Contents

Preface vii
Acknowledgements xv
Introduction xix

1. The Desert Environment 1
   Generalities 1
   Measures of Intensity 4
   Climatic Comparisons 9
   Origins and Evolution of Desert Herpetofaunae 18
   Commonalities 41

2. The Maintenance of Physiological Homeostasis in the Desert Environment 44
   Avant Propos 44
   Thermoregulation in Desert Reptiles 47
   Water and Electrolyte Balance 90
   Hormonal Control of Water and Electrolyte Balance in Reptiles 122
   Conclusion 149
### Contents

#### 3. Reproductive Strategies of Desert Reptiles
- Hormonal Control of Gametogenesis and Reproductive Behaviour in Reptiles 153
- Climatic Correlates of Reproductive Patterns in Reptiles 178
- Measurements of Reproductive Effort in Desert Reptiles 186
- Conclusion 190

#### 4. Growth and Population Dynamics of Desert Reptiles
- Growth 192
- Population Dynamics and the Interpretation of Life-History Phenomena 204
- Comparative Demography 216
- Conclusion 230

#### 5. Causes and Incidence of Mortality in Desert Lizards: Three Case Studies
- Amphibolurus nuchalis at Shark Bay in Western Australia 233
- Uromastix acanthinurus in the Saharan Desert 259
- Sauromalus obesus in the Mojave Desert 268

#### 6. Conclusion 275
