALKING AND RUNNING AT DIFFERENT VELOCITIES ON A TREADMILL
Sonia C. Correa, Universidade Estadual de Campinas, Brazil, Alberto Carlos Amadio, Universidade de Sao Paulo, Brazil, Ulrich Glitsch, Wolfgang Baumann, Deutsche Sporthochschule, Köln, Germany

FLUID MECHANICS ANALYSIS IN VOLLEYBALL SERVICES
Pedro Depra, Universidade Estadual de Campinas, Campinas, Brazil and Universidade Estadual de Maringá, Maringá - Paraná, Brazil, René Brenzikofer, Marlos Goes, Ricardo Barros, Universidade Estadual de Campinas, Campinas, Brazil
THE RELATIONSHIPS BETWEEN SPEED-STRENGTH ABILITIES OF LOWER EXTREMITIES OF YOUNG MILITARY PILOTS AND +Gz TOLERANCE
Jerzy Eliasz, Miroslaw Deren, Bogdan Biernat, Polish Air Force Institute of Aviation Medicine, Warszawa, Poland, Robert Jedrys, Polish Air Force Academy, Deblin, Poland

KINEMATIC COMPARISON OF THE BEST AND WORST THROWS OF THE TOP MEN’S DISCUS PERFORMERS AT 1996 ATLANTA OLYMPIC GAMES
Alfred Finch, Indiana State University, Terre Haute, USA, Gideon Ariel, Ann Penny, Ariel Dynamics, San Diego, USA

JOINT MOMENTS IN WATER-SKIING CHILDREN
Franz K. Fuss, Universität Wien, Austria

BIOMECHANICS OF HORSE JUMPING
Franz K. Fuss, Angelika H. Fuss, Universität Wien, Austria

THE INFLUENCE OF SELECTED BODY DIMENSIONAL VARIABLES ON THE MECHANICAL PARAMETERS OF THE VERTICAL JUMP
Jan Gajewski, Andrzej Wit, Akademia Wychowania Fizycznego, Warszawa, Poland, Jaroslaw Janiak, Instytut Sportu, Warszawa, Poland

DRAG AND FRICTION COEFFICIENTS IN ROLLER SKATING. AN INDIRECT DETERMINATION. SOME SUGGESTIONS ABOUT TRAINING LOADS
Claudio Giorgi, Istituto Superiore Statale di Educazione Fisica, Roma, Italy

SACRUM LOAD-DISPLACEMENT BEHAVIOUR AND SI LockING MECHANISM IN WEIGHT LIFTERS
Guy Gosselin, Anglo-European College of Chiropractic, Bournemouth, U.K., Danik Lafond, Martin C. Normand, Université du Québec à Trois-Rivières, Trois-Rivières, Canada

KINESIOLOGICAL FACTORS DETERMINING THE HEIGHT ACHIEVED DURING FLIGHT IN A SPRINGBOARD DIVE
Vassilia Hatzitaki, Iraklis Kollias, Aristotelian University of Thessaloniki, Greece

A STUDY OF TWO KINDS OF ARM-SWINGING MOTION IN THE FRONT SPIKE OF CHINESE WOMEN’S VOLLEYBALL TEAM PLAYERS
Erlian Huang, Highway University, Shaanxi, China

THE MAXIMAL MUSCLE TORQUES DISTRIBUTION AMONG MUSCLE GROUPS IN ELITE ATHLETES IN COMBAT SPORTS
Jaroslaw Janiak, Jan Gajewski, Zbigniew Trzaskoma, Instytut Sportu, Warszawa, Poland
A LONGITUDINAL STUDY OF INTRA-INDIVIDUAL VARIABILITY IN THE
EXECUTION OF THE IN-RUN POSITION IN SKI JUMPING
Miroslav Janura, Frantisek Vaverka, Milan Elfmark, Jiri Salinger,
Univerzita Palackeho v Olomouci, Olomouc, Czech Republic .............................. 124

BALL VELOCITY AND KINETICS OF THE SUPPORTING FOOT DURING
TWO SOCCER KICKS, PERFORMED BY FEMALE SOCCER PLAYERS
Margrét Kristín Jónsdóttir, Alfred Finch, Indiana State University, Terre
Haute, USA ........................................................................................................... 128

THE INFLUENCE OF THE RIDER ON THE TROT MOTION OF A
RIDDEN HORSE
M. Kapaun, Ch. Peham, Th. Licka, M. Scheidl, Veterinary University
Vienna, Austria ........................................................................................................ 132

BIOMECHANICAL CONTROL OF THE VERTICAL POSE'S STATIC
STABILITY IN ONTOGENESIS
Vitaly Kashuba, Yuri Yukhno, Ukrayinsky Gosudarstvenny Universitet
Fizitcheskogo Vospitaniya i Sporta, Kiev, Ukraine .................................................. 136

BIOMECHANICAL ANALYSIS OF THE HIGH JUMP AT THE VIth WCA IN
ATHENS
Uwe Kersting, Adamantios Arampatzis, Gert-Peter Brüggemann,
Deutsche Sporthochschule, Köln, Germany ........................................................ 137

PRODUCTION OF ANGULAR MOMENTUM IN DOUBLE BACKWARD
SOMERSAULTS
David G. Kerwin, Joanne Webb, Maurice R. Yeadon, Loughborough
University, U.K. ...................................................................................................... 141

A KINEMATICS ANALYSIS OF HIGH SCHOOL CHAMPIONSHIP LONG
JUMPERS
Hashem A. Kilani, Asem Abu Aisheh, United Arab Emirates University, Al
Ain, Abu Dabi, UAE ............................................................................................... 145

LOWER AND UPPER EXTREMITY COORDINATION PARAMETERS
DURING THE FENCING LUNGE
Jürgen Klauck, Said E. A. Hassan, Deutsche Sporthochschule, Köln,
Germany .................................................................................................................. 149

OPTIMUM SPORTS TECHNIQUE OF THE PUSH-OFF MOVEMENT IN
DIFFICULT ARMSTAND DIVES
Klaus Knoll, Institut für Angewandte Trainingswissenschaft, Leipzig,
Germany, Uwe Jungnickel, Technische Universität, Chemnitz-Zwickau,
Germany ................................................................................................................. 153

