Contents

Keynote Address

Patterns in the Water: Patterns in the Sand?	1
A.J. Bowen	

Sand Suspension

Field Observations of Nearshore, Wave-Seabed Interactions.....	11
D. Hanes, C. Jette, E. Thosteson, and C. Vincent	
Mechanisms of Sand Suspending Under Non-Breaking and Breaking Irregular Waves.....	19
N. Pykhov, S. Kuznetsov, and H. Kunz	
Convection and Diffusion of Sediment Under Large Waves	28
A. Peet and A. Davies	

Shingle and Mixed Grain Sizes

Coastal Sediment Transport on Shingle Beaches	38
E. Van Wellen, A. Chadwick, P. Bird, M. Bray, M. Lee, and J. Morfett	
Hydrodynamics and Sediment Transport on Composite (Mixed Sand/Shingle) and Sand Beaches: A Comparison	48
T. Mason, G. Voulgaris, D. Simmonds, and M. Collins	
Grain-Size Influence on Sand Transport Mechanisms	58
M. Janssen, W. Hassan, R. van der Wal, and J. Ribberink	
Fractional Threshold of Motion for Mixed Sand Beds and Implications for Sediment Transport Modeling	68
S. Wallbridge and G. Voulgaris	
Selective Sediment Transport in the Nearshore Zone: Field Observations and Potential Mechanisms	78
P. Hoekstra and K. Houwman	
Cross-Shore Sand Transport and Bed Composition	88
L. van Rijn	

Wave Propagation in Shallow Water

A Nonstationary, Parametric Coastal Wave Model	99
N. Booij, L. Holthuijsen and R. Padilla-Hernandez	
A Simple PC-Based Significant Wave Model.....	108
T. Butt, P. Russell, and D. Huntley	
Finite Volume Solutions to Unsteady Free Surface Flow with Application to Gravity Waves.....	118
S. Mayer, A. Garapon, and I. Sørensen	

A Curvilinear, Third-Generation Coastal Wave Model	128
L. Holthuijsen, N. Booij, and R. Padilla-Hernandez	
Validation of Three-Dimensional Multigrid Wave Model Against Experimental Data	137
B. Li and C. Fleming	
Numerical Simulations of Wave Transformation in the Nearshore Zone	147
Y. Eldeberky, O. Sørensen, and J. Battjes	
Prediction of Velocity Field Under Waves Over Varying Depth	157
A. Otta, G. Klopman, and M. Dingemans	
Laboratory Observations and Numerical Simulations of Shoaling Surface Gravity Waves	167
F. Becq, M. Benoit, and P. Forget	
<i>Boundary Layers and Mixing</i>	
High-Resolution Measurements of Turbulent Fluxes and Dissipation Rates in the Benthic Boundary Layer	177
G. Voulgaris, J. Trowbridge, W. Shaw, and A. Williams III	
A Comparison of Field Observations and Quasi-Steady Linear Shear Instabilities	187
D. Foster, A. Bowen, R. Beach, and R. Homan	
Mixing Processes Due to Breaking Wave Activity in the Coastal Zone	197
J. Pearson, I. Guymer, L. Coates, and J. West	
Dispersive Mixing in the Nearshore	207
U. Putrevu and I. Svendsen	
<i>Sediment Transport Predictors</i>	
Comparison Between a Detailed Sediment Transport Model and an Energetics-Based Formula	217
R. Deigaard	
Spectral Test of the Energetic Approach for Suspended Sand Transport in the Surf Zone	227
S. Kuznetsov and N. Pykhov	
Effect of Bed Roughness on Net Sediment Transport by Asymmetrical Waves	235
C. Villaret and A. Davies	
Effect of Grain Size Gradation and Reference Concentration on Sediment Transport Beneath Large Waves	245
Z. Li and A. Davies	
<i>Breaking Waves</i>	
Near-Crest Pressure Gradient of Irregular Water Waves Approaching to Break	255
K. Nadaoka, O. Ono, and H. Kurihara	
Three-Dimensional Flow Field Measurement of Breaking Waves	265
J. Hamada and A. Mano	

