Information Evaluation in Capital Markets

Fachbereich Mathematik
Technische Hochschule Darmstadt
Bibliothek

Inv.-Nr. B 20 829

Springer-Verlag
Berlin Heidelberg New York Tokyo

TABLE OF CONTENTS

Preface	III
Used Symbols	VII
1. Introduction and Summary	1
1.1 Portfolio Planning and Capital Market Models as Problems of Decision Theory	1
1.2 Information and Information Evaluation	8
1.3 Results	12
1.4 Literature Survey for the Treatment of the Information Evaluation Problems in the Capital Market Theory	14
2. Information Processing and Information Evaluation without Considering the Information Effected Price Changes: The Portfolio Approach	21
2.1 The Hybrid Model	21
2.2 Extensions of the Hybrid Model for the Case of Not Completely Known Prior Data	28
2.2.1 Risk Situation with Regard to the Prior Parameters: A Two-Level Bayes Approach	29
2.2.2 Risk Situation with Regard to the Prior Parameters: Lin's Approach	31
2.2.3 Partial Uncertainty with Regard to the Prior Parameters	34
2.3 Information Systems	40
2.4 Information Evaluation	46
2.4.1 The Expected Value of Information and the Amount of Information in the Hybrid Model	46
2.4.2 Unbiased, Normally Distributed Estima- tors in the Hybrid Model	48
2.4.3 Unbiased, Normally Distributed Estima- tors if a Risk Situation with Regard to the Prior Parameters is Assumed	53
2.4.4 Information Evaluation if Partial Un- certainty with Regard to the Prior Parameters is Assumed	57
3. Information Processing and Information Evaluation if Information Effected Changes of the Equilibrium Prices are Considered	62
3.1 Capital Market Equilibrium for Heterogeneous Expectations	62
3.2 Information Systems	66
3.3 Information Evaluation	70
4. Appendix	87
Index	93
References	94
