# CONTENTS

---

**Preface**    **xiii**

**Acknowledgments**    **xv**

---

**Chapter 1. Introduction** **1.1**

---

- 1.1. Geotechnical Engineer / 1.1
- 1.2. Engineering Geologist / 1.6
- 1.3. Typical Clients / 1.9
- 1.4. Example / 1.10
- 1.5. Outline of Chapters / 1.16

**Part 1 Development of Programs of Geotechnical Investigation**

---

**Chapter 2. The Assignment** **2.3**

---

- 2.1. Preliminary Information / 2.3
- 2.2. Type of Project / 2.3
- 2.3. Project Requirements / 2.11

---

**Chapter 3. Proposal and Planning the Work** **3.1**

---

- 3.1. Proposal / 3.1
  - 3.1.1. Cost Estimate / 3.1
  - 3.1.2. Engineer's Agreement with the Client / 3.4
- 3.2. Planning the Work / 3.5
  - 3.2.1. Technical Guidelines / 3.6

**Part 2 Geotechnical Field and Laboratory Studies**

---

**Chapter 4. Field Exploration** **4.3**

---

- 4.1. Introduction / 4.3
- 4.2. Document Review / 4.4
- 4.3. General Purpose of Subsurface Exploration / 4.12

- 4.4. Borings / 4.17
  - 4.4.1. Soil Sampling / 4.21
  - 4.4.2. Field Tests / 4.25
  - 4.4.3. Boring Layout / 4.35
  - 4.4.4. Depth of Subsurface Exploration / 4.38
- 4.5. Test Pits and Trenches / 4.39
- 4.6. Preparation of Logs / 4.43
- 4.7. Role of the Engineering Geologist / 4.43
  - 4.7.1. Geophysical Techniques / 4.47
- 4.8. Subsoil Profile / 4.53
- Problems / 4.54

---

## **Chapter 5. Laboratory Testing**

5.1

- 5.1. Introduction / 5.2
- 5.2. Common Laboratory Tests / 5.3
  - 5.2.1. Index Tests / 5.3
  - 5.2.2. Oedometer / 5.6
  - 5.2.3. Shear Strength Tests / 5.8
  - 5.2.4. Permeability / 5.15
  - 5.2.5. Laboratory Tests for Pavements and Deterioration / 5.18
- 5.3. Sample Disturbance / 5.20
- 5.4. Soil Classification / 5.21
  - 5.4.1. Particle Size and Description / 5.25
  - 5.4.2. Clay Mineralogy / 5.29
  - 5.4.3. Unified Soil Classification System / 5.34
  - 5.4.4. Classification Based on Plasticity / 5.38
- 5.5. Rock Classification / 5.43
- Problems / 5.45

## **Part 3 Analysis of Geotechnical Data and Engineering Computations**

---

### **Chapter 6. Basic Geotechnical and Foundation Principles**

6.3

- 6.1. Introduction / 6.5
- 6.2. Phase Relationships / 6.5
- 6.3. Effective Stress / 6.10
- 6.4. Stress Distribution / 6.12
- 6.5. Shear Strength / 6.23
  - 6.5.1. Cohesionless Soil / 6.23
  - 6.5.2. Cohesive Soil / 6.27
  - 6.5.3. Total Stress and Effective Stress Analyses / 6.45
- 6.6. Permeability and Seepage / 6.46
- Problems / 6.58

---

### **Chapter 7. Settlement of Structures**

7.1

- 7.1. Introduction / 7.2
- 7.2. Allowable Settlement / 7.3
- 7.3. Collapsible Soil / 7.8
- 7.4. Settlement of Cohesive and Organic Soils / 7.16
  - 7.4.1. Immediate or Initial / 7.16

- 7.4.2. Primary Consolidation / 7.19
- 7.4.3. Secondary Compression / 7.32
- 7.5. Settlement of Cohesionless Soil / 7.33
- 7.6. Other Common Causes of Settlement / 7.36
  - 7.6.1. Limestone Cavities or Sinkholes / 7.37
  - 7.6.2. Underground Mines and Tunnels / 7.37
  - 7.6.3. Subsidence Due to Extraction of Oil or Groundwater / 7.38
  - 7.6.4. Landfills and Decomposition of Organic Matter / 7.39
- 7.7. Selection of Foundation Type / 7.42
  - 7.7.1. Shallow Foundations / 7.43
  - 7.7.2. Deep Foundations / 7.46
- Problems / 7.49

