

LOW AND HIGH FREQUENCY ASYMPTOTICS

Volume 2 in
Acoustic, Electromagnetic and Elastic Wave Scattering

Edited by

V.K. VARADAN AND V.V. VARADAN

Contents

Preface	v
Introduction.	ix
 Chapter 1. Rayleigh Scattering	
<i>by R.E. Kleinman and T.B.A. Senior</i>	1
1. Introduction	2
2. Definitions, Formulation and Representations	3
3. Perfectly Conducting Body	19
4. Perfectly Conducting Flat Plate	33
5. Homogeneous Dielectric Body	39
6. Homogeneous Dispersive Bodies	49
7. Acoustically Soft, Hard and Penetrable Bodies	53
Acknowledgement.	68
References	68
 Chapter 2. Matched Asymptotic Expansions Applied to Diffraction of Elastic Waves	
<i>by S.K. Datta and F.J. Sabina</i>	71
1. Introduction and General Formulation	72
2. Diffraction of SH Waves in Two Dimensions.	77
3. Diffraction of P and SV Waves in Two Dimensions	120
4. Diffraction of Elastic Waves in Three Dimensions	172
5. Diffraction by a Semi-Infinite Boundary of Finite Width	215
6. Concluding Remarks and References to Some Related Works	228
Acknowledgement.	229
Appendix A.	229
Appendix B.	231
Appendix C.	248
Appendix D.	258
References	260
 Chapter 3. A Uniform GTD Approach to EM Scattering and Radiation	
<i>by R.G. Kouyoumjian and P.H. Pathak</i>	265
1. Introduction.	266
2. Formulation of the Method.	266
3. Edge Diffraction and Its Application	277
4. Diffraction at a South Convex Surface	295
References	333
 Chapter 4. Edge Diffraction in Acoustics and Elastodynamics	
<i>by J.D. Achenbach and A.K. Gautesen</i>	335
1. Introduction	336
2. Governing Equations.	337
3. Ray Theory	343

4. Edge Diffraction	353
5. Example: 2D Scattering of a Plane Wave by a Crack	387
6. Discussion of Matched Asymptotic Expansions	396
7. Concluding Remarks	398
Acknowledgement	399
References	399
 Chapter 5. Hybrid Ray Mode Analysis of Transient Scattering by <i>L.B. Felsen and E. Heyman</i>	403
1. Introduction	404
2. Guided Waves Along Curved Boundaries	410
3. SEM Resonances and Guided Waves for Transient Scattering	461
4. Conclusions	494
Acknowledgement	495
Appendix A	495
Appendix B	496
Appendix C	503
Appendix D	505
Appendix E	507
Appendix F	508
References	511
 Author Index	513
 Subject Index	517