Probability Distribution of Wave and Roller Energy in the Nearshore Zone.....	275
M. Boers	
Spectral Modeling of Nonlinear Wave Shoaling and Breaking over Arbitrary Depths.....	285
S. Beji and K. Nadaoka	
Wave Transformation in the Nearshore Zone: A Comparison Between a Non-Linear Model and Large Scale Laboratory Data	295
F. Ozanne, A. Chadwick, D. Huntley, and J. McKee-Smith	
Analysis of the Roller in Hydraulic Jumps	305
J. Veeramony and I. Svendsen	
<i>Megaripples and Bars</i>	
Sand Transport Over a Breaker Bar in the Surf Zone	315
B. Grasmeyer and L. van Rijn	
Dynamics of One Bar and Multibar Beach Profiles.....	325
G. Rozynski, Z. Pruszek, and P. Aminti	
<i>Remote Sensing and Video</i>	
Remote Sensing and Coastal Wave Research	337
P. Hwang and E. Walsh	
An Aerial Video System for Rapidly Measuring Sand Bar Morphology	346
C. Worley, T. Lippman, J. Haines, and A. Sallenger	
Strange Kinematics of Sand Bars	355
N. Plant and R. Homan	
Quantitative Estimations of Bar Dynamics from Video Images	365
S. Aarninkhof, P. Janssen, and N. Plant	
Cyclic Bar Behaviour Viewed by Video Imagery	375
K. Wijnberg and R. Holman	
The Evaluation of Large Scale (km) Intertidal Beach Morphology on a Macrotidal Beach Using Video Images.....	385
M. Davidson, D. Huntley, R. Holman, and K. George	
Experimental Study of Mixing Processes Using Video Images	395
A. Rodriguez, E. Bahia, M. Diez, A. Sánchez-Arcilla, J. Redondo, and M. Mestres	
<i>Wave-Current Interaction</i>	
On the Development of Complete Flow Models for Wave-Current Interactions.....	405
N. Madden, M. Stynes, and G. Thomas	
Modeling of Wave-Current Interaction at a River Mouth.....	415
B. O'Connor, S. Pan, and N. MacDonald	
Wave Refraction on a Horizontally Sheared Current in the UKCRF	425
R. MacIver and R. Simons	

Longshore Currents

Non-Linear Modeling of Shear Instabilities	436
A. Reniers and J. Battjes	
Shear Instability of the Longshore Current as a Function of Incoming Wave Parameters.....	446
M. Caballeria, A. Falqués, and V. Iranzo	
Horizontal Large-Eddy Computation of Longshore Currents	456
H. Yagi and K. Nadaoka	
Shear Instabilities of Longshore Currents: Flow Characteristics and Momentum Mixing During Superduck.....	466
T. Özkan-Haller and J. Kirby	

Beach Profiles

Morphological Effect of Spring-Neap Tidal Variations on Macrotidal Beaches	476
P. Fisher, T. O'Hare, and D.A. Huntley	
Simultaneous Observations on Irregular Waves, Currents, Suspended Sediment Concentration and Beach Profile Changes in Large Wave Flume.....	486
T. Shimizu and Y. Kawata	
Morphological and Sediment Budget Controls on Depth of Closure at Duck, NC.....	496
R. Nicholls and W. Birkemeier	
Depth of Closure: A Contribution to the Reconciliation of Theory, Practice, and Evidence	506
M. Copobianco, M. Larson, R. Nicholls, and N. Kraus	

Nearshore Circulation Patterns

Hydraulic Design of a Large-Scale Longshore Current Recirculation System	516
D. Hamilton, P. Neilans, J. Rosati, J. Fowler, and J. Smith	
Flow Modeling Using an Inverse Method with Direct Minimisation	526
G. Copeland	
Changes of Mean Flow Velocity Profiles in a GLM Formulation	536
J. Groeneweg, M. Dingemans, and G. Klopman	
Coastal Groundwater Dynamics.....	546
P. Nielsen	