SENSOR FUNCTIONAL CONCEPT OF HUMAN BODY STABILITY
Vladimir Korenberg, Moscow State Academy of Physical Culture, Moscow,
Russia ...................................................................................................................... 157

X ISBS'98 – Proceedings I
THE INFLUENCE OF THE ELEVATION OF THE LANDING PLACE ON THE EXECUTION OF THE BACKWARD SOMERSAULT
Henryk Król, Academy of Physical Education, Katowice, Poland

RUNNING APPROACH VELOCITY AND ENERGY TRANSFORMATION IN DIFFICULT VAULTS IN GYMNASTICS
Jürgen Krug, Klaus Knoll, Universität Leipzig, Germany Thomas Köthe, Hans-Dieter Zocher, Olympiastützpunkt Magdeburg/Halle, Magdeburg, Germany

ANALYSIS OF VIBRATIONS AND SHOCKS DURING THE PARALLEL TURN IN ALPINE SKIING
Otmar Kugovnik, Univerza v Ljubljani, Ljubljana, Slovenia, Bojan Nemeč, Jozef Stefan Institute, Ljubljana, Slovenia

BIOMECHANICAL PECULIARITIES OF THE BODY'S ORTHOGRADE POSE IN HIGHLY SKILLED LONG JUMPERS
Anatoly Laputin, Vladimir Bobrovnik, Ukrajinsky Gosudarstvenny Universitet Fizicheskogo Vospitaniya i Sporta, Kiev, Ukraine

MAIN TECHNICAL ANALYSES OF THE MOTION TRAJECTORY INFLUENCING THE HORSE-VAULTING MOVEMENT
Shanxiu Li, Shandong Institute of Physical Education, Jinan, Shandong, China

BIOMECHANICAL DIAGNOSIS AND ANALYSIS OF TOP CHINESE HIGH JUMPERS
Ying Liu, Beijing Research Institute of Sports Science, Beijing, China, Danny P. K. Chu, Hong Kong Sports Institute, Hong Kong, China, Youlian Hong, The Chinese University of Hong Kong, China

A PRELIMINARY STUDY OF ROTATIONAL SHOT PUT TECHNIQUE
Pekka Luhtanen, Minna Blomqvist, Tomi Väntinen, Research Institute for Olympic Sports, Jyväskylä, Finland

RACE ANALYSIS OF THE 400M FREESTYLE AT THE 1996 PARALYMPIC GAMES
Laurie A. Malone, Virginia Commonwealth University, USA, Daniel Daly, Yves Vanlandewijck, K. U. Leuven, Belgium, Robert Steadward, University of Alberta, Canada

BIOMECHANICAL INVESTIGATIONS OF PERFORMANCE CHARACTERISTICS OF VARIOUS TYPES OF ICE HOCKEY STICKS
G. Wayne Marino, University of Windsor and Louisville, Windsor, Ontario, Canada

THE KINEMATICS OF INACCURACY IN BASKETBALL SHOOTING
Stuart Miller, Leeds Metropolitan University, Leeds, U.K.
INDIRECT MEASUREMENT OF FORCES ON THE GYMNASTICS RINGS
Stuart H. Mills, University College Worcester, U.K. ........................................... 192

VARIATION IN SEGMENTAL KINETIC ENERGY DURING EXECUTION OF GIANT SWINGS ON THE HORIZONTAL BAR AT DIFFERENT SPEEDS
Françoise Natta, Institut National du Sport et de l’Éducation Physique, Paris, France, Philippe Nouillot, Université Paris Sud, Orsay, France ........................................... 196

A PROCEDURE FOR DETERMINING THE ANGULAR VELOCITY OF THE UPPER ARM ABOUT ITS LONGITUDINAL AXIS RELATIVE TO THE THORAX IN JAVELIN THROWING
Enrique Navarro, Oliver Cabrero, Fernando Vizcaíno, Universidad Politécnica de Madrid, Spain, Pedro Vera, Universidad Politécnica de Valencia, Paterna, Spain ........................................... 200

A THREE-DIMENSIONAL ANALYSIS OF ANGULAR VELOCITIES OF SEGMENTS IN JAVELIN THROWING
Enrique Navarro, Oliver Cabrero, Fernando Vizcaíno, Universidad Politécnica de Madrid, Spain, Pedro Vera, Universidad Politécnica de Valencia, Paterna, Spain ........................................... 204

ASSESSMENT OF CHARACTERISTICS OF PHYSICAL CONDITIONING RELATING TO STRENGTH AND SPEED IN VOLLEYBALL
Christos Papadopoulos, Aristoteleio Panepistimio Thessalonikis, Serres, Greece, Spiros Prassas, Colorado State University, Fort Collins, USA ........................................... 208

HURDLE JUMPING TECHNIQUE CHARACTERISTICS IN THE 110 METER RACE IN THE 1997 WORLD TRACK AND FIELD CHAMPIONSHIP
Christos Papadopoulos, Aristoteleio Panepistimio Thessalonikis, Serres, Greece, Spiros Prassas, Colorado State University, Fort Collins, USA, Arsenis Giavrogou, Lefteris Tsarouchas, Hellenic Sports Research Institute, Maroussi, Athens, Greece ........................................... 209

MOTION PATTERN CONSISTENCY OF THE RIDER-HORSE SYSTEM
Christian Peham, M. Kapaun, Th. Licka, M. Scheidl, Veterinary University Vienna, Austria ........................................... 212

DYNAMICS OF FORWARD SWINGING SKILLS ON THE PARALLEL BARS
Spiros Prassas, Colorado State University, Fort Collins, USA, Christos Papadopoulos, Aristoteleio Panepistimio Thessalonikis, Serres, Greece ........................................... 216

