<i>Preface</i>		<i>page</i> ix
<b>1</b>	<b>Introduction: the theory in outline</b>	1
	1.1 Tax theory and the causes of inequality	1
	1.2 Institutional inequality	4
	1.3 An illustration of institutional inequality	8
	1.4 The specification of work and leisure and the effects of income taxation under institutional inequality	13
<b>2</b>	<b>Institutional inequality: a theory of crowding</b>	17
	2.1 Theories of trade and income distribution	17
	2.2 Institutional restrictions and the organisation of production	21
	2.3 Production functions and equilibrium conditions	22
	2.4 Institutional restrictions on employment	25
	2.5 Crowding in the short run	26
	2.6 Crowding in the long run	29
<b>3</b>	<b>The life cycle and institutional inequality</b>	33
	3.1 Life cycle changes in productivity and inequality	33
	3.2 Intergenerational trade	35
	3.3 Intergenerational trade and institutional inequality	41
	3.4 Family formation: a response to local public goods or to institutional constraints?	43

---

<b>4</b>	<b>Work, leisure, institutional restrictions and income taxation</b>	<b>47</b>
4.1	The specification of work and leisure	47
4.2	The crowding of women in the household sector	51
4.3	The effects of constraints on household size	53
4.4	The structure of income taxation	56
4.5	The tax unit	58
4.6	The optimal tax structure with the wage income of the dependent spouse untaxable	63
<b>5</b>	<b>The incidence of income taxation as a tax on trade</b>	<b>67</b>
5.1	Income taxation as a tax on trade between the market and household sectors	67
5.2	The incidence of a tax on trade	69
5.3	The incidence of income taxation in an economy of single earner households	71
5.4	The incidence of income taxation with constraints on the activities of firms	73
5.5	The incidence of income taxation on household incomes	75
5.6	A reinterpretation of the rules for optimal taxation with leisure untaxable	76
5.7	Optimal taxation with leisure and wage income within the market sector and within the household untaxable	81
5.8	A note on the interpretation of labour supply responses	82
<b>6</b>	<b>The incidence of progressive income taxation under institutional inequality</b>	<b>85</b>
6.1	A progressive income tax under crowding inequality	85
6.2	The incidence of income taxation	86
6.3	Income taxation and occupation cartels	91
6.4	The incidence of benefits from public projects	93

---

<b>7</b>	<b>Population growth and family policy</b>	<b>95</b>
7.1	Child dependency and optimal population policy	95
7.2	Population growth effects of restrictions on the employment of women	96
7.3	Joint taxation and institutional inequality	100
7.4	Family policy	101
<b>8</b>	<b>Conclusions and directions for policy</b>	<b>107</b>
8.1	Unemployment, factor intensities and tax incidence	107
8.2	Policy implications of a crowding theory of inequality and tax incidence	109
8.3	Concluding comment	112
