Betriebswirtschaftslehre

Inventar-Nr. : 32.101

Abstell-Nr. : A.14.16.77

Sachgebiete: 1.6.4

9.3.3.6

CONTENTS

Chapter 1. Introduction	1
Problem Setting	1
Study Objective	7
Organization	8
Chapter 2. Regional Development Concepts and Information Needs	11
Introduction	11
Regional Development Theories	12
Spatial Information Context	15
Temporal Information Context	20
General Structure of the Model	22
Chapter 3. The Demographic and Employment Models	25
Introduction	25
Demographic Sector	26
Employment Sector	35
Chapter 4. The Factor Input, Income and Resource Models	57
Introduction	57
Capital Sector	58
Labor Sector	62
Income Sector	71
Water Sector	76

Chapter 5. Application of the Simulation Model	83
Introduction	83
Model Verification	84
Base Run	87
Experimental Run	100
Spatial Context	104
Chapter 6. Summary and Conclusions	109
Procedural Summary	109
Summary of Results	111
Extensions and Concluding Remarks	113
Appendix. Estimation Methods	121
Migration of Dependent Cohorts	121
Estimation of Income	122
References	125
Index	129