---

## Chapter 8. Bearing Capacity

8.1

- 8.1. Introduction / 8.2
- 8.2. Bearing Capacity for Shallow Foundations / 8.7
  - 8.2.1. Bearing Capacity for Cohesionless Soil / 8.9
  - 8.2.2. Bearing Capacity for Cohesive Soil / 8.10
  - 8.2.3. Other Bearing Capacity Considerations / 8.12
- 8.3. Bearing Capacity for Deep Foundations / 8.14
  - 8.3.1. Bearing Capacity for Cohesionless Soil / 8.16
  - 8.3.2. Bearing Capacity for Cohesive Soil / 8.20
- 8.4. Pavement Design / 8.23
  - 8.4.1. Pavement Section / 8.23
  - 8.4.2. California Method / 8.24
- Problems / 8.28

---

## Chapter 9. Expansive Soil

9.1

- 9.1. Introduction / 9.1
  - 9.1.1. Expansive Soil Factors / 9.2
  - 9.1.2. Laboratory Testing / 9.4
- 9.2. Swelling of Desiccated Clay / 9.7
  - 9.2.1. Identification of Desiccated Clay / 9.7
  - 9.2.2. Hydraulic Conductivity and Rate of Swell / 9.10
- 9.3. Types of Expansive Soil Movement / 9.12
  - 9.3.1. Lateral Movement / 9.12
  - 9.3.2. Vertical Movement / 9.13
  - 9.3.3. Effect of Vegetation / 9.14
- 9.4. Foundation Design for Expansive Soil / 9.16
  - 9.4.1. Conventional Slab-on-Grade Foundation / 9.16
  - 9.4.2. Posttensioned Slab-on-Grade / 9.16
  - 9.4.3. Pier and Grade Beam Support / 9.21
  - 9.4.4. Other Treatment Alternatives / 9.23
- 9.5. Pavements and Flatwork / 9.23
- 9.6. Construction on Expansive Rock / 9.32
- Problems / 9.34

---

## Chapter 10. Slope Stability

10.1

- 10.1. Typical Types of Slope Movement / 10.1
- 10.2. Allowable Lateral Movement / 10.2
- 10.3. Rockfall / 10.4

- 10.4. Surficial Slope Stability / 10.10
- 10.5. Gross Slope Stability / 10.27
- 10.6. Landslides / 10.35
- 10.7. Debris Flow / 10.48
- 10.8. Slope Softening and Creep / 10.53
- 10.9. Dams / 10.59
  - 10.9.1. Large Dams / 10.59
  - 10.9.2. Small Dams / 10.62
  - 10.9.3. Landslide Dams / 10.63
- Problems / 10.63

---

**Chapter 11. Earthquakes**

11.1

- 11.1. Introduction / 11.1
- 11.2. Earthquakes / 11.3
  - 11.2.1. Fault and Ground Rupture Zone / 11.3
  - 11.2.2. Liquefaction / 11.5
  - 11.2.3. Slope Movement and Settlement / 11.12
  - 11.2.4. Translation and Rotation / 11.12
- 11.3. Estimating Earthquake Ground Movement / 11.12
- 11.4. Selection of Foundation Type / 11.15
- Problems / 11.17

---

**Chapter 12. Erosion**

12.1

- 12.1. Introduction / 12.1
- 12.2. Principles of Erosion Control / 12.3
- 12.3. Erosion-Prone Landforms / 12.13
  - 12.3.1. Sea Cliffs / 12.16
  - 12.3.2. Badlands / 12.17
- Problems / 12.18

---

**Chapter 13. Deterioration**

13.1

- 13.1. Introduction / 13.1
- 13.2. Sulfate Attack of Concrete / 13.1
- 13.3. Pavement Deterioration / 13.7
- 13.4. Frost / 13.8
- 13.5. Tree Roots / 13.9
- 13.6. Historic Structures / 13.10

---

**Chapter 14. Unusual Soil**

14.1

- 14.1. Introduction / 14.1
- 14.2. Examples of Unusual Soil / 14.1
- 14.3. Case Study of Unusual Soil / 14.5