KINEMATIC COMPARISON OF OVERGRIP AND UNDERGRIP DISMOUNT GIANT SWINGS ON THE UNEVEN BARS
Spiros Prassas, Colorado State University, Fort Collins, USA, Christos Papadopoulos, Aristoteleio Panepistimio Thessalonikis, Serres, Greece, Jürgen Krug, Universität Leipzig, Germany ........................................... 219
EFFECT OF DIFFERENT HANDLEBAR HAND POSITIONS ON FAST BRAKE LEVER REACHING MOVEMENTS IN CYCLING
Renato Rodano, Roberto Quadrone, Politecnico di Milano, Italy ................................. 223

CHANGES IN AXIAL ROTATION AND ISOMETRIC FORCE AT THE KNEE JOINT IN STUDENT SWIMMERS
Pitrus Ryszard, Zieliski Jacek, Akademia Wychowania Fizycznego, Warszawa, Poland ........................................................................................................ 227

RELIABILITY ASSESSMENT OF KINEMATIC VARIABLES IN THE MOTION ANALYSIS OF FEMALE SPRINT Hurdles
Aki Salo, University of Bath, U.K., Paul N. Grimshaw, University of Exeter, U.K., Jukka T. Viitasalo, Research Institute for Olympic Sports, Jyväskylä, Finland ........................................................................................................... 229

THREE TECHNIQUES OF SKI JUMP TAKE-OFF MODELED BY CHANGES OF JOINT ANGLE
Tutomu Sasaki, Kazuhiko Tsunodá, Hokusei Jr. College, Sapporo, Japan, Hiroshi Hoshino, Ebetu City Gymnasium, Ebetu City, Japan ......................................................... 233

STRESS STUDIES IN TENNIS – DIFFERENCES BETWEEN TENNIS Rackets OF DIFFERENT LENGTHS
Frank Schiebl, Sindelfingen, Germany ........................................................................... 237

A SIMPLE MATHEMATICAL MODEL FOR ESTIMATING FORCE AND TORQUE TO THE WRIST, ELBOW AND SHOULDER IN SERVING, SPIKING AND BLOCKING IN VOLLEYBALL
Morteza Shabazi-Moghddam, Shahram Khanzadeh, Tehran University and Biomechanics Commission of the National Olympic Committee of the Islamic Republic of Iran, Iran ........................................................................ 240

A NEW BIOMECHANICAL ASPECT FOR ASSESSING MECHANICAL PARAMETERS IN THE LONG JUMP
Morteza Shahbazi Moghaddam, Tehran University, Iran, Nader Broogeni, Biomechanics Commission of the National Olympic Committee of Iran, Iran ................................................................................ 244

EFFECTIVENESS AND ECONOMY IN RUNNING
Christian Simon, Johann-Wolfgang-Goethe-Universität, Frankfurt, Germany .................... 247

A COMPARISON OF LOWER EXTREMITY FORCES, JOINT ANGLES, AND MUSCLE ACTIVITY DURING SHOED AND BAREFOOT RUNNING
Matthew Stockton, Rosemary Dyson, Chichester Institute of Higher Education, U.K ......................................................................................................................... 251

ON THE APPLIED BIOMECHANICS OF WEIGHTLIFTING
Yuli E. Toshev, Balgarska Akademia na nautike, Sofija, Bulgaria .................................. 255

ISBS’98 – Proceedings I
THE RELATIONSHIPS BETWEEN ANTHROPOMETRIC BODY DIMENSIONS AND THE FORCE-TIME STRUCTURE OF THE VERTICAL JUMP
Frantisek Vaverka, Miroslav Janura, Milan Elfmark, Jiri Salinger, Univerzita Palackeho v Olomouci, Olomouc, Czech Republic

APPARENT COEFFICIENT OF RESTITUTION SURFACE OF A PADDLE RACKET
Federico J. Viollaz, Universidade Federal de Santa Maria and Universidade do Estado de Santa Catarina, Florianópolis, Brazil, Aldo J. Viollaz, Universidad Nacional de Tucumán, Argentina

INERTIAL AND VIBRATIONAL CHARACTERISTIC OF PADDLE RACKETS, AND THEIR RELATION WITH THE FREQUENT IMPACT AREAS
Federico J. Viollaz, Universidade Federal de Santa Maria, Brazil and Universidade do Estado de Santa Catarina, Florianópolis, Brazil, Aluisio O. V. Avila, Noé Gomes Borges Jr., José C. Pio da Fonseca, Universidade do Estado de Santa Catarina, Florianópolis, Brazil

APPARENT COEFFICIENT OF RESTITUTION OF IMPACTS IN PADDLE RACKETS WITH DIFFERENT CHARACTERISTICS
Federico J. Viollaz, Universidade Federal de Santa Maria, Brazil and Universidade do Estado de Santa Catarina, Florianópolis, Brazil, Aluisio O. V. Avila, José C. Pio da Fonseca, Universidade do Estado de Santa Catarina, Florianópolis, Brazil, Aldo J. Viollaz, Universidad Nacional de Tucumán, Tucumán, Argentina

KINEMATICS OF UPPER LIMB AND TRUNK IN TENNIS PLAYERS USING SINGLE HANDEDBACKHAND STROKES
Lin-Hwa Wang, Physical Education Office, Tainan, Taiwan, H. W. Wu, F. C. Su, National Cheng Kung University, Tainan, Taiwan, K. C. Lo, Kung Shan Institute of Technology, Tainan, Taiwan

DYNAMIC ANALYSIS OF STABILITY IN HUMAN LOADED WALKING AT DIFFERENT VELOCITIES AND HEIGHTS OF THE CENTER OF MASS, AND POSSIBLE, OPTIMAL AREAS IN DIFFERENT MODES OF WALKING
Wie J. Wang, Robin H. Crompton, M. M. Gunther, Y. Li, C. Wood, University of Liverpool, U.K.

