| Introduction | | ix |
|--------------|--|----|
| Ac | knowledgements | xv |
| 1 | ECONOMIC MODELLING | 1 |
| | Specification | 3 |
| | Measurement Problems | 15 |
| | Estimation | 17 |
| | Model Selection | 25 |
| 2 | CONSUMERS' EXPENDITURE | 33 |
| | Aggregate Propensity to Consume | 34 |
| | Composition of Consumers' Expenditure | 37 |
| | Consumers' Expenditure on Durables and Non-durables | 37 |
| | Measurement Problems | 38 |
| | Three Major Theories of Consumers' Behaviour | 39 |
| | A Model of the Average Propensity to Consume | 44 |
| | Empirical Evidence | 49 |
| | Conclusions | 53 |
| 3 | INVESTMENT AND STOCKBUILDING | 55 |
| | Volume and Composition of Investment and Stockbuilding | 56 |
| | Determination of Fixed Investment Expenditure | 59 |
| | Determinants of Stockbuilding | 69 |
| | Determinants of Capacity Utilisation and Industrial | |
| | Production | 72 |
| 4 | THE TRADE BALANCE | 73 |
| | Import Penetration | 74 |
| | Modelling Imports and Exports | 78 |
| | Imports | 79 |
| | Exports | 82 |
| | Import Prices and Export Prices | 86 |
| | | |

. .

| 5 | THE MONETARY SECTOR | 88 |
|----|---|-----|
| | Definitions of Money | 88 |
| | The Transmission Mechanism of Monetary Policy | 92 |
| | The Controllability of Money Stock | 96 |
| | The Rest of the Monetary Sector | 99 |
| | The Government Budget Constraint (GBC) | 100 |
| | Empirical Evidence | 102 |
| 6 | THE GOVERNMENT SECTOR | 110 |
| | Expanding State Activity - Theoretical Foundations | 111 |
| | Size and Composition of Government Expenditure, 1955-77 | 116 |
| | Determinants of Government Expenditure | 121 |
| | Determinants of Government Revenue | 125 |
| | Empirical Evidence | 126 |
| 7 | INFLATION AND UNEMPLOYMENT | 130 |
| | Theoretical Considerations | 132 |
| | The Expectations Hypothesis and the Natural Rate of | 199 |
| | | 100 |
| | Keynesian Unemployment Reconsidered | 138 |
| | inilation-unemployment and the Empirical Evidence | 141 |
| 8 | THE FULL ANNUAL MODEL IN SUMMARY FORM | 150 |
| | Summary of Instrumental-Variables Technique for the | |
| | Annual Model | 150 |
| | Definition of Variables and Sources | 157 |
| | Endogenous variables | 157 |
| | Exogenous variables | 159 |
| | Some Important Features of the Model | 160 |
| 9 | DYNAMIC BEHAVIOUR AND POLICY CHARACTERISTICS OF THE | |
| | MODEL | 166 |
| | The Meaning of Simulation | 166 |
| | Simulation Results of the Annual Model | 174 |
| | Model Behaviour and Dynamic Multipliers | 185 |
| | Policy Optimisation: The Optimal Control Approach | 200 |
| | Optimal Control in the Annual Model | 205 |
| Ap | pendix: OLS - Estimates of Full Annual Model | 211 |
