Contents

Preface xi

Chapter 1 Introduction and Historical Perspective

1.1 Introduction 1
1.2 The Historical Perspective 7

Chapter 2 The Definition of Seasonality

2.1 Introduction 15
2.2 Some Seasonal Models and Their Characteristics 15
2.3 The Definition of Seasonality 21
2.4 Some Illustrative Examples 23
2.5 Conclusions 35

Chapter 3 Evaluation Criteria for Seasonal Adjustment Procedures

3.1 Introduction 36
3.2 Evaluation Criteria for Seasonal Adjustment Procedures 37
3.3 Conclusions 44

Chapter 4 The Errors-in-Variables Model

4.1 Introduction 45
4.2 The Errors-in-Variables Model 45
4.3 Estimation, Diagnostic Checking, and Inference 53
4.4 Applications 80
4.5 Conclusions 87

Chapter 5 The Errors-in-Variables Model: Application of Officially Adjusted Series

5.1 Introduction 88
5.2 Officially Applied Seasonal Adjustment Methods 89
5.3 A General Evaluation of Officially Applied Seasonal Adjustment Methods 95
5.4 An Evaluation in the Context of a Regression Model 99
5.5 Applications 115
5.6 Conclusions 119

Chapter 6 The Time-Varying Parameter Model

6.1 Introduction 120
6.2 Models with Seasonally Varying Coefficients 121
6.3 Estimation, Diagnostic Checking, and Inference 125
6.4 Applications 138
6.5 Conclusions 158

Chapter 7 The Integrated Econometric Time-Series Procedure

7.1 Introduction 160
7.2 The Basic Models 161
7.3 Estimation, Diagnostic Checking, and Inference 170
7.4 Applications 193
7.5 Conclusions 212

Chapter 8 Conclusions

8.1 Introduction 214
8.2 The Errors-in-Variables Approach 215
8.3 The Time-Varying Parameters Approach 216
8.4 The Integrated Approach 217

Appendix A **Other Officially Applied Seasonal Adjustment Methods: A Survey** 221

Appendix B **The Autocovariance Generating Functions of ARMA Models** 227

Appendix C **A Tool Kit for the Formulation of Univariate and Multivariate Time-Series Models** 229

Appendix D **A Collection of Time Series Used in the Applications** 240