Regional Studies

DELTA '96: Surf-Zone and Nearshore Measurements at the Ebro Delta	556
A. Sánchez-Arcilla, A. Rodriguez, J. Santás, V. Garcia, R. Kos'yan, S. Kuznetsov, and C. Mósso	
Littoral Processes, Sediment Budget and Coast Evolution in Vietnam.....	566
R. Zeidler and H. Nhuan	
Field Studies of Shore Evolution.....	576
A. Khabidov, L. Nikiforov, L. Zhindarev, V. Savkin, V. Alymov, and O. Muraenko	

Rip Currents

Rip Currents	584
G. Symonds, R. Homan, and B. Bruno	
Rip Channels and Nearshore Circulation	594
M. Haller, R. Dalrymple, and I. Svendsen	

Long-Term Morphodynamics

Coastal Evolution: Modeling Fabric and Form at Successive Spatial Scales	604
C. Reed, A. Niedoroda, D. Swift, Y. Zhang, J. Carey, and M. Steckler	
Long-Term Coastal Evolution and Regional Dynamics of a US Pacific Northwest Littoral Cell	614
G. Kaminsky, P. Ruggiero, G. Gelfenbaum, and C. Peterson	
Coastal Dynamics Applied to the Prediction of Beach Evolution: El Milagro Beach	624
J. Galofré, F. Montoya, and R. Medina	
Evaluation of Long-Term Dune Recession Data	634
H. Dette	
Prediction of Aggregated-Scale Coastal Evolution	644
H. de Vriend	
Long-Term Observations of Migrating Shore-Normal Bars	654
G. Gelfenbaum and G. Brooks	
Breaker Bar Dynamics Predicted by Kalman Filtering	664
W. Bakker, S. van der Biezen, A. Heemink, and M. Knaapen	

Effects of Coastal Structures

Wave Transmission and Set-Up at Detached Breakwaters	674
J. Loveless and D. Debski	
Composite Modeling of an Offshore Breakwater Scheme in the UKCRF	684
S. Ilic, A. Chadwick, B. Li, and C. Fleming	
CRF Study of Wave Kinematics in Front of Coastal Structures	694
J. Sutherland and T. O'Donoghue	
Suspended Sediment Response to Wave Reflection	704
J. Miles, P. Russell, and D. Huntley	
A Field Investigation of Functional Design Parameter Influence on Groin Performance: The Great Lakes Groin Performance Experiment	714
G. Meadows, W. Wood, B. Caufield, L. Meadows, T. Bennett, M. Perlin, H. VanSumeren, D. Carpenter, and R. Mach	
Interaction of Floating Breakwaters with the 2DH Hydrodynamic Processes in the Coastal Zone	724
E. Kriezi, T. Karambas, C. Koutitas, and P. Prinos	
Field Measurements of Wave Transmission Through a Rubble Mound Breakwater	734
D. Simmonds, A. Chadwick, P. Bird, and D. Pope	

Beach Variability Behind Detached Breakwaters	744
P. Axe and A. Chadwick	
Large-Scale Hydrodynamic Experiments on Submerged Breakwaters.....	754
F. Rivero, A. Sánchez-Arcilla, X. Girondeila, and A. Corrons	
Modeling of Hydrodynamic and Morphological Effects of Submerged Breakwaters on the Nearshore Region	764
T. Karambas, P. Prinos, and E. Kriezli	

