

Luca Caneparo

Digital Fabrication in Architecture, Engineering and Construction

Editorial

Antonietta Cerrato

Translation

Carolyn Winkless

Springer

Contents

1	Introduction	1
	References	5
2	Origins of Industrial Production and Prefabrication	7
2.1	Uniformity and Standardisation	9
2.2	Mass Production.....	11
2.3	Rise and Decline of Mass Production at Ford Motor Company	15
2.4	Types of Mass Produced Houses at Gunnison Magic Homes	16
2.5	Automobile Industry in Germany	20
2.6	Prefabrication at Christoph & Unmack.....	22
2.7	General Panel Corporation	30
2.8	The Balloon Frame System	43
	References	47
3	Digital Production	51
3.1	Origins.....	52
3.2	Automation and Technological Convergence	56
3.3	Computerisation of Industry	57
3.3.1	From Universal Language to Numerical Control.....	59
3.3.2	Language of Numerical Control.....	61
3.4	Industrial Districts.....	63
3.4.1	Horizontal Integration	64
3.4.2	Vertical Integration.....	65
	References	73
4	Design for Manufacture.....	77
4.1	Analysis of the Manufacturing Processes	80
4.1.1	Mass-Change Processes	81
4.1.2	Phase-Change Processes	82
4.1.3	Structure-Change Processes	83

4.1.4	Deformation Processes.....	84
4.1.5	Joining and Consolidation Processes	86
4.1.6	Rapid Prototyping Processes.....	89
4.1.7	Integrated Processes	91
4.2	Analysis of the Shape and Specifications of the Piece.....	100
4.3	Frank Gehry Partners, Fish Sculpture at the Olympic Village in Barcelona	101
4.4	Foster+ Partners, Swiss Re Tower in London	108
	References.....	115
5	Digital Manufacture of Metals.....	117
5.1	Mass-Change Processes	119
5.1.1	Turning	119
5.1.2	Drilling	120
5.1.3	Milling.....	121
5.1.4	Grinding	122
5.1.5	Machining Centres	122
5.1.6	Erosion	123
5.2	Phase-Change Processes	124
5.2.1	Investment Moulds	125
5.2.2	Permanent Moulds	126
5.3	Deformations.....	126
5.3.1	Rolling.....	127
5.3.2	Forming	127
5.3.3	Forging	127
5.3.4	Extrusion	130
5.4	Joining and Consolidation.....	130
5.4.1	Welding	130
5.5	Industrial Robots	133
5.5.1	Cartesian Robots	133
5.5.2	Cylindrical Robots	133
5.5.3	Anthropomorphic Robots.....	134
5.5.4	SCARA Robots.....	134
5.6	Barkow and Leibinger, Gatehouse in Stuttgart	135
5.7	Randall Stout Architects, Art Gallery of Alberta.....	145
	References.....	162
6	Digital Woodworking.....	163
6.1	Mass-Change Processes	165
6.1.1	Mass-Change Processes with the Removal of Wood Shavings	166
6.1.2	Machining Centres	168
6.1.3	Mass-Change Processes Without the Removal of Wood Shavings	169
6.2	Deformations.....	170

6.3	Joining and Consolidating.....	172
6.3.1	Plywood.....	173
6.3.2	Laminated Veneer.....	173
6.3.3	X-Lam Panels.....	176
6.4	Jürgen Mayer H. Architects, Metropol Parasol in Seville.....	178
6.5	The Rebuilding of the Inner Dome of the Teatro Petruzzielli in Bari.....	187
6.5.1	History of the Rebuilding.....	187
6.5.2	Construction Project.....	190
6.5.3	Three-Dimensional Modelling of the Structure.....	192
6.5.4	Structural Check.....	193
6.5.5	Prefabrication on the Shop Floor.....	195
6.5.6	Assembling on Site.....	198
	References.....	200
	Project Credits.....	201
4.4	Foster + Partners, Swiss Re Tower, London.....	201
5.6	Barkow and Leibinger, Gatehouse, Stuttgart.....	202
5.7	Randall Stout Architects, Art Gallery, Alberta.....	202
6.4	Jürgen Mayer H. Architects, Metropol Parasol, Seville.....	202
6.5	The Rebuilding of the Inner Dome of the Teatro Petruzzielli, Bari.....	203
	Illustration Credits.....	205
	Chapter 2.....	205
	Chapter 3.....	206
	Chapter 4.....	207
	Chapter 5.....	209
	Chapter 6.....	212
	Index.....	215
