

Proceedings of the

**2nd Symposium on
Structural Durability
in Darmstadt SoSDiD**

June 5-6, 2008
"darmstadtium", Darmstadt/Germany

Editor: H. Th. Beier
M. Vormwald

CONTENTS

Opening Lecture

Current developments and trends on structural durability M. Bacher-Höchst	3
--	---

Kurt Klöppel Lectures

The effects of microstructural barriers on short fatigue crack propagation and cyclic life H.-J. Christ, O. Düber, H. Knobbe, C.-P. Fritzen, U. Krupp, B. Künkler, P. Köster	21
Short crack approach for multiaxial fatigue assessment M. Vormwald, O. Hertel	33
Crack growth predictions using a strip-yield model for variable-amplitude and spectrum loading J. C. Newman, B. Ziegler, Y. Yamada	51
Variable amplitude fatigue of autofrettaged diesel injection parts J. W. Bergmann, R. Thumser, E. Herz, O. Hertel, M. Vormwald	67
Fatigue assessment of welded joints – possibilities and limitations of commercial fatigue software S. Greuling	81
Size effects in the fatigue behavior of welded tubular bridge joints A. Nussbaumer	91

Ernst Gaßner Lectures

Advanced durability evaluation in vehicle design and validation process M. Brune	109
Structural health monitoring of fiber composites M. Lehmann, H. Hanselka, A. Büter	125

High performance data acquisition systems using optical sensors in structural testing T. Haber, A. Csipkes, J. Miller	139
Service fatigue design of complex welded construction equipment J. Samuelsson, B. Jonsson, Z. Barsoum	153
Structural durability criteria for commercial vehicle components from the self strengthening cast ausferrite nodular iron C. M. Sonsino, R. Zinke, A. Heinrietz, R. Heim, H. Hanselka, M. Streicher	167
Fatigue assessment of seam welds of automotive components by local stress approaches T. Bruder, K. Störzel, J. Baumgartner	183
 August Thum Lectures	
Beyond HCF – is there a fatigue limit? P. Pyttel, C. Berger	201
Structural durability of high strength aluminium bolts U. Arz, C. Berger	217
Influence of porosity and environmental impact on fatigue life of magnesium alloys J. Grimm, P. Heuler, T. Trossmann, K. Fuhrmann, K.-G. Eulitz	237
Material and fatigue life models for thermomechanically loaded aluminium components W. Eichseder, G. Winter, H. Köberl	257
Anisotropic damage development in multiaxial creep-fatigue M. Sakane, S. Zhang	271
Turbine housing lifetime evaluation of turbocharger V. Simon, A. Scholz	283
Acknowledgments	303
