

# Lecture Notes in Physics

Edited by J. Ehlers, Austin, K. Hepp, Zürich and  
H. A. Weidenmüller, Heidelberg  
Managing Editor: W. Beiglböck, Heidelberg

**Physikalische Bibliothek**

Fachbereich 5

Technische Hochschule Darmstadt

Hochschulstraße 2

**D-6100 Darmstadt**

7

R. Balescu, J. L. Lebowitz,  
I. Prigogine, P. Résibois, Z. W. Salsburg

## Lectures in Statistical Physics

From the Advanced School for Statistical  
Mechanics and Thermodynamics  
Austin, Texas USA

Compiled by W. C. Schieve, M. G. Velarde, A. P. Grecos  
Center for Statistical Mechanics and Thermodynamics,  
University of Texas, Austin, Texas USA

Springer-Verlag

Berlin · Heidelberg · New York 1971

## CONTENTS

### ENTROPY AND DISSIPATIVE STRUCTURE by Ilya Prigogine

|      |   |    |
|------|---|----|
| I.   | Introduction.....                       | 1  |
| II.  | Stability of Thermodynamic Systems..... | 3  |
| III. | Chemical Examples.....                  | 9  |
|      | References.....                         | 18 |

### PHASE TRANSITIONS by Zevi W. Salsburg

|      |   |    |
|------|---|----|
|      | Foreword.....                                     | 20 |
| I.   | Classical Description of Phase Transitions.....   | 21 |
| II.  | Statistical Mechanics of Phase Transitions.....   | 32 |
| III. | Absence of Long Range Order in One Dimension..... | 45 |
| IV.  | Landau Crystalline Stability Theory.....          | 49 |
| V.   | Long Range Crystalline Order.....                 | 54 |
|      | References.....                                   | 71 |

### DYNAMICAL EFFECTS AT THE CRITICAL POINT IN FLUIDS AND MAGNETS by Pierre Réshibois

|      |   |     |
|------|---|-----|
|      | Foreword.....   | 76  |
| I.   | Equilibrium Properties and Introduction.....  | 77  |
| II.  | A Phenomenological Approach: Hydrodynamical Description<br>of Density-Density Fluctuations in a Fluid.....  | 90  |
| III. | Another Phenomenological Point of View: Dynamical<br>Scaling.....   | 99  |
| IV.  | The Semi-Microscopic Approach: The Theory of Kadanoff<br>and Swift.....                                     | 109 |
| V.   | The Microscopic Model: Time Dependent Fluctuations of<br>the Heisenberg Spin System in the Weiss Limit..... | 122 |
|      | References.....   | 134 |

### SOME EXACT RESULTS IN EQUILIBRIUM AND-NON EQUILIBRIUM STATISTICAL MECHANICS by J. L. Lebowitz

|      |   |     |
|------|---|-----|
| I.   | Introduction.....                         | 136 |
| II.  | Existence of the Thermodynamic Limit..... | 137 |
| III. | Phase Transitions.....                    | 142 |
| IV.  | Non-Equilibrium Systems.....              | 144 |
|      | References.....                           | 148 |

### INTRODUCTION TO NON-EQUILIBRIUM STATISTICAL MECHANICS by Radu Balescu

|      |                              |     |
|------|------------------------------|-----|
| I.   | The Liouville Equation.....  | 149 |
| II.  | Vacuum and Correlations..... | 159 |
| III. | The Master Equation.....     | 163 |
| IV.  | The Weakly-Coupled Gas.....  | 168 |
| V.   | Asymptotic Dynamics.....     | 175 |
|      | References.....              | 181 |