A THREE-DIMENSIONAL KINEMATIC ANALYSIS OF HANDBALL THROWS
Andrzej Wit, Akademia Wychowania Fizycznego, Warszwa, Poland, Jerzy Eliasz, Polish Air Force Institute of Aviation Medicine, Warszawa, Poland
CHANGES IN THE COORDINATION OF WALKING MOVEMENTS UNDER CONDITIONS OF CONSTANT AND VARIABLE SPEED
Kerstin Witte, Martin Nischang, Peter Blaser, Otto-von-Guericke-Universität, Magdeburg, Germany

SOUTH EAST ASIAN (SEA) GAMES BIOMECHANICS PROJECT
Wei Xie, Chuang Teh Kong, Singapore Sports Council, Singapore, Annette J. Raynor, Nanyang Technological University, Singapore, Singapore

MECHANICS OF BODY ROLL IN FRONT-CRAWL SWIMMING
Toshimasa Yanai, University of Otago, Dunedin, New Zealand

EXERCISE INTENSITY OF SOLO STYLE JAPANESE DRUM PLAYING AS AN AEROBIC EXERCISE OF TAIKOBICS
Nobuo Yasuda, Hiroh Yamamoto, Kanazawa University, Kanazawa-shi, Ishikawa, Japan

THE ARCHER'S PARADOX
Ihor Zanevskyy, Lvivsky Derzhavny Instytut Fizychnoiy Kultury, Lviv, Ukraine

TOPIC 2 MODELING, SIMULATION, OPTIMIZATION IN SPORTS BIOMECHANICS

KEYNOTE LECTURE

COMPUTER SIMULATION IN SPORTS BIOMECHANICS
Fred R. Yeadon, Loughborough University, U.K.

ORAL LECTURES AND POSTER PRESENTATIONS

COORDINATE'S CHOICES IMPLICATIONS IN THE INVERSE DYNAMICS ANALYSIS OF HUMAN GAIT
Jorge A. C. Ambrósio, Miguel P. T. Silva, Universidade Técnica de Lisboa, Portugal, José M. Jimenez Bascones, Universidad de Navarra, St. Lorzibal, San Sebastian, Spain

BIOMECHANICS TOOLBOX: A SOFTWARE FOR BIOMECHANICAL DATA PROCESSING AND MODELLING
Vasilios Baltzopoulos, Manchester Metropolitan University, U.K., T. Papadopoulos, Infomedia Ltd, Xanthi, Greece
ANALYSIS OF ATHLETES’ STATIC-DYNAMIC STABILITY
Violeta Damyanova, Velika Kamburova, Balgarska Akademia na nautike, Sofija, Bulgaria, Anton Savov, University Hospital “Sv. Iv. Rilski”, Sofija, Bulgaria ........................................................................................................... 322

A MODEL OF THE HORSE DIGIT — RELIABILITY AND COMPARISON WITH IN-VIVO EXPERIMENTS
Franz K. Fuss, Universität Wien, Wien, Austria ............................................................................. 326

A MECHANICAL MODEL FOR MEASURING IN THREE DIMENSIONS THE SMALL AMPLITUDE COUPLED MOTION THAT CHARACTERIZES MOTOR PATTERNS IN SHOOTING ACTIVITIES
Kostas Gianikellis, Marcos Maynar Mariño, Universidad de Extremadura, Cáceres, Spain, Juan Vicente Dura, Universidad Politécnica de Valencia, Paterna, Spain ........................................................................................................... 330

FORWARD DYNAMICS FOR THE EVALUATION OF PRACTICAL PROBLEMS IN SPORTS
Ulrich Göhner, Frank Schiebel, Joachim Dengler, Jörg Subke, Eberhard-Karls-Universität, Tübingen, Germany ........................................................................................................... 334

SIMULATION OF DIFFERENT MOVEMENTS IN SPORTS VIA DIRECT DYNAMICS
Karin Gruber, Universität Koblenz-Landau, Germany, Hanns Ruder, Eberhard-Karls-Universität, Tübingen, Germany ........................................................................................................... 338

SIMULATION OF VIBRATIONS IN ALPINE SKIING
Christian Haas, Christian Simon, Dietmar Schmidtbleicher, Johann-Wolfgang-Goethe Universität, Frankfurt, Germany ........................................................................................................... 339

EVALUATION OF A RUNNER’S PHYSIOLOGICAL PARAMETERS USING DIFFERENT SPRINT MODELS
Ulf Holmlund, Raimo von Hertzen, Matti A Ranta, Helsinki University of Technology, Helsinki, Finland ........................................................................................................... 343

INVESTIGATION OF THE SIMULATION OF THE MASS MOMENTS OF INERTIA FOR THE TRUNK
László Kocsis, Budapesti Müszaki Egyetem, Budapest, Hungary ........................................................................................................... 347

INVESTIGATION OF THE CHANGES OF THE MASS MOMENTS OF INERTIA DURING A DOUBLE STEP OF RUNNING
László Kocsis, Budapesti Müszaki Egyetem, Budapest, Hungary, Tibor Szilágyi, Magyar Testnevelési Egyetem, Budapest, Hungary ........................................................................................................... 351

RELEVANCE OF FREQUENCY-BASED POSTURAL STABILITY BIOMARKERS IN GYMNASTICS SPORTS
Michal Kuczynski, Akademia Wychowania Fizycznego, Wroclaw, Poland ........................................................................................................... 355
TAKE-OFF TECHNIQUE IN THE HIGH JUMP
Nicholas P. Linthorne, Brett A. Kemble, University of Sydney, Australia .......................... 356

STUDY OF THROWING WEIGHT AND THROWING POWER FOR MALE DISCUS THROWERS
Ming Liu, Hua Liu, Shandong Physical Education Institute, Jinan, Shandong, China, Yingzhu Ma, Sandong Medical University, Jinan, Shandong, China .................................................................................................................. 360

THE EFFECT OF PENNATION ANGLE CHANGES DURING CONTRACTION ON THE ESTIMATED TRICEPS SURAE MOMENT
Constantinos Maganaris, Vasilios Baltzopoulos, Manchester Metropolitan University, U.K. .......................................................... 362

SIMULATION OF THE FLIGHT DISTANCES OF JAVELINS BASED ON A NEURAL NETWORK APPROACH
Klaus D. Maier, Veit Wank, Friedrich-Schiller-Universität, Jena, Germany, Klaus Bartonietz, Olympiastützpunkt Rheinland-Pfalz/Saarland, Saarbrücken, Germany ................................................................................................. 363