---

**Chapter 15. Retaining Walls**

15.1

- 15.1. Introduction / 15.1
- 15.2. Basic Retaining Wall Analyses / 15.3

- 15.2.1. Simple Retaining Wall without Wall Friction / 15.3
- 15.2.2. Simple Retaining Wall with Wall Friction / 15.7
- 15.3. Design and Construction of Retaining Walls / 15.13
- 15.4. Restrained Retaining Walls / 15.19
- 15.5. Mechanically Stabilized Earth Retaining Walls / 15.22
- 15.6. Sheet Pile Walls / 15.35
- 15.7. Temporary Retaining Walls / 15.43
  - 15.7.1. Braced / 15.43
  - 15.7.2. Steel I beam and Wood Lagging / 15.45
  - 15.7.3. Utility Trench Shoring / 15.45
- 15.8. Pier Walls / 15.49
- Problems / 15.59

## **Chapter 16. Groundwater and Moisture Migration**

16.1

- 16.1. Introduction / 16.1
- 16.2. Groundwater / 16.2
  - 16.2.1. Pavements / 16.3
  - 16.2.2. Slopes / 16.4
- 16.3. Moisture Migration through Floor Slabs / 16.9
  - 16.3.1. Design and Construction Details / 16.12
- 16.4. Moisture Migration through Basement Walls / 16.15
  - 16.4.1. Types of Damage / 16.15
  - 16.4.2. Design and Construction Details / 16.18
- 16.5. Surface Drainage / 16.19
- 16.6. Pipe Breaks and Clogs / 16.19
- 16.7. Percolation Tests for Sewage Disposal System / 16.22
- Problems / 16.24

## **Part 4 Performance or Engineering Evaluation of Construction**

### **Chapter 17. Grading**

17.3

- 17.1. Introduction / 17.3
- 17.2. Grading Specifications / 17.4
- 17.3. Compaction Fundamentals / 17.7
  - 17.3.1. Laboratory Compaction Testing / 17.8
  - 17.3.2. Field Compaction / 17.9
  - 17.3.3. Relative Compaction / 17.13
- 17.4. Types of Fill / 17.14
- 17.5. Utility Trench and Backfill Compaction / 17.18
- 17.6. Pumping / 17.22
- 17.7. Adjacent Property Damage / 17.23
- Problems / 17.27

### **Chapter 18. Construction Services**

18.1

- 18.1. Introduction / 18.1
- 18.2. Monitoring / 18.4
- 18.3. Observational Method / 18.7
- 18.4. Underpinning / 18.10

## Part 5 Preparation or Engineering Evaluation of Geotechnical Reports

### Chapter 19. Reports

19.3

- 
- 19.1. Introduction / 19.3
  - 19.2. Preparation of Reports and File Management / 19.4
    - 19.2.1. Report Preparation / 19.4
    - 19.2.2. Daily Field Reports / 19.5
    - 19.2.3. File Management / 19.6
    - 19.2.4. Examples of Poor File Management / 19.6
  - 19.3. Engineering Jargon, Superlatives, and Technical Words / 19.7
    - 19.3.1. Engineering Jargon / 19.7
    - 19.3.2. Superlatives / 19.8
    - 19.3.3. Technical Words / 19.9
  - 19.4. Engineering Evaluation of Geotechnical Reports / 19.9
  - 19.5. Strategies to Avoid Civil Liability / 19.10
    - 19.5.1. Assessing Risk / 19.11
    - 19.5.2. Insurance / 19.12
    - 19.5.3. Limitation of Liability Clauses / 19.12

### APPENDIXES

- 
- Appendix A. Glossary / A.1
    - Introduction / A.1
    - Glossary 1 Engineering Geology and Subsurface Exploration Terminology / A.3
    - Glossary 2 Laboratory Testing Terminology / A.8
    - Glossary 3 Terminology for Engineering Analysis and Computations / A.12
    - Glossary 4 Construction and Grading Terminology / A.17
  - Appendix B. Technical Guidelines for Soil and Geology Reports / B.1
  - Appendix C. Example of Grading Specifications / C.1
  - Appendix D. Percolation Test Procedure / D.1
  - Appendix E. Example of a Preliminary Geotechnical Report / E.1
  - Appendix F. Solution to Problems / F.1
  - Appendix G. References / G.1
  - Index / I.1
