Preface	<i>page xi</i>
Introduction	1
1 Expectations and the real balance effect	8
1.1 Classical and neoclassical views on money	10
1.2 Structure of the model	14
1.3 Short-run demand functions	16
1.4 The existence of a short-run Walrasian monetary equilibrium	21
1.5 The expected utility of money	27
1.6 Stationary states	32
1.7 The neutrality of money	38
Notes on the literature	45
Suggested reading	46
2 Money and credit in the short run	48
2.1 Structure of the model	51
2.2 Neoclassical views on inside and outside money	53
2.3 Short-run demand and supply functions	62
2.4 Pegging the interest rate	70
2.5 Controlling the money supply	79
2.6 The neutrality of money	91
Notes on the literature	95
Suggested reading	95

3	Classical stationary states with money and credit	96
3.1	Consumers' characteristics	98
3.2	Long-run demands and supplies	99
3.3	The equations of steady states	103
3.4	Golden Rule steady states	109
3.5	Balanced steady states	113
3.6	Remarks on dynamics	117
	Notes on the literature	121
	Suggested reading	121
4	Open-market policies and liquidity	122
4.1	Neoclassical theory revisited	124
4.2	Consumers' characteristics	131
4.3	Short-run demands	132
4.4	Pegging the interest rate	135
4.5	Controlling the money supply	140
4.6	The liquidity trap	144
4.7	The neutrality of money	147
	Notes on the literature	149
	Suggested reading	149
	Conclusion	150
	APPENDIXES	153
A	Preliminaries	155
A.1	Basic notions	155
A.2	Functions and correspondences	157
A.3	Competitive equilibrium	159
A.4	Demand correspondences	160
B	Expectations and the real balance effect	164
B.1	Demand functions	164
B.2	Short-run Walrasian equilibrium	166
B.3	Stationary states	167
C	Money and credit in the short run	170
C.1	Demands and supplies	170
C.2	Pegging the interest rate	174
C.3	Controlling the money supply	175

D	Classical stationary states with money and credit	179
D.1	Long-run demands and supplies	179
D.2	Golden Rule steady states	181
D.3	Balanced steady states	185
E	Open-market policies and liquidity	186
E.1	Short-run demand correspondences	186
E.2	Pegging the interest rate	188
E.3	Controlling the money supply	190
E.4	The liquidity trap	191
	References	193
	Index	197