STABILITY OF CONTROLLED MOTION IN DIVING SIMULATIONS
Peter Maisser, Uwe Jungnickel, Institute of Mechatronics at the Technical University of Chemnitz-Zwickau, Germany ........................................................................................................... 367

A STUDY OF THE ANTHROPOMETRIC CHARACTERISTICS OF PERFORMANCE ATHLETES - DIAGNOSIS AND TRAINING GUIDELINES
Gabriel Mangra, Gheorge S. Dragoi, Elena T. Rinderu, Universitatea din Craiova, Craiova, Romania .............................................................................. 371

COMPUTER MODELLING OF A SKI JUMP
Alexander Podgayets, Rudolf Rudakov, Perm State Technical University, Perm, Russia .................................................................................. 372

INFLUENCE OF ELASTIC CHARACTERISTICS OF SUPPORT ON THE WAVE PROCESS OF ENERGY TRANSFER FROM ONE LINK OF THE ATHLETE’S BODY TO ANOTHER
Gregoriy Popov, Russian State Academy of Physical Education, Moskwa, Russia ...................................................................................... 376

A STUDY OF THE BEHAVIOR OF THE FEMUR AS A SHOCK ABSORBER IN ALPINE SKIING EVENTS - A FINITE ELEMENT METHOD APPROACH
Elena T. Rinderu, Gheorge S. Dragoi, P. L. Rinderu, G. Calinescu, Universitatea din Craiova, Craiova, Romania ............................................. 378
ANALYSIS OF ATHLETES' STATIC-DYNAMIC STABILITY
Violeta Damyanova, Velika Kamburova, Balgarska Akademia na nautike, Sofija, Bulgaria, Anton Savov, University Hospital “Sv. Iv. Rilski”, Sofija, Bulgaria

A MODEL OF THE HORSE DIGIT — RELIABILITY AND COMPARISON WITH IN-VIVO EXPERIMENTS
Franz K. Fuss, Universität Wien, Wien, Austria

A MECHANICAL MODEL FOR MEASURING IN THREE DIMENSIONS THE SMALL AMPLITUDE COUPLED MOTION THAT CHARACTERIZES MOTOR PATTERNS IN SHOOTING ACTIVITIES
Kostas Gianikellis, Marcos Maynar Mariño, Universidad de Extremadura, Cáceres, Spain, Juan Vicente Dura, Universidad Politécnica de Valencia, Paterna, Spain

FORWARD DYNAMICS FOR THE EVALUATION OF PRACTICAL PROBLEMS IN SPORTS
Ulrich Göhner, Frank Schiebl, Joachim Dengler, Jörg Subke, Eberhard-Karls-Universität, Tübingen, Germany

SIMULATION OF DIFFERENT MOVEMENTS IN SPORTS VIA DIRECT DYNAMICS
Karin Gruber, Universität Koblenz-Landau, Germany, Hanns Ruder, Eberhard-Karls-Universität, Tübingen, Germany

SIMULATION OF VIBRATIONS IN ALPINE SKIING
Christian Haas, Christian Simon, Dietmar Schmidtleicher, Johann-Wolfgang-Goethe Universität, Frankfurt, Germany

EVALUATION OF A RUNNER'S PHYSIOLOGICAL PARAMETERS USING DIFFERENT SPRINT MODELS
Ulf Holmlund, Raimo von Hertzen, Matti A Ranta, Helsinki University of Technology, Helsinki, Finland

INVESTIGATION OF THE SIMULATION OF THE MASS MOMENTS OF INERTIA FOR THE TRUNK
László Kocsis, Budapesti Műszaki Egyetem, Budapest, Hungary

INVESTIGATION OF THE CHANGES OF THE MASS MOMENTS OF INERTIA DURING A DOUBLE STEP OF RUNNING
László Kocsis, Budapesti Műszaki Egyetem, Budapest, Hungary, Tibor Szilágyi, Magyar Testnevelési Egyetem, Budapest, Hungary

RELEVANCE OF FREQUENCY-BASED POSTURAL STABILITY BIOMARKERS IN GYMNASTICS SPORTS
Michal Kuczynski, Akademia Wychowania Fizycznego, Wroclaw, Poland
TAKE-OFF TECHNIQUE IN THE HIGH JUMP
Nicholas P. Linthorne, Brett A. Kemble, University of Sydney, Australia ...........356

STUDY OF THROWING WEIGHT AND THROWING POWER FOR MALE DISCUS THROWERS
Ming Liu, Hua Liu, Shandong Physical Education Institute, Jinan, Shandong, China, Yingzhu Ma, Sandong Medical University, Jinan, Shandong, China .................................................................360

THE EFFECT OF PENNATION ANGLE CHANGES DURING CONTRACTION ON THE ESTIMATED TRICEPS SURAE MOMENT
Constantinos Maganaris, Vasilios Baltzopoulos, Manchester Metropolitan University, U.K. ........................................362

SIMULATION OF THE FLIGHT DISTANCES OF JAVELINS BASED ON A NEURAL NETWORK APPROACH
Klaus D. Maier, Veit Wank, Friedrich-Schiller-Universität, Jena, Germany, Klaus Bartonietz, Olympiastützpunkt Rheinland-Pfalz/Saarland, Saarbrücken, Germany .................................................................363

STABILITY OF CONTROLLED MOTION IN DIVING SIMULATIONS
Peter Maisser, Uwe Jungnickel, Institute of Mechatronics at the Technical University of Chemnitz-Zwickau, Germany ...........367

A STUDY OF THE ANTHROPOMETRIC CHARACTERISTICS OF PERFORMANCE ATHLETES - DIAGNOSIS AND TRAINING GUIDELINES
Gabriel Mangra, Gheorge S. Dragoi, Elena T. Rinderu, Universitatea din Craiova, Craiova, Romania ................................................371

COMPUTER MODELLING OF A SKI JUMP
Alexander Podgayets, Rudolf Rudakov, Perm State Technical University, Perm, Russia .................................................................372

INFLUENCE OF ELASTIC CHARACTERISTICS OF SUPPORT ON THE WAVE PROCESS OF ENERGY TRANSFER FROM ONE LINK OF THE ATHLETE’S BODY TO ANOTHER
Gregoriy Popov, Russian State Academy of Physical Education, Moskwa, Russia .................................................................376

