Contents

Preface	ix
1 Orientation	1
1.1 What Is a Game and Is Life One?	1
1.2 Games This Book Is Not About	5
1.3 The Interdisciplinary Nature of Game Theory	8
2 The Language of Games	11
2.1 Verbal and Matrix Descriptions	12
2.2 Tree Descriptions	14
2.3 The Variable-Sum Games of Life	19
2.4 Translating Trees into Matrices	26

3	Solutions: Two-Person, Zero-Sum Games	33
3.1	The Concept of Solution	34
3.2	Preferences	36
3.2.1	The Ordinal Scale	36
3.2.2	The Interval Scale	38
3.3	Principles of Maximizing	42
3.4	Probabilistic Strategies and a Solution	47
3.5	Solutions to Bigger Games	57
3.5.1	Winning Strategy Translated from Tree to Matrix	57
3.5.2	Removing Dominated Strategies	58
3.5.3	The Maximin Theorem	60
3.5.4	Many \times Two Games	61
4	Mixed-Motive Games for Two	69
4.1	Complying, Violating, and Enforcing	70
4.1.1	Speed Limit	71
4.1.2	The Fourth Amendment and Mixed Strategy	74
4.2	Five Symmetric Games	76
4.2.1	SALT and Prisoner's Dilemma	76
4.2.2	Preference Order, Symmetry, and Separability	79
4.2.3	Chicken	83
4.2.4	Spite and Hero	87
4.3	Threat Games	89
4.3.1	Oil-Field Games	92
4.3.2	Balance of Terror	96
5	Circumstances of Play	101
5.1	Shades of Gray	102
5.1.1	Timing	102
5.1.2	Gradation	105
5.2	Repeated Play	107
5.2.1	When the Repetition Stops	107
5.2.2	Supergame Strategy	109
5.3	Information, Communication, and Bargaining Stratagems	115

6	Approaches to Resolution of Two-Person Conflict	125
6.1	Negotiated Solutions and Fairness	126
6.1.1	Payoff Graphs for Two-Person Games	127
6.1.2	Bargaining Principles and the Solution	130
6.1.3	Comparison of Status Quo Points	137
6.2	Solution by Government	141
6.2.1	Laissez-Faire	142
6.2.2	The Right to Breathe	144
7	Economic and Social Dilemmas	155
7.1	Graphs of Symmetric Dilemma Games	156
7.1.1	Parallel Straight-Line Graphs	157
7.1.2	Curves, Xs, and Other Graph Shapes	162
7.2	Real-World Dilemmas	169
7.2.1	Two-Tiered Dilemmas	170
7.2.2	Women, Men, and Couples	172
7.2.3	Subgroup Dilemmas	176
7.3	Promoting Cooperation	177
7.3.1	Information	181
7.3.2	Structure	185
8	Political Games	197
8.1	Coalitions	198
8.1.1	The New Baseball Game	199
8.1.2	The Characteristic Function	201
8.1.3	Solutions and Stability	208
8.1.4	Political Coalitions	213
8.2	Voting	216
8.2.1	A Paradox for Two-Dimensional Politics	217
8.2.2	Procedures, Principles, and the Powell Amendment	222
9	Experiments with Games	229
9.1	Why the Laboratory?	230
9.2	Lock-in and Tit-for-Tat	232
9.3	Who You Are	236
9.4	What You Know	238
9.5	Group Size and Cooperation	242
9.6	Experiments on Coalition-Formation	243

10 Cautions and Prospects	247
10.1 Points of View	247
10.2 Cautions	249
10.3 Prospects	252
Bibliography	255
Index	259
