<i>Preface</i>	xiii

PART I INTRODUCTION

1 Social Statics and Social Dynamics	3
Social statics and social dynamics	4
The significance of dynamic theory	6
How general is dynamic-strategy theory?	7
Some definitions	7
The book's strategy	10
2 A Realist Dynamic Theory	12
A longrun dynamic model	12
The dynamic outcome – economic fluctuations	16
The mechanism of strategic struggle	17
Strategic policy	19
Conclusions	21

PART II DYNAMIC APPROACHES

3 Growth Theory	25
The classical model	25
The Keynesian growth model	31
Neoclassical growth models	34
Conclusions	48
4 Evolutionary Theory	50
Evolutionary institutionalism	51
Modern evolutionary institutional economics	53
The new evolutionary economics	61
Conclusions	66
5 Strategic Theory	67
Emergence of modern scientific method	67
The 'problem' of both induction <i>and</i> deduction	68

Why have the deductivists triumphed?	70
A new approach to induction	74
Conclusions	77

PART III DYNAMIC ORDER

6 From the Invisible Hand to No Hand at All	81
The invisible hand	82
Spontaneous order	84
The taming of chaos	85
The enlightened intellectual	87
General equilibrium theory	87
Conclusions	88
7 The Strategic Principle of Dynamic Order	89
The real nature of institutions and organizations	89
Changes in institutions and organizations	93
Conclusions	96

PART IV THE DRIVING FORCE

8 The Passive Nature of <i>Homo Economicus</i>	99
Orthodox models of human decision-making	99
A driving force?	104
Conclusions	108
9 The Dynamic Nature of 'Materialist Man'	109
The driving force	109
The strategic-imitation model of decision-making	113
The role of rules	122
Conclusions	125

PART V THE DYNAMIC MECHANISM

10 A Realistic Dynamic Form	129
The steady state – an artificial concept	129
The strategic pathway – a new dynamic form	130
Conclusions	140
11 Strategic Demand and the Growth-Inflation Curve	141
A new concept of demand	141
Strategic demand and strategic response	145
Evidence for the strategic demand-response mechanism	151
Conclusions	159

12	The Dynamic-Strategy Model Revisited	160
	The driving force	160
	The dynamic mechanism	161
	Strategic demand and strategic confidence	163
	Strategic demand and strategic response	164
	Conclusions	165
 PART VI THE DYNAMIC OUTCOME		
13	The Orthodox Explanation of Fluctuations	169
	The new Keynesian economics	170
	Evaluating business-cycle theory	175
	The new classical economics	182
	Conclusions	185
14	The Strategic Explanation of Fluctuations	186
	The model	186
	An application: England, 1000–2000	195
	Conclusions	199
 PART VII POLITICS AND POLICY		
15	The New Political Economy	203
	An overview	203
	Public choice theory	204
	Collective-action theory	205
	The new institutional theory	208
	Evaluating the new political economy	209
	Conclusions	212
16	The Strategic Model of Politics and Policy	213
	The model	213
	An application: England, 1000–2000	221
	Conclusions	230
17	The General Principles of Strategic Policy	232
	Orthodox policy	232
	Strategic policy	240
	Conclusions	244