A STUDY OF THE BEHAVIOR OF THE FEMUR AS A SHOCK ABSORBER IN ALPINE SKIING EVENTS - A FINITE ELEMENT METHOD APPROACH
Elena T. Rinderu, Gheorge S. Dragoi, P. L. Rinderu, G. Calinescu, Universitatea din Craiova, Craiova, Romania .........................................378
MODELING OF ELASTIC RACKET PROPERTIES IN THE DYNAMIC COMPUTER SIMULATION OF TENNIS
Heiko Schlarb, Bernd Kneib, Ulrich Glitsch, Deutsche Sporthochschule, Köln, Germany ................................................................. 379

COMPUTER SYNTHESIS AND OPTIMIZATION OF JUMPING MOTIONS VIA NONSTATIONARY CONSTRAINTS
Victor A. Sholukha, Anatoly V. Zinkovsky, Alexandre A. Ivanov, St. Petersburg State Technical University, Russia ........................................ 383

MUSCLE ENERGY OF TENNIS-STOPS WITH DIFFERENT MOVEMENT PATTERNS
Manfred M. Vieten, Tobias Dietrich, Hartmut Riehle, University of Konstanz, Germany ........................................................................ 387

SOME PRINCIPLES OF ADEQUACY CRITERIA FORMULATION IN HUMAN MOTION ANALYSIS
Anatoly V. Zinkovsky, Victor A. Sholukha, Alexandre A. Ivanov, St. Petersburg State Technical University, Russia ........................................ 391

TOPIC 3 APPLIED METHODS AND INSTRUMENTATION

KEYNOTE LECTURE

MEASUREMENT AND EVALUATION OF LOADS ON THE HUMAN BODY DURING SPORTS ACTIVITIES
Ewald M. Hennig, Universität-Gesamthochschule Essen, Germany ......................................................... 399

ORAL LECTURES AND POSTER PRESENTATIONS

A FIXED-GOAL TASKS (FGTT) CIRCUIT: A NEW TECHNIQUE TO ASSESS FOOTWEAR INFLUENCE ON CHILDREN'S LOCOMOTOR ABILITY
Enrique Alcántara, Gabriel Brizuela, Elena Ferrús, Juan C. Gonzalez, Ana C. García, Universidad Politécnica de Valencia, Paterna, Spain ................. 404

ANALYSIS OF THE INFLUENCE OF DIFFERENT TREKKING BOOTS ON CHILDREN'S LOCOMOTOR ABILITY
Enrique Alcántara, Gabriel Brizuela, Elena Ferrús, Juan C. Gonzalez, Ana C. García, Universidad Politécnica de Valencia, Paterna, Spain ................. 408

DRIVE UNITS OF BICYCLES - OPTIMIZATION OF CAPACITY
Thomas Angeli, Technische Universität, Wien, Austria ................................................................. 412
DEVELOPMENT OF AN INSTRUMENT TO MEASURE THE "QUASI-STATIC" SENSE OF BALANCE
Ralf Attermeyer, M. Sust, Klaus Nicol, Westfälische Wilhelms-Universität, Münster, Germany ........................................413

THREE-DIMENSIONAL SPORT MOVEMENT ANALYSIS BY MEANS OF FREE FLOATING TV CAMERAS WITH VARIABLE OPTICS

CHILDREN'S PLANTAR PRESSURE DISTRIBUTION MEASUREMENTS: INFLUENCE OF FOOTWEAR
Deyse Borges Machado, Hartmut Riehle, University of Konstanz, Germany, Ewald M. Hennig, Universität-Gesamthochschule Essen, Germany ........................................420

ON - LINE BIOMECHANICAL ANALYSIS
Mohammed G. Brekaa, Tanta University, Egypt, Mohammed A. Bayoumi, Arab Academy of Science and Technology, Alexandria, Egypt ..........................424

A NEW METHOD FOR ASSESSMENT OF FUNCTIONAL STABILITY AT THE KNEE JOINT
Sven Bruhn, Albert Gollhofer, Universität Stuttgart, Germany ........................................428

PORTABLE INSTRUMENT TO ANALYZE DIFFERENT PARAMETERS DURING LONG PERIOD EXERCISES
Gabriele Casadio, Michele Fazzini, Alberto Buratto, Remo Bedini, Buratto Advanced Technology S.r.l. - CNR, Pisa, Italy ..........................432

DETERMINATION OF THE COEFFICIENT OF DRAG OF THREE DIFFERENT TENNIS BALLS USING A WIND TUNNEL
Steve Chadwick, Steve Haake, University of Sheffield, U.K ........................................436

THE IDENTIFICATION OF IMPULSES IN 3-D RECONSTRUCTED DATA USING RECURSIVE FILTERS ON THE ORIGINALLY DIGITIZED 2-D IMAGE DATA
Mark Colpus, University of Leeds, U.K ........................................440

CYCLIST'S PEDALING PARAMETERS USING KINEMATIC AND DYNAMIC MEASUREMENTS AND THE DISCRIMINATIVE VARIABLE ANALYSIS METHOD
Jacky Deslandes, Jean-Pierre Mariot, Bertrand Barbedette, Université du Maine, Institut d'Acoustique et Mécanique, Le Mans, France ..........................444

RELIABLE MEASUREMENT OF THE TRICEPS SURAE STRETCH REFLEX
Ales Dolenec, Vojko Strojnik, Univerza v Ljubljani, Ljubljana, Slovenia ........................................448
HOW TO FIND THE OPTIMAL CUTOFF FREQUENCY FOR FILTERING KINEMATIC DATA
Christian Fink, Rüdiger Preiß, Johann-Wolfgang-Goethe Universität, Frankfurt, Germany, Wolfgang I. Schöllhorn, Universität Leipzig, Germany ..........................451

COMPARISON OF THE PEDAR SYSTEM WITH A FORCE PLATFORM SYSTEM FOR THE ASSESSMENT OF STATIC STABILITY
Reiner Fritsch, Hartmut Riehle, University of Konstanz, Germany ............................................454

