Contents

Introduction: Current Issues in the Technology-Development Relationship	Richard Heeks	1
----------------------------------------------------------------------------	----------------------	----------

BASIC NEEDS - WATER AND ENERGY TECHNOLOGIES

The Use of Natural Coagulants to Treat Wastewaters for Agricultural Reuse in Developing Countries	R. G. H. Holmes, V. E. Travis, J. P. Sutherland and G. K. Folkard	15
---------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------	-----------

Rainwater Catchment Systems Technology: Recent Developments in Africa and Asia	J. E. Gould	24
-----------------------------------------------------------------------------------	--------------------	-----------

Sustainable Water Supply and Improved Sanitation for Low Income Communities	John Pickford	37
--------------------------------------------------------------------------------	----------------------	-----------

The Indus River and Pakistan's Economy: Energy, Environmental Resources, and Developmental Policy	Peter S. Meadows, Gareth Pender and Azra Meadows	40
---------------------------------------------------------------------------------------------------------	-------------------------------------------------------------	-----------

Wind Diesel Systems for Developing Countries	A. Scotney and D. G. Infield	51
----------------------------------------------	-------------------------------------	-----------

Constraints on the Diffusion of Small-Scale Hydropower in Northern Pakistan	A. A. Williams	60
--------------------------------------------------------------------------------	-----------------------	-----------

Technology Transfer for Local Manufacture of Mini- and Micro-Hydropower Equipment within Vietnam, Thailand and the Lao PDR	J. P. Green, D. E. MacPherson and A. R. Wallace	70
----------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------	-----------

POVERTY ALLEVIATION - AGRICULTURAL AND RELATED TECHNOLOGIES

Application of Biotechnology to Indigenous Fermented Foods	K. E. Aidoo	85
---------------------------------------------------------------	--------------------	-----------

Biotechnology for Poverty Alleviation in Third World Countries	Regina Maria A. A. Galhardi	94
-------------------------------------------------------------------	------------------------------------	-----------

Enzyme Production for Jute Processing	B. J. B. Wood, B. L. Ghosh and S. N. Sinha	106
Utilisation of Local Phosphate Deposits as a Fertiliser in Zambia	S. Simukanga, G. K. Nkonde and V. Shitumbanuma	123
Indigenous Knowledge - The Way Forwards or Backwards in Tropical Agricultural Development?	D. Fielding and K. Kirsopp-Reed	134
Technology Development in Road Construction and Maintenance for Developing Countries	R. C. Petts	146
INDUSTRIAL TECHNOLOGICAL CAPABILITIES		
Technology Policy and Industrialisation Policy in the Global Economy	Charles Cooper	159
The Effect of Some Sectoral Development Policies on Technology – The Case of the Informal Sector	J. G. M. Massaquoi	172
Intellectual Property and Third World Development: The Case of Indian Patent Law and Economic Development	Rajendra Prasad	181
TECHNOLOGY TRANSFER		
Technology Transfer and the Environment	Richard Sandbrook	195
Technology Transfer and International Organisations: The Question of Localisation	K. Y. Chooi, J. R. Webb and K. N. Bernard	198
The Role of International Organisations in Information Technology Transfer: The African Experience	Mayuri Odedra-Straub	215
Technology Transfer to Bangladesh: Aid-Dependence and Failures in Technology Acquisition	M. M. Huq	225
Workshop on 'Transfer of Technology'	Frank O'Reilly	242

Training for Labour-Based Road Construction and Maintenance	Andreas Beusch	247
Technology Education Under Reconstruction: The Case of Uganda	Ullrich Boehm	260
Computer Studies in Least Developed Countries: A Case Study of Zambia	Patrick H. Corr	270
SUMMARY PAPERS		283
