List of figures	viii
List of tables	x
List of boxes	xi
Preface	xiii
Acknowledgements	xv
Introduction	xvii
<b>1 Urban sanitation – problems and responses</b>	<b>1</b>
Rapid urbanization, poor sanitation and their consequences	1
Why improve sanitation?	3
Current responses to sanitation problems	5
Three models of sanitation improvement	7
Moving beyond narrowly defined models	9
<b>2 A strategic framework for urban sanitation planning</b>	<b>12</b>
What we mean by the terms ‘strategic’ and ‘strategic planning’	12
Three key questions that help to define a strategic process	13
Principles for effective strategic planning	16
<b>3 Strategic sanitation planning in towns and cities</b>	<b>25</b>
The development of a strategic model – the Bharatpur pilot process	25
Stages in the development of a strategic plan	31
Preparing to plan	32
Understanding current problems	33
Developing solutions	35
Developing the city-wide plan	42
Next steps	46
<b>4 Developing a supportive context</b>	<b>48</b>
Municipal planning in context	48
Four barriers to improved sanitation	49
Raising the profile of sanitation	50
Developing a commitment to strategic planning	51
Developing a supportive policy context	52
Increasing capacity to produce and implement strategic plans	61

<b>5</b>	<b>Developing a strategic process from the local level</b>	<b>67</b>
	Three approaches to planning at the local level	67
	Community initiated sanitation – the case of Pakistan	68
	A process for planning at the local level	73
	Preparation stage	74
	The planning workshop	77
	Developing solutions	80
	The sanitation plan	83
	Moving beyond the local level	84
<b>6</b>	<b>The role of sanitation and hygiene promotion in developing and informing demand</b>	<b>88</b>
	Sanitation and hygiene promotion and the links between them	88
	Where are we now? Assessing current sanitation and hygiene practice	89
	Planning a promotion campaign	94
	Deciding on appropriate media for promotion	97
	Some points on promotion materials	97
	Implementing the programme	98
	Creating an enabling environment	99
	Funding options for sanitation and hygiene promotion	100
<b>7</b>	<b>Gathering and using information for strategic planning</b>	<b>102</b>
	Information and planning processes	102
	Types of information	103
	Information requirements	103
	The importance of triangulation	106
	Sources of information	106
	Recording, analysing and presenting information	107
	Information for local and municipal plans	108
	Developing an integrated information base	118
	Information for policy makers and programme planners	120
<b>8</b>	<b>Choosing an appropriate sanitation technology</b>	<b>125</b>
	Approaches to sanitation selection	125
	Categories of sanitation technology	126
	A step-wise procedure for sanitation choice	126
	Costing viable sanitation options	132
	Estimating the cost of a networked system	134
	Recurrent costs	135
	Willingness to pay for improved sanitation services	136
	Approaches to estimating willingness to pay	137
	Options for reducing costs	139

<b>9</b>	<b>Guidelines for holding a participatory workshop</b>	<b>144</b>
	How and when can workshops be used?	144
	Preparing for the workshop	144
	Preparing information to present to the workshop	147
	Workshop logistics	148
	The workshop itself	153
	Recording the outputs of the workshop	156
<b>10</b>	<b>Implementing the plan</b>	<b>158</b>
	First steps	158
	Developing detailed proposals	159
	Options for supervision and implementation	164
	The need for formal agreements	168
	Monitoring the progress of the plan	169
	Assessment	171
	Sharing experience	172
	<b>Appendices</b>	
	1 Links between sanitation and health	177
	2 Summary information on sanitation technologies	183
	3 Participatory methods for assessing sanitation conditions	196
	4 Sources of further information	203
	<b>Glossary</b>	<b>213</b>
	<b>References</b>	<b>215</b>
	<b>Index</b>	<b>219</b>