ANALYSIS OF THE STABILIZING EFFECT OF THE AIRCAST ANKLE BRACE FOR WALKING ALONG AN INCLINED PLANE
Reiner Fritsch, Silke Däumling, Hartmut Riehle, University of Konstanz, Germany ..........................458

A METHOD FOR AUTOMATIC RELOCATION OF SKIN MARKERS IN REARFOOT MOTION ANALYSIS
Ronaldo Gabriel, Antônio Mourão, Victor Filipe, Filipe Santos, Pedro Melo, J. Bulas-Cruz, Universidade de Trás-os Montes & Alto Douro, Portugal, João Abrantes, Universidade Técnica de Lisboa, Portugal ..................................................462

INSTRUMENTATION AND PADDLE RACKETS
Noé Gomes Borges Jr, José Carlos Pio da Fonseca, Helio Roesler, Universidade do Estado de Santa Catarina, Florianópolis, Brazil ........................................466

TRAINING DELAYED ISOKINETICS IN THE SURGICAL RECONSTRUCTION OF THE ANTERIOR CRUCIATE LIGAMENT: A CASE STUDY
Marcio Innocentini Guaratini, Anamaria Siriani de Oliveira, Universidade Federal de São Carlos, and Universidade Paulista, São Paulo, Brazil, Carlos Eduardó dos Santos Castro, Universidade Federal de São Carlos, Brazil .................................................................469

CORRELATION BETWEEN ELECTROMYOGRAPHIC ACTIVITY AND STRENGTH OF THE FLEXOR MUSCLES OF THE WRIST
R. Guirro, D. Bevilaqua-Grosso, D. Molina, R. Silva, M. I. L. Montebello, UNIMEP, Piracicaba, Brazil, Fausto Bérzin, FOP-UNICAMP, Piracicaba, Brazil ..........................................................473

3-D VIDEO TECHNIQUE FOR ANALYSIS OF ROWING IN A NATURAL ENVIRONMENT
Falk Hildebrand, Volker Drenk, Matthias Kindler, Institut für Angewandte Trainingswissenschaft, Leipzig, Germany .........................................................477

TIME-MOTION ANALYSIS OF ICE-HOCKEY SKILLS DURING GAMES
Dany Lafontaine, Mario Lamontagne, Kelly Lockwood, University of Ottawa, Ottawa, Ontario, Canada ..................................................481
ANALYSIS OF THE DISTRIBUTION OF PRESSURE UNDER THE FEET OF ELITE ALPINE SKI INSTRUCTORS
Dany Lafontaine, Mario Lamontagne, Daniel Dupuis, Binta Diallo,
University of Ottawa, Ottawa, Ontario, Canada

METHODS FOR THE EVALUATION OF EFFECTIVENESS AND ACQUIRED LEVEL OF SHOT PUT TECHNIQUE
Janis Lanka, Latvijas Sporta Pedagogijas Akadēmija, Riga, Latvia

THE TOW-SKIER-SYSTEM-ANALYSIS
Andrij Lavytskyj, Ihor Zanevskyy, Lvivsky Derzhavny Instytut Fizychnoyi Kultury, Lviv, Russia

THE STUDY AND MANUFACTURE OF A 10 METER LARGE-SCALE SIMULATED TRAINING TREADMILL
Wei-ping Li, Fu-shun Cao, Zhen-yu Liu, Ja Gang, Kang Kai, Shandong Research Center of Sports Science, Jinan, Shandong, China

EFFECTS OF COMMERCIALY-AVAILABLE TENNIS SHOES ON MOTOR PERFORMANCE
Salvador Liana, Gabriel Brizuela, Enrique Alcántara, Sara Gil, Ana Cruz García, Universidad Politécnica de Valencia, Paterna, Spain

EPIDEMIOLOGICAL ASPECTS OF TENNIS AND THEIR RELATION WITH FOOTWEAR AND TENNIS COURTS
Salvador Liana, Gabriel Brizuela, Enrique Alcántara, Juan V. Dura, Ana Cruz García, Universidad Politécnica de Valencia, Paterna, Spain

EFFECTS OF FOOTWEAR ON LATERAL BRAKING AND TURNING MOVEMENTS IN TENNIS
Salvador Liana, Gabriel Brizuela, Enrique Alcántara, Arturo Forner, Ana Cruz García, Universidad Politécnica de Valencia, Paterna, Spain

STUDY OF COMFORT ASSOCIATED WITH TENNIS FOOTWEAR
Salvador Liana, Gabriel Brizuela, Enrique Alcántara, Antonio Martínez, Ana Cruz García, Universidad Politécnica de Valencia, Paterna, Spain

THREE-DIMENSIONAL RECONSTRUCTION OF HUMAN MOTION BASED ON IMAGES FROM A SINGLE CAMERA
Gabriel A. D. Lopes, José A. O. Costa, Jorge A. C. Ambrósio, João Abrantes, Universidade Técnica de Lisboa, Portugal

BASIC STEP VS. POWER STEP: PEAK VALUES OF VERTICAL GRF ANALYSIS
Maria Lourdes Machado, João Abrantes, Universidade Técnica de Lisboa, Portugal
EXPLORING HUMAN ADAPTATION USING ULTRASONIC MEASUREMENT TECHNIQUES AND OPTIMIZED, DYNAMIC HUMAN NECK MODELS
Shawn McGuan, Mechanical Dynamics Inc., Irvine, USA, Arnd Friedrichs, Friedrich-Schiller-Universität, Jena, Germany ................................................................. 522

INTRA-INDIVIDUAL DIFFERENCES OF MOVEMENT PATTERNS IN THE JAVELIN THROW
Hans-Joachim Menzel, Universidade Federal de Minas Gerais, Belo Horizonte, Brazil ................................................................. 525

DETERMINING THE FUNCTIONS UPON WHICH FORCE GENERATION VELOCITY AND ITS DIMENSIONS ARE CHANGED IN LEG EXTENSORS
Milenko Milosevic, Miroljub Blagojevic, Milivoj Dopsaj, Police Academy, Belgrade, Yugoslavia ................................................................. 529