Swash and Intertidal

Monitoring and Modeling Ground Water Behaviour in Sandy Beaches as a Basis for Improved Models of Swash Zone Sediment Transport.....	774
A. Baird, T. Mason, D. Horn, and T. Baldock	
Swash Hydrodynamics on a Steep Beach.....	784
T. Baldock and P. Holmes	
Measuring Swash Hydrodynamics on a Laboratory Beach.....	794
M. Foote and D. Horn	
Toward a Better Understanding of Swash Zone Sediment Transport.....	804
M. Hughes, G. Masselink, D. Hanslow, and D. Mitchell	
Surf Zone and Swash Zone Sediment Dynamics on High Energy Beaches: West Auckland, New Zealand.....	814
P. Osborne and G. Rooker	
Suspended Sediment Transport and Morphological Evolution on an Intertidal Beach.....	824
T. Aagard, J. Nielsen, N. Nielsen, and B. Greenwood	
The Erosion Response of Estuarine Mudflats to Tidal Currents and Waves.....	834
M. Christie, K. Dyer, and D. Huntley	

Beach Nourishment

Beach Topography Response to Nourishment Operations at Ocean City, Maryland	844
M. Larson, H. Hanson, N. Kraus, and M. Gravens	
On Beach Nourishment Design	854
K. Peters, J. Newe, and H. Dette	
Shoreface Nourishment at Terschelling, the Netherlands: Feeder Berm or Breaker Berm?	863
R. Spanhoff, E. Biegel, J. van de Graaff, and P. Hoekstra	
Sand Bar Dynamics and Offshore Beach Nourishment	873
B. Boczar-Karakiewicz, W. Romanczyk, and J. Bona	

Morphodynamic Modelling

Morphodynamic Modeling of Shoreface Bars.....	883
S. Hulscher	

Modeling of Seasonal Variations by Cross-Shore Transport Using One-Line Compatible Methods.....	893
H. Hanson, M. Larson, N. Kraus, and M. Capobianco	
A Behavior-Oriented Model for the Evaluation of Long-Term Lagoon-Coastal Dynamic Interaction Along the Po River Delta	903
M. Stive, P. Ruol, M. Capobianco, and M. Buijsman	
A Conceptual Model for Barrier Coasta Behaviour at Decadal Scale: Application to the Trabucador Bar	913
J. Jimenez and A. Sánchez-Arcilla	
Sediment Transport Model and Its Application for Assessment of Sedimentation in Navigable Channels	923
L. Kaczmarek and R. Ostrowski	
Equilibrium Beach Profiles: Effect of Refraction	933
M. González, R. Medina, and M. Losada	
The Role of Chronology in Long-Term Morphodynamics: Theory, Practice and Evidence	943
H. Southgate and M. Capobianco	
<i>Wave-Induced Circulation</i>	
Measurements at a Cusped Beach in the UKCRF	953
A. Borthwick, Y. Foote, and A. Ridehalgh	
Wave-Induced Currents in Multiple-Bar Nearshore Zone.....	963
M. Szmytkiewicz, Z. Pruszek, and R. Zeidler	
Investigating Nearshore Circulation Using Inverse Methods.....	973
F. Feddersen, R. Guza, and S. Elgar	
<i>Tidal Inlets</i>	
Hydrodynamics and Wave Transformation at Selected South Carolina Tidal Inlets.....	983
P. Work, and S. Riffat	
Current-Induced Breaking at an Idealized Inlet.....	993
J. McKee Smith, D. Resio, and C. Vincent	
Seasonal Closure of Tidal Inlets.....	1003
R. Ranasinghe and C. Pattiaratchi	
<i>Groupiness and Long Waves</i>	
Wave Groups from Deep to Shallow Water	1013
C. Bird and D.H. Peregrine	
Cross-Shore Variability of Infragravity Wave Pressure and Velocities on a Barred Beach	1023
T. Lippmann, T. Herbers, and E. Thornton	
Analysis of Infragravity Wave-Driven Sediment Transport on Macrotidal Beaches.....	1033
A. Saulter, T. O'Hare, and P. Russell	

Seabed Effects

Ripple Characteristics and Bed Roughness Under Tidal Flow	1043
R. Whitehouse, H. Mitchener, and R. Soulsby	
Large-Eddy Computation of Horizontal Fluidized Bed by a New Multiphase LES	1053
Y. Nihei, K. Nadaoka, and H. Yagi	
Subject Index	1063
Author Index	1067