A CASE STUDY OF APPLYING CAI TO UKEMI PRACTICE IN JUDO
Naotoshi Minamitani, Hokuriku University, Hiro Yamamoto, Kanazawa University, Komatsu, Japan ................................................................. 533

ELECTROMYOGRAPHIC ACTIVITY OF THE VASTUS MEDIALIS OBLIQUE AND VASTUS LATERALIS LONGUS MM. DURING OPEN AND CLOSED KINETIC CHAIN EXERCISES
Vanessa Monteiro-Pedro, Fausto Bérzin, Débora Bevilaqua-Grosso, Ivana A. Gil, Fábio Viadanna Serrão, Cristina M. Nunes Cabral, Rodrigo J. B. Gardelin, Mathias Vitti, Universidade Federal de São Carlos, and Universidade Estadual de Campinas, Brazil ................................................................. 536

TESTING SPORTS SHOES USING AN INDUSTRIAL ROBOT
Bojan Nemec, Michele Leonardi, Jozef Stefan Institute, Ljubljana, Slovenia ... 540

FORCE AND MOMENT MEASUREMENTS DURING ALPINE SKIING DEPENDING ON HEIGHT POSITION
Wolfgang Niessen, E. Müller, Hermann Schwameder, Universität Salzburg, Austria, M. A. Wimmer, AO Research Institute, Switzerland, B. Riepler, Atomic GmbH, Austria ................................................................. 544

INFLUENCE OF VELOCITY ON THE ANTICIPATORY POSTURAL ADJUSTMENTS IN AN ACROBATIC MOVEMENT
Philippe Nouillot, Université Paris Sud, Orsay, France, Françoise Natta, Institut National du Sport et de l'Éducation Physique, Paris, France ................................................................. 548

VERTICAL SURFACE REACTION FORCES DURING LANDING MOVEMENTS ON HARD AND ELASTIC GYMNASIUM SURFACES
Klaus Peikenkamp, M. van Husen, Klaus Nicol, Westfälische Wilhelms-Universität, Münster, Germany ................................................................. 552
MAXIMAL THEORETICAL STRENGTH: METHODOLOGY AND APPLICATIONS
Giancarlo Pellis, G. Stupar, G. Primossi, A. Gombacci, Sports Medicine Institute FMSI-CONI, Trieste, Italy ................................................................. 556

DETERMINATION OF INERTIA ELEMENTS FOR THE LOWER LIMBS
Georges Poumarat, R. Chandezon, Université Blaise Pascal Clermont-Ferrand II, Aubière, France, G. Vanneuville, S. Tervers, Université d’Auvergne, Aubière, France ................................................................. 557

THE COMPLEX USE OF COMPUTER AND VIDEO FOR KINEMATIC STUDIES
Leonid Rapoport, Anna Shishkina, Uralskij Gosudarstvennyj Tekhnicheskij Universitet, Ekaterinburg, Russia ................................................................. 558

DEVELOPMENT OF AN UNDERWATER PLATFORM FOR MEASUREMENTS ON ALL COORDINATE AXES FOR BIOMECHANICAL APPLICATIONS
Helio Roesler, Jose Carlos Pio da Fonseca, Universidade do Estado de Santa Catarina, Florianópolis, Brazil, Alberto Tamagna, Universidade Federal do Rio Grande do Sul, Porto Alegre, Brazil ................................................................. 559

MICROCOMPUTER SYSTEM (VARIACARDIO TF4) DESIGNED FOR THE DIAGNOSTICS OF HEART RATE VARIABILITY DURING HUMAN MOVEMENT
Jiri Salinger, Rostislav Vychodil, Frantisek Vaverka, Miroslav Janura, Pavel Stejskal, Jaroslav Opavsky, Univerzita Palackeho v Olomouci, Olomouc, Czech Republic, Stanislav Olsak, Military Sport Club DUKLA of the Slovak Republic, Slovak Republic ................................................................. 563

AN INTEGRATED METHOD TO OBTAIN THREE-DIMENSIONAL COORDINATES USING PANNING AND TILTING VIDEO CAMERAS
Gerald Scheirman, John Porter, Michael Leigh, Dennis Musick, Peak Performance Technologies, Inc., Englewood, CO, USA ................................................................. 567

SYSTEMATIC ERRORS IN DETERMINING THE CENTER OF PRESSURE (COP) WITH FORCE PLATES DEPENDING ON THE LOAD DISTRIBUTION
Heinz-Bodo Schmiedmayer, Technische Universität, Wien, Austria, Josef Kastner, Forschungsinstitut für Orthopädietechnik, Wien, Austria ................................................................. 570

IDENTIFYING INDIVIDUAL MOVEMENT STYLES IN HIGH PERFORMANCE SPORTS BY MEANS OF SELF-ORGANIZING KOHONEN MAPS
Wolfgang I. Schöllhorn, Universität Leipzig, Germany, Hans Ulrich Bauer, Max-Planck-Institut, Göttingen, Germany ................................................................. 574
MEASURING DEVICE FOR ON-LINE CALCULATING AND SCREENING OF KNEE JOINT FORCES
Hermann Schwameder, Robin Roithner, Erich Müller, Wolfgang Niessen, Christian Raschner, Universität Salzburg, Austria .......................................................... 578

ANTHROPOMETRICAL DIFFERENCES BETWEEN CHINESE AND GERMANS
Gong B. Shan, Klaus Nicol, Westfälische Wilhelms-Universität, Münster, Germany .................................................................................................................. 582

METHOD OF IMPROVING TECHNICAL ACTION IN ARCHERY
Bohdan Vinogradskij, Lvivsky Derzhavny Instytut Fizychnoi Kultury, Lviv, Ukraine .............................................................................................................. 586

ACCURACY OF DIGITIZATION USING AUTOMATED AND MANUAL METHODS
Daniel J. Wilson, Bryan K. Smith, J. Kyle Gibson, Byung K. Choe, Brenda C. Gaba, John T. Voelz, University of Missouri-Columbia, Columbia, USA ...... 590

Index ........................................................................................................................................................................... 595
